**Statistical References** Statistical Office of the European Communities,2001

**OECD Economic Surveys: Euro Area 2004** OECD,2004-07-29 OECD s 2004 Economic Review of the Euro area puts forward a number of policy recommendations that seek to heighten the area s resilience against adverse shocks This edition s special feature is titled Regions at Work

*The Oxford Handbook of Postwar European History* Dan Stone,2012-05-17 The postwar period is no longer current affairs but is becoming the recent past As such it is increasingly attracting the attentions of historians Whilst the Cold War has long been a mainstay of political science and contemporary history recent research approaches postwar Europe in many different ways all of which are represented in the thirty five chapters of this book As well as diplomatic political institutional economic and social history The Oxford Handbook of Postwar European History contains chapters which approach the past through the lenses of gender espionage art and architecture technology agriculture heritage postcolonialism memory and generational change and shows how the history of postwar Europe can be enriched by looking to disciplines such as anthropology and philosophy The Handbook covers all of Europe with a notable focus on Eastern Europe Including subjects as diverse as the meaning of Europe and European identity southern Europe after dictatorship the cultural meanings of the bomb the 1968 student uprisings immigration Americanization welfare leisure decolonization the Wars of Yugoslav Succession and coming to terms with the Nazi past the essays in this Handbook offer an unparalleled coverage of postwar European history that offers far more than the standard Cold War framework Readers will find self contained state of the art analyses of major subjects each written by an acknowledged expert as well as stimulating and novel approaches to newer topics Combining empirical rigour and adventurous conceptual analysis this Handbook offers in one substantial volume a guide to the numerous ways in which historians are now rewriting the history of postwar Europe

**Key Publications of the European Union** ,2005

[The New World Architecture](#) Jose Magone,2017-07-28 The collapse of the bipolar world sustained by the United States and the former Soviet Union led to a power vacuum in the 1990s that the European Union has only reluctantly begun to fill It is under pressure to take over important international tasks and roles in order to develop a new equilibrium in the system of

international relations After 2000 reforms were undertaken so that the European Union could deal more efficiently with the tasks the new political system had acquired since the early 1990s With respect to its international role reorganization of the EU's external relations department was high on the list The New World Architecture explores the contribution that the European Union is making to the emerging global governance system It discusses the theoretical and historical aspects of European integration within the framework of the emerging regional EU and global governance systems It explores three regimes of governance that are contributing to holding together the new emerging EU multilevel governance system None of these is complete all are partial They include the political regime of governance the socioeconomic regime of governance and the territorial regime of governance The author assesses the impact of the European Union on global politics The Mediterranean and Latin America represent regions in which the European Union is investing considerable effort in order to create new forms of cooperation Magone argues that within the next twenty five years global governance may and should emerge as the new and reconfigured stable system of international relations In this system the European Union is and will remain the most advanced regional system This volume will be of interest to specialists scholars and students of European Politics and the European Union

In search of social democracy John Callaghan, Nina Fishman, Ben Jackson, Martin McIvor, 2017-05-26 This electronic version has been made available under a Creative Commons BY NC ND open access license The search for social democracy has not been an easy one over the last three decades The economic crisis of the 1970s and the consequent rise of neo liberalism confronted social democrats with difficult new circumstances tax resistant electorates the globalisation of capital and Western deindustrialisation In response a new bout of ideological revisionism consumed social democratic parties But did this revisionism simply amount to a neo liberalisation of the Left or did it propose a recognisably social democratic agenda Were these ideological adaptations the only feasible ones or were there other forms of modernisation that might have yielded greater strategic dividends for the Left Why did some social democratic parties feel it necessary to take their revisionism much further than others In search of social democracy brings together prominent scholars of social democracy to address these questions Focusing on the social democratic heartland of Western Europe although Australia and the United States also figure in the analysis it gives the first detailed assessment of how the new social democratic revisionism has fared in government The book begins by considering the underlying causes of the end of social democracy's golden age and the magnitude of the challenges faced by social democratic parties after the 1970s It then proceeds to examine detailed case studies of how particular social democratic parties responded to this changed political terrain Finally it contributes to a broader conversation about the future of social democracy by considering ways in which the political thought of third way social democracy might be radicalised for the twenty first century The contributors offer a variety of perspectives some are sceptical of social democracy's prospects others more sanguine some supportive of the performance of social democratic parties in government others bitingly critical But they are united by the conviction that the

themes addressed in this book are crucial to understanding the current politics of the industrialised world and in particular to determining the feasibility of more egalitarian and democratic social outcomes than have been possible so far in the era of neo liberalism

*The Trader's Guide to the Euro Area* David J. Powell, 2013-08-14 The euro area remains in a state of flux and appears to be unsustainable in its present form The outcome of the crisis may be unknown for years and a judgement on the project's success or failure may be out of reach for decades In the meantime analysts portfolio managers and traders will still have daily weekly quarterly and annual benchmarks They will have to analyze economic developments in the euro area and their impacts on financial assets The objective of this book is to provide a framework for that analysis that is comprehensible to most financial market participants The book begins with a focus on coincident and leading economic indicators for the euro area The following section looks at euro area institutions The next chapter focuses on the euro crisis It attempts to provide an explanation of its origins and a glimpse of the potential outcomes In addition the tools needed to analyze the crisis as it evolves are presented The last sections provide information unique to the economies of Germany France the U K Switzerland Sweden and Norway

