Evaluating Hiv Prevention Interventions:

Evaluating HIV Prevention Interventions Joanne E. Mantell,Anthony T. DiVittis,Marilyn I. Auerbach,2013-06-29 This user friendly comprehensive guide places evaluation in the context of HIV to give all health care professionals the necessary tools for developing and implementing successful HIV interventions Every aspect of evaluation is discussed including the social and political context of evaluation coding and inter rater reliability procedures barriers to evaluation and solution the dissemination of results the application of theory to HIV interventions Case studies and examples from both the US and abroad to illustrate practical issues and numerous tables and figures complement the text *Evaluating HIV Prevention Interventions* Joanne E. Mantell,Anthony T. Divittis,Marilyn I. Auerbach,2014-01-15

Quantitative Evaluation of HIV Prevention Programs Edward H. Kaplan,Ron Brookmeyer,2008-10-01 How successful are HIV prevention programs Which HIV prevention programs are most cost effective Which programs are worth expanding and which should be abandoned altogether This book addresses the quantitative evaluation of HIV prevention programs assessing for the first time several different quantitative methods of evaluation The authors of the book include behavioral scientists biologists economists epidemiologists health service researchers operations researchers policy makers and statisticians They present a wide variety of perspectives on the subject including an overview of HIV prevention programs in developing countries economic analyses that address questions of cost effectiveness and resource allocation case studies such as Israel s ban on Ethiopian blood donors and descriptions of new methodologies and problems

Evaluating HIV/AIDS Treatment Programs George J Huba,Lisa A Melchior,Vivian Brown,A.T. Panter,Trudy A Larson,Pauline Fitzpatrick,2020-04-03 Create effective community based programs for substance abusers with HIV AIDS Substance abusers are the fastest growing population of people with HIV AIDS in the US and one of the hardest to reach and treat Evaluating HIV AIDS Treatment Programs offers new strategies for providing care for this vulnerable population The programs evaluated and discussed in this volume were funded as part of the DHHS Health Resources and Services Administration through its Special Projects of National Significance Program Collectively known as the SPNS Cooperative Agreement these 27 projects represent a diverse group of organizations with a common goal to improve the health quality of life and access to health care for traditionally underserved populations living with HIV AIDS Evaluating HIV AIDS Treatment Programs reports in detail the efforts of several community based HIV AIDS organizations in the SPNS program You will learn how these organizations provide high quality care for persons with HIV who are unlikely to obtain it in the traditional hospital based service system This volume offers specific proven strategies designed to overcome the linguistic cultural racial and economic barriers that make it difficult for some sick people to get the health care they need It also offers specialized medical care models that work within the context of a continuum of services in a medical clinic Evaluating HIV AIDS Treatment Programs also highlights other aspects of the Cooperative Agreement projects including a study of end stage AIDS care an overview of the HRSA HIV AIDS Bureau SPNS

Cooperative Agreement grant initiative a study of conceptual issues in implementing program evaluation in real world community organizations discussion of the online Knowledge Base that summarizes and disseminates information from the Cooperative Agreement projects studies of ways to reach and care for specific populations with HIV AIDS including women Latinos Haitians adolescents and rural people This valuable volume offers solid data on treating people who are all too often neglected by the medical community even before they contract HIV AIDS The programs and ideas presented in Evaluating HIV AIDS Treatment Programs can be applied to other community based health initiatives and clinics offering medical care to underserved and vulnerable populations This essential resource deserves a permanent place on their bookshelf of any physician administrator or policymaker working in the fields of HIV AIDS epidemiology public health or substance abuse Visit the book's website at http://www.TheMeasurementGroup.com/drugs_and_society.htm

Departments of Labor, Health and Human Services, Education, and Related Agencies Appropriations for 1991 United States. Congress. House. Committee on Appropriations. Subcommittee on the Departments of Labor, Health and Human Services, Education, and Related Agencies, 1990

