Evaluating The Impact Of Training And Institutional Development Programs A Collaborative Approach:

Evaluating the Impact of Training and Institutional Development Programs Suzanne Taschereau, 1998 This manual focuses on measuring the effects of training and institutional development programs on individuals the organizations or economic sectors in which they work and the welfare of the larger community It presents a conceptual framework as well as real life examples drawn from evaluations of the Economic Development Institute s learning and capacity building programs in the developing world It provides practical advice on developing evaluation plans designing questionnaires conducting interviews analyzing data reporting findings and making recommendations Emphasis is placed on the active participation of stakeholders throughout the process

Evaluating the Impact of Development Projects on Poverty Judy L. Baker, 2000 Despite the billions of dollars spent on development assistance each year there is still very little known about the actual impact of projects on the poor There is broad evidence on the benefits of economic growth investments in human capital and the provision of safety nets for the poor But for a specific program or project in a given country is the intervention producing the intended benefits and what was the overall impact on the population Could the program or project be better designed to achieve the intended outcomes Are resources being spent efficiently These are the types of questions that can only be answered through an impact evaluation an approach which measures the outcomes of a program intervention in isolation of other possible factors This handbook seeks to provide project managers and policy analysts with the tools needed for evaluating project impact It is aimed at readers with a general knowledge of statistics For some of the more in depth statistical methods discussed the reader is referred to the technical literature on the topic Chapter 1 presents an overview of concepts and methods Chapter 2 discusses key steps and related issues to consider in implementation Chapter 3 illustrates various analytical techniques through a case study Chapter 4 includes a discussion of lessons learned from a rich set of good practice evaluations of poverty projects which have been reviewed for this handbook

Health Care Systems: Rethinking health care systems Jonathan Watson, Pavel Ovseiko, 2005 This collection covers the organization financing and regulation of health care systems in four clear contexts reforming health care systems understanding health care politics financing and delivering health care rethinking health care systems

International Assistance and State-University Relations Jo Bastiaens, 2011-01-13 This book explores the goals efforts and outcomes of international assistance to higher education over the past three decades and investigates how these have impacted changing State university relations Focusing on the case study of Indonesia Bastiaens demonstrates how international aid facilitated and at times actively encouraged changing patterns of state university relations from state control towards greater institutional autonomy Through the use of various case studies from throughout the country and critical analysis of the relationships between international donors and domestic reformers Bastiaens shows how the educational system of Indonesia was able to diversify resources generate income and become increasingly autonomous from government

The World Bank and Transferring Development Adrian Robert

Bazbauers,2017-08-20 This book analyses the World Bank's provision of technical assistance from 1946 to the present day. It argues that the relational dynamics between technical assistance provider and recipient affects the legitimacy of policy norms travelling from the international to the domestic. Beginning from the constructivist position that development is a social construct, the author contends that successful policy movement via technical assistance depends on the recipient's perception of the validity of policy reforms, with perception being influenced by the way those ideas and practices are presented, packaged and transferred. In advancing this argument, Bazbauers analyses four pillars of World Bank technical assistance: technical assistance components, advisory services incorporated within lending operations, stand-alone technical assistance projects, and projects designed to solely deliver technical assistance. Survey missions, activities involved in measuring the development status of developing countries, and training institutes, the courses of the Economic Development Institute and World Bank Institute.

The World Bank Research Program 1998 World Bank Staff,1998 The four basic objectives of the World Bank's research program are broadening understanding of development, assisting in developing research capacity in member countries, improving the Bank's capacity in advising members, and supporting all aspects of its own operations. The report is the annual compendium of current Bank research. The abstracts in this volume report on research projects within FY98, describing questions addressed, analytical methods used, findings to date, and policy implications. In addition, each abstract identifies the expected completion date and the research team, as well as any report or publication produced. The abstracts cover 193 research projects grouped under nine major headings as follows: 1 poverty and social welfare, 2 labor markets and education, 3 environmentally sustainable development, 4 infrastructure and urban development, 5 macroeconomics, 6 international economics, 7 domestic finance and capital markets, 8 transition economies, and 9 private sector development and public sector management. An appendix is included listing reports and publications produced by Bank research, with corresponding availability sources. Abstracts are indexed by the sponsoring unit.

Education for Sustainable Development: The Contribution of Universities Walter Leal Filho, Laís Viera Trevisan, Paul J. Pace, Mark Mifsud,2025-08-03 As we confront the daunting challenges of the 21st century—climate change, social inequality, resource depletion, and the loss of biodiversity—the role of education has emerged as a pivotal force in driving transformative change. *Education for Sustainable Development: The Contribution of Universities* is a response to this urgent call for a reimagined educational landscape, one that empowers current and future generations to navigate and address the complexities of sustainability. This book seeks to outline universities' critical role as catalysts for sustainable development. As centres of knowledge creation, innovation, and community engagement, universities possess the unique ability to influence not only individual lives but also societal norms and practices. They are uniquely positioned to integrate sustainability into their curricula, research agendas, and outreach efforts, thus fostering a culture of sustainability that permeates all aspects of

academic life The need for Education for Sustainable Development ESD has never been clearer By emphasising sustainability in higher education we can raise awareness among students and faculty inspiring them to become informed and engaged global citizens This book serves as a comprehensive resource offering insights best practices and real world examples of how universities around the globe are advancing the principles of ESD Within this book the readers will find a rich tapestry of ideas and strategies designed to encourage institutions to embrace sustainability in a holistic manner From innovative teaching methods to collaborative community partnerships this collection reflects the diversity of approaches being implemented in universities today It is our hope that the experiences shared will serve as a source of inspiration for educators administrators and policymakers Ultimately this book stands as a testament to the belief that education is a powerful tool for creating a more sustainable and equitable world By fostering a deep understanding of sustainability and its interconnected dimensions we can equip students with the knowledge and skills necessary to tackle the pressing issues we face Together through a collective commitment to Education for Sustainable Development we can cultivate a better future for generations to come