**GLOBAL AGING ISSUES AND POLICIES** Yushi (Boni) Li, 2013-06-01 Aging society is an urgent global issue that challenges almost all human societies in the world When nations evolve into aging societies they must establish and implement policies and approaches to meet the needs of the elderly population such as elderly services long term care health care policies institutional facilities illness and healing processes financial support and retirement life and leisure The fundamental purpose of this book is to help students and readers develop their knowledge on worldwide elderly issues To accomplish this goal the text incorporates 18 chapters from different countries with a variety of aging topics which are divided into continents including Africa Asia Europe North and South America and the Oceanic Islands Specific chapters from the following countries regions are included Sub Saharan Africa South Africa China Japan Israel Singapore Thailand Austria United Kingdom Estonia Portugal Spain Sweden United States Australia New Zealand Argentina and Uruguay By sharing these regions and nations elderly issues and their particular solutions to the challenges it provides readers with global views on current aging processes policies and strategies The book effectively helps readers understand that the increase of the elderly population is a major development of the 21st century The text further helps comprehend the importance of improving the elderly population's overall quality of life as well as valuing the contribution they can make to their communities and society The reader will gain insights about why global elderly issues are critical and how the lives of elderly have been impacted and influenced by different policies societies and cultures in which they live The book is designed as a college text for study of aging issues with a global perspective Also any readers interested in topics of the elderly will find the book to be a most beneficial resource

**Gender, Work, and Economy** Heidi Gottfried, 2013-11-15 This engaging new text uses a feminist lens to crack open the often hidden worlds of gender and work addressing enduring questions about how structural inequalities are produced and why they persist Making visible the social relationships that

drive the global economy the book explores how economic transformations not only change the way we work but how we live our lives The full extent of changing patterns of employment and the current financial crisis cannot be fully understood in the confines of narrow conceptions of work and economy Feminists address this shortcoming by developing both a theory and a political movement aimed at unveiling the power relations inherent in old and new forms of work By providing an analysis of gender work and the economy Heidi Gottfried brings to light the many faces of power from the bedroom to the boardroom A discussion of globalization is threaded throughout the book to uncover the impact of increasing global interconnections and vivid case studies are included from industrialized countries such as the US and the global cities of New York London and Tokyo as well as from developing countries and the emerging global cities of Beijing Shanghai and Dubai This comprehensive analysis of gender and work in a global economy incorporating sociology geography and political economy perspectives will be a valued companion to students in gender studies and across the social sciences more generally **The Boomerang Age**

Barbara Mitchell, 2017-07-05 The Boomerang Age was named an Outstanding Academic Title of 2007 by Choice Magazine Domestic changes are taking place in the lives of young adults in Western industrialized societies Today's young people often experience less permanency and more movement in a variety of family related roles statuses and living arrangements Among the most prominent changes is the phenomenon of boomerang kids young adults returning to the parental home after their initial entrance into the adult world The Boomerang Age explores the implications of this development in a changing sociocultural economic and demographic landscape Mitchell begins by addressing definitional conceptual and measurement issues relevant to the boomerang age She then places the issues in historical perspective by considering trends in family organization the nuclear family marriage and divorce rates and fertility over the past hundred years with emphasis on the 1950s family as a cultural benchmark The book then turns to the contemporary trajectory of home leaving and returning analyzing the launch and return phases with regard to economic factors regional differences and racial and ethnic backgrounds Mitchell then explores the more personal dimensions of how a return to the family is complicated by partnership marriage divorce cohabitation homosexuality and parenthood among young couples Moving outside the home she looks at how public issues such as globalization the decline of the welfare state and various forms of social inequality affect the circumstances of young adulthood Here Mitchell offers specific social policy recommendations pertaining to education housing and dependency issues childcare and gender and racial equality The book concludes by critically evaluating the advantages and drawbacks of two possible future scenarios increased individualization in the pursuit of social

**Senses and Citizenships** Susanna Trnka, Christine Dureau, Julie Park, 2013-05-02 What does disgust have to do with citizenship How might pain and pleasure movement taste sound and smell be configured as aspects of national belonging Senses and Citizenships Embodying Political Life examines the intersections between sensory phenomena and national and supra national forms of belonging introducing the new concept of sensory citizenship Expanding upon contemporary

understandings of the rights and duties of citizens the volume presents anthropological investigations of the sensory aspects of participation in collectivities such as face to face communities ethnic groups nations and transnational entities Rethinking relationships between ideology aesthetics affect and bodily experience the authors reveal the multiple political effects of the senses The book demonstrates how various elements of political life including some of the most fundamental aspects of citizenship rest not only upon our senses but on their perceived naturalization Vivid ethnographic examples of sensory citizenship in Europe the United States the Pacific Asia and the Middle East explore themes such as sight in political constructions smell and ethnic conflict pain in the constitution of communities national soundscapes taste in national identities movement memory and emplacement

**Family Policy Matters** Linda Hantrais, 2004-04-21 This book explores the complex relationship between family change and public policy responses in EU member states and candidate countries It combines broad brush scrutiny of demographic trends policy contexts and debates in contemporary European societies with a fine grain analysis of the attitudes perceptions and experiences of families

Integrating the gender perspective in Irish health policy: a case study The Women's Health Council, 2004

## Enjoying the Song of Phrase: An Emotional Symphony within **Eurostat Yearbook 2003 The Statistical Guide To Europe Eurostat Yearbook 2003**

In a world consumed by monitors and the ceaseless chatter of quick communication, the melodic elegance and emotional symphony created by the published term often diminish into the back ground, eclipsed by the relentless sound and interruptions that permeate our lives. But, nestled within the pages of **Eurostat Yearbook 2003 The Statistical Guide To Europe Eurostat Yearbook 2003** a charming literary value overflowing with fresh feelings, lies an immersive symphony waiting to be embraced. Constructed by a masterful composer of language, that captivating masterpiece conducts viewers on a psychological trip, skillfully unraveling the hidden songs and profound influence resonating within each carefully constructed phrase. Within the depths of the touching analysis, we can discover the book is key harmonies, analyze their enthralling publishing model, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