Evaluating AIDS Prevention Programs National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on AIDS Research and the Behavioral, Social, and Statistical Sciences, Panel on the Evaluation of AIDS Interventions, 1991-02-01 With insightful discussion of program evaluation and the efforts of the Centers for Disease Control this book presents a set of clear cut recommendations to help ensure that the substantial resources devoted to the fight against AIDS will be used most effectively This expanded edition of Evaluating AIDS Prevention Programs covers evaluation strategies and outcome measurements including a realistic review of the factors that make evaluation of AIDS programs particularly difficult Randomized field experiments are examined focusing on the use of alternative treatments rather than placebo controls The book also reviews nonexperimental techniques including a critical examination of evaluation methods that are observational rather than experimental a necessity when randomized experiments are infeasible

Population Health Intervention Research Daniel W. Harrington, Sara McLafferty, Susan J. Elliott, 2016-07-22 Health geographers are well situated for undertaking population health intervention research PHIR and have an opportunity to be at the forefront of this emerging area of inquiry However in order to advance PHIR the scientific community needs to be innovative with its methodologies theories and ability to think critically about population health issues For example using alternatives e.g. community based participatory research to traditional study designs such as the randomised control trial health geographers can contribute in important ways to understanding the complex relationships between population health both intended and unintended consequences interventions and place Representing a diverse array of health concerns ranging across chronic and infectious diseases and research employing varied qualitative and quantitative methodologies the contributions to this book illustrate how geographic concepts and approaches have informed the design and planning of interventions and or the evaluation of

health impacts For example the authors argue that geographically targeting interventions to places of high need and tailoring interventions to local place contexts are critically important for intervention success Including an afterword by Professor Louise Potvin this book will appeal to researchers interested in population and public community health and epidemiology as well as health geography *Practical Program Evaluation* Huey T. Chen,2014-09-19 The Second Edition of *Practical Program Evaluation* shows readers how to systematically identify stakeholders needs in order to select the evaluation options best suited to meet those needs Within his discussion of the various evaluation types Huey T Chen details a range of evaluation approaches suitable for use across a program s life cycle At the core of program evaluation is its body of concepts theories and methods This revised edition provides an overview of these and includes expanded coverage of both introductory and more cutting edge techniques within six new chapters Illustrated throughout with real world examples that bring the material to life the Second Edition provides many new tools to enrich the evaluator s toolbox In this eminently readable book Chen presents a strong matrix framework for conceptualizing a full range of evaluation strategies and approaches The writing is exceptionally clear accessible to novice evaluators and because it is fair minded and principled of relevance to seasoned evaluators as well Jennifer Greene University of Illinois at Urbana Champaign Professor Chen s Second Edition of *Practical Program Evaluation* sets a new standard for providing a variety of systematic frameworks for conducting high quality program evaluations The readers will come away with a detailed understanding of both conventional and cutting edge approaches It is a must read for practicing program evaluators evaluation scholars and students of evaluation Stewart I Donaldson Claremont Graduate University Chen brings decades of evaluation and experience to this new edition He continues his innovative and pragmatic thinking about evaluation including identifying constructing and testing theories that can work in practice Dr Chen shows how to blend formative and summative evaluation process and outcome evaluation theory and action and much more R Burke Johnson University of South Alabama Dr Chen s latest effort offers evaluators a thoughtful expansion on the topics addressed in *Practical Program Evaluation* 2005 in terms of program theory logic modeling and his evaluation typology New chapters gleaned from the field reveal solution sets for overcoming challenges in a variety of contexts while still balancing scientific and stakeholder needs This new work provides a solid foundation for the further development of an evaluator s acumen Gregg M Gascon Ohio State University Chen has the best conceptual framework and the quality of his writing and analysis are superb He takes the reader through the essential steps in evaluation with particularly valuable treatment of stakeholder involvement Mario A Rivera University of New Mexico
