A Song for Europe Robert Deam Tobin, 2017-07-05 The world's largest and longest running song competition the Eurovision Song Contest is a significant and extremely popular media event throughout the continent and abroad The Contest is broadcast live in over 30 countries with over 100 million viewers annually Established in 1956 as a televised spectacle to unify postwar Western Europe through music the Contest features singers who represent a participating nation with a new popular song Viewers vote by phone for their favourite performance though they cannot vote for their own country's entry This process alone reveals much about national identities and identifications as voting patterns expose deep seated alliances and animosities among participating countries Here an international group of scholars from a variety of disciplines including musicology communications history sociology English and German studies explore how the contest sheds light on issues of European politics national and European identity race gender and sexuality and the aesthetics of camp For some countries participation in Eurovision has been simultaneously an assertion of modernity and a claim to membership in Europe and the West Eurovision is sometimes regarded as a low brow camp spectacle of little aesthetic or intellectual value The essays in this collection often contradict this assumption demonstrating that the contest has actually been a significant force and forecaster for social cultural and political transformations in postwar Europe

Musical Style and Social Meaning Derek B. Scott, 2017-07-05 Why do we feel justified in using adjectives such as romantic erotic heroic melancholic and a hundred others when speaking about music How do we locate these meanings within particular musical styles These are questions that have occupied Derek Scott's thoughts and driven his critical musicological research for many years In this selection of essays dating from 1995-2010 he returns time and again to examining how conventions of representation arise and how they become established Among the themes of the

collection are social class ideology national identity imperialism Orientalism race the sacred and profane modernity and postmodernity and the vexed relationship of art and entertainment A wide variety of musical styles is discussed ranging from jazz and popular song to the symphonic repertoire and opera Another Song for Europe Ivan Raykoff,2020-11-29 The Eurovision Song Contest is famous for its camp spectacles and political intrigues but what about its actual music With more than 1 500 songs in over 50 languages and a wide range of musical styles since it began in 1956 Eurovision features the most musically and linguistically diverse song repertoire in history Listening closely to its classic fan favorites but also to songs that scored low because they were too different or too far ahead of their time this book delves into the musical tastes and cultural values the contest engages through its international reach and popular appeal Chapters discuss the iconic fanfare that introduces the broadcast the supposed formulas for composing successful contest entries how composers balance aspects of sameness and difference in their songs and the tension between national genres of European popular music and musical trends beyond the nation s borders especially the American influences on a show that is supposed to celebrate an idealized pan European identity The book also explores how audiences interact with the contest through musicking experiences that bring people together to celebrate its sounds and spectacles What can seem like a silly song and dance show offers valuable insights into the bonds between popular music and cosmopolitan values for its many followers around the world From dance parties to flashmobs parodies to plagiarisms and orchestras to artificial intelligence *Another Song for Europe* will be of particular interest to Eurovision fans critics and scholars of popular music popular culture ethnomusicology and European studies **Focus: Music, Nationalism, and the Making of a New Europe** Philip V. rigkeit aller Slavischsprachigen war nicht nur im 19. Jahrhundert wirkungsmächtig sondern hat bis heute an Sie blieb ein produktiver Mythos in Kunst, Musik und Literatur. Als transnationales Identifikationsmuster hatte dieses Phänomen auch im kurzen 20. Jahrhundert Konjunktur. Das Interesse der Autorinnen und Autoren des vorliegenden Bandes richtet sich auf unterschiedliche Formen der Identitätsbildung, die sich auf eine Slavische Idee bezogen. In den Blick genommen werden dabei nationale und internationale Diskurse, aber auch kritische Reaktionen, die sich gegen die Idee des Panslavismus bewusst abgrenzten, so etwa in Griechenland oder Italien.

Postwar Europe and the Eurovision Song Contest Dean Vuletic, 2018-01-25. *Postwar Europe and the Eurovision Song Contest* examines how the Eurovision Song Contest has reflected and become intertwined with the history of postwar Europe from a political perspective. Established in 1956, the Eurovision Song Contest is the world's largest popular music event and one of the most popular television programmes in Europe, currently attracting a global audience of around 200 million people. Eurovision is often mocked as cultural kitsch because of its over-the-top performances and frivolous song lyrics. Yet there is no cultural medium that connects Europeans more than popular music, the development of which has always been tied to cultural, economic, political, social and technological change, making Eurovision the ideal tool to explain the history of Europe in the last sixty years. This book uses Eurovision as a vehicle to address topics ranging from the Cold War, liberal democracy and communism to nationalism, European integration, economic prosperity and human rights. It analyses these subjects through their cultural, political and social relationships with Eurovision entries, as expressed through lyrics and music, as well as by examining public debates that have accompanied the selection of the entries and the organisation of the contest itself. *Postwar Europe and the Eurovision Song Contest* also considers how states have used Eurovision to define their identities in a European context, be it to assert their national distinctiveness, highlight political issues or affirm their Europeanism or Euroscepticism in the context of European integration. Based on original sources, including hitherto unpublished archival documents from international broadcasting organisations, this is a novel historical study of interest to anyone keen to know more about the postwar history of Europe and its cultural history in particular.
