Evaluating Mental Health Practice:

   Evaluating Mental Health Practice (Psychology Revivals) Derek Milne,2015-03-27 With the emphasis in the 1980s on effectiveness and efficiency in health services evaluation of practice was increasingly important This was particularly true of mental health where many practices were poorly evaluated and therefore might have been of questionable validity Originally published in 1987 this book reviews the state of evaluative research of mental health programmes at the time showing how practices can be evaluated and hence improved A multidisciplinary group of authors covering psychiatry clinical psychology psychiatric nursing social work and other therapies describe previous studies and applications in each discipline before detailing a case study of their own evaluative work The book will still have something to offer all professionals concerned with improving the quality of their work in the mental health area   **Evaluating Mental Health Practice** Derek Milne,1987-01-01   Evaluating Mental Health Disability in the Workplace Liza Gold,Daniel W. Shuman,2009-06-23 As many as one in four adults in the workforce will suffer from psychiatric illness in a given year Such illness can have serious consequences job loss lawsuits workplace violence yet the effects of mental health issues on job functioning are rarely covered in clinical training In addition clinicians are often asked to provide opinions on an employee s fitness for work or an evaluation for disability benefits only to find themselves embroiled in complex legal and administrative conflicts A unique collaboration between a renowned clinical professor of psychiatry and a noted legal expert Evaluating Mental Health Disability in the Workplace approaches the topic from two distinct areas the legal context and issues relevant to disability and disability related evaluations and the interplay of factors in the relationship between work and psychiatric illness From this dual perspective the authors advocate for higher professional standards ensuring that employers evaluees or third parties are provided with the most reliable information Key features of the book A robust assessment model of psychological disability in the workplace Practice guidelines for conducting workplace mental health disability evaluations Legal and ethical aspects of employment evaluations especially as they differ from clinical procedure Examination of the process of psychiatric disability development Issues specific to evaluations for Social Security Workers Compensation and other disability benefit programs Review of relevant administrative and case law As an introduction to these complex issues or for the further improvement of evaluation skills Evaluating Mental Health Disability in the Workplace is a timely reference for psychiatrists psychologists forensic mental health specialists andattorneys in this field   *Competency-Based Assessments in Mental Health Practice* Susan W. Gray,2011-02-25 Competency Based Assessments in Mental Health Practice should be required reading for all clinical practitioners and students Author Susan W Gray provides a competency based assessment model that moves away from looking at mental illness as a disease to capturing people s strengths and the uniqueness of their experience with mental illness Alex Gitterma Zachs Professor and Director of PhD Program Competency Based Assessment in Mental Health Practice not only describes the rather cumbersome DSM IV TR in a manner that

graduate students and clinicians can easily understand and apply but it also presents a competency based type of clinical assessment that most effectively integrates the social work practice orientation that acknowledges appreciates and nurtures client strengths resilience and client ability for empowerment Agathi Glezakos PhD LCSW School of Social Work California State University Long Beach A competency based assessment model integrating DSM classifications for a complete strengths based diagnosis Competency Based Assessments in Mental Health Practice introduces a unique competency based assessment that presents a brief overview of the major mental disorders that practitioners will likely encounter in their work with clients followed by a series of case studies and practical applications This book provides valuable guidance for clinicians to make assessments grounded in client strengths and possibilities for a more therapeutically complete picture of every client s story Organized around selected diagnostic categories from the DSM IV TR this hands on guide offers a multidimensional look at the many factors that play a role in a client s life Its holistic approach to the assessment process considers each client s unique experience with mental illness through a concurrent evaluation of strengths and pathology in order to set the stage for realistic optimism about the potential for change   Mental Health Service Evaluation Helle Charlotte Knudsen,Graham Thornicroft,1996-03-14 A comprehensive international review providing guidance in appropriate research strategies for evaluation of mental health services   Evaluating Mental Health Practice Derek Milne,1987   Psychology and Mental Health Nursing David Milne,1993-03-09 Derek Milne presents a practical introduction to the psychology of mental health nursing for student nurses and qualified staff The book is structured to reflect a problem solving approach to mental health nursing The recurring theme is that the major challenges of nursing can be reduced to manageable steps by the use of a systematic strategy The four main elements of the approach form the basis of the book namely assessment planning implementation and evaluation Each chapter is supplemented by case study material and exercises which both illustrate the theory and provide an opportunity for readers to test some of it out for themselves The result is a blend of theory research and practical guidelines intended to provide some basic guidance but more importantly to foster an educated thinking approach   *Evidence-Based Behavioral Health Practices for Older Adults* Hongtu Chen,Jane Fisher,Jane E. Fisher,John McIntyre,John S. McIntyre,Sue E. Levkoff,2006-06-02 Improve Service Delivery with New Evidence Based Guidelines Geared to improve service delivery in the care of older adults this new and more authoritative approach to practice and management is supported by the latest evidence based guidelines from the leading experts in the field For the first time behavioral health care providers can gain access to a more reliable source for implementing and improving service delivery protocols and practices This new guide applies evidence based criteria to the following patient care and management needs to help you Select an Evidence Based Practice EBP Assess Feasibility Manage Quality Create a Culturally Grounded Practice Assess and Treat Depression Anxiety and Substance Use Disorders Assess and Treat Dementia and Schizophrenia Review by Service Delivery Process Review within Special Settings Create More Sustainable Services Written primarily for program
