Europe's Population In The Interwar Years Princeton University. Office of Population Research, Dudley Kirk, 1968 First Published in 1969 Routledge is an imprint of Taylor Francis an informa company ...**Europe's population in the interwar years, by D.Kirk** Princeton University. Office of Population Research, Dudley Kirk, *Europe's Population in the Interwar Years* Princeton University, 1946 **Europe's Third World** Derek H. Aldcroft, 2016-04-29 Economic historians have perennially addressed the intriguing question of comparative development asking why some countries develop much faster and further than others Focusing primarily on Europe between 1914 and 1939 this present volume explores the development of thirteen countries that could be said to be categorised as economically backward during this period Albania Bulgaria Estonia Greece Hungary Latvia Lithuania Poland Portugal Romania Spain Turkey and Yugoslavia These countries are linked not only in being geographically on Europe's periphery but all shared high agrarian components and income levels much lower than those enjoyed in western European countries The study shows that by 1918 many of these countries had structural characteristics which either relegated them to a low level of development or reflected their economic backwardness characteristics that were not helped by the hostile economic climate of the interwar period It explores region by region how their progress was checked by war and depression and how the effects of political and social factors could also be a major impediment to sustained progress and modernisation For example in many cases political corruption and instability deficient administrations ethnic and religious diversity agrarian structures and backwardness population pressures as well as international friction were retarding factors In all this study offers a fascinating insight into many areas of Europe that are often ignored by economists and historians It demonstrates that these countries were by no means a lost cause and that their post war performances show the latent economic potential that most harboured By providing an insight into the development of Europe's periphery a much more rounded and complete picture of the continent as a whole is achieved

East Central Europe Wojciech Roszkowski, 2015-01-01 What is East Central Europe Can it be defined with any precision The question of definition is a difficult one as is usually the case concerning borderlands whose historical developments show little continuity and an uncertain identity born of the conflict between aspirations and reality It is in East Central Europe that no peace settlement is ever final no frontiers are secure and each generation must begin its work anew Is there any chance that this definition will become out of date **The European Population, 1850-1945 F.**

Rothenbacher, 2017-02-10 The European Population 1850 1945 is the first volume of two on demographics The second volume will appear as part of the Societies of Europe series in 2003 and will cover changes until the year 2000 The European Population 1850 1945 is a comparative and historical data handbook and accompanying CD ROM presenting series data on demographic developments population and household structures for the countries of Western and Central Europe All major fields of demographic change are covered fertility mortality marriage and divorce Population figures are given for each

population census by sex civil status and age Major demographic developments within the family are described providing a commentary on the main population structures and trends in Europe since the 19th century *Studies in the Interwar European Economy* Derek H. Aldcroft,2019-05-23 First published in 1997 this book analyses some of the key economic issues facing Europe in the interwar period against the uncertain international political and economic background of the time Among the subjects discussed are the legacy of the peace settlements inflation trade and reconstruction international lending depression and recovery the position of Eastern and Central Europe and the progress of the peripheral nations The book contends that the peace treaties raised more problems than they solved while the policy mistakes of the Allied powers after the First World War and their failure to devise an adequate programme of economic and financial reconstruction weakened the already divided continent contributing to its disintegration The Economic History of Central, East and South-East Europe Matthias Morys,2020-12-29 The collapse of communism in Central East and South East Europe CESEE led to great hopes for the region and for Europe A quarter of a century on the picture is mixed in many CESEE countries the transformation process is incomplete and the economic catch up has taken longer than anticipated The current situation has highlighted the need for a better understanding of the long term political and economic implications of the Central East and South East European historical experience This thematically organised text offers a clear and comprehensive guide to the economic history of CESEE from 1800 to the present day Bringing together authors from both East and West the book also draws on the cutting edge research of a new generation of scholars from the CESEE region Presenting a thoroughly modern overview of the history of the region the text will be invaluable to students of economic history and CESEE area studies

Dark Continent Mark Mazower,2009-05-20 An unflinching and intelligent alternative history of the twentieth century that provides a provocative vision of Europe s past present and future A splendid book The New York Times Book Review Dark Continent provides an alternative history of the twentieth century one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take Mark Mazower strips away myths that have comforted us since World War II revealing Europe as an entity constantly engaged in a bloody project of self invention Here is a history not of inevitable victories and forward marches but of narrow squeaks and unexpected twists where townships boast a bronze of Mussolini on horseback one moment only to melt it down and recast it as a pair of noble partisans the next *Europe's Population in the Interwar Years* ,1946 The Demographic Characteristics of Immigrant Populations Werner Haug,Council of Europe.
