Evaluating Criminology And Criminal Justice:

Evaluating Criminology and Criminal Justice Ellen G. Cohn, David P. Farrington, Richard A. Wright, 1998-05-26 Using citation analysis this study examines the influence and prestige of scholars journals and university departments in the fields of criminology and criminal justice In the tradition of Marvin E Wolfgang s *Evaluating Criminology* the authors apply this quantitative method to evaluate the impact of individuals and their research efforts on two fields and to identify interconnections among scholars and their publications This examination of the most cited scholars works and topics in major American and international journals from 1986 to 1990 and from 1991 to 1995 provides valuable and unbiased feedback for researchers and practitioners The nine chapters of this book detail a wide range of findings in both criminology and criminal justice After an introduction to the methodology chapters two three and four divide recent scholarship into two periods 1986 to 1990 and 1991 to 1995 in order to consider the most cited scholars works and topics Chapter five provides a longitudinal analysis of scholars in the discipline since 1945 Chapters six and seven provide a system of prestige ratings for relevant journals as well as page coverage analysis of the most influential scholars The continuing controversy over whether the two fields are converging or diverging is the subject of chapter eight and the work concludes with a prescription for further research

American Criminal Justice Policy Daniel P. Mears, 2010-04-12 *American Criminal Justice Policy* examines many of the most prominent criminal justice policies on the American landscape and finds that they fall well short of achieving the accountability and effectiveness that policymakers have advocated and that the public expects The policies include mass incarceration sex offender laws supermax prisons faith based prisoner reentry programs transfer of juveniles to adult court domestic violence mandatory arrest laws drug courts gun laws community policing private prisons and others Optimistically Daniel P Mears argues that this situation can be changed through systematic incorporation of evaluation research into policy development monitoring and assessment To this end the book provides a clear and accessible discussion of five types of evaluation needs theory implementation or process outcome and impact and cost efficiency It identifies how these can be used both to hold the criminal justice system accountable and to increase the effectiveness of crime control and crime prevention efforts

Improving Evaluation of Anticrime Programs National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on Improving Evaluation of Anti-Crime Programs, 2005-09-05 Although billions of dollars have been spent on crime prevention and control programs during the past decade scientifically strong impact evaluations of these programs are uncommon in the context of the overall number of programs that have received funding *Improving Evaluation of Anticrime Programs* is designed as a working guide for agencies and organizations responsible for program evaluation for researchers who must design scientifically credible evaluations of government and privately sponsored programs and for policy officials who are investing more and more in the concept of evidence based policy to guide their decisions in crucial areas of crime prevention and control

Practical

Program Evaluation for Criminal Justice Gennaro Vito, George Higgins, 2014-06-10 Practical Program Evaluation for Criminal Justice shows readers how to apply the principles of fiscal responsibility accountability and evidence based practice to criminal justice reform plans Unlike other policy based texts which tend to focus more on implementation than assessment this book provides applicable step by step instruction on determining an initiative s necessity prior to its adoption reducing the risk of wasting resources as well as how to accurately gauge its effectiveness during initial roll out stages The book gradually introduces basic data analysis procedures and statistical techniques which once mastered can be used to prove or disprove a program s worth Lastly the book introduces the types of stakeholders who should review evaluation results for quick action as well as how to best structure reports to ensure their buy in *Criminological Theories* Ronald L. Akers, 2013-07-04 In *Criminological Theories* the noted criminologist Ronald Akers provides thorough description discussion and appraisal of the leading theories of crime delinquent behavior and law criminal justice the origin and history of each theory and its contemporary developments and adherents Akers offers a clear explanation of each theory the central concepts and hypotheses of each theory as well as critical criteria for evaluating each theory in terms of its empirical validity Researchers and librarians as well as general readers will find this book a very useful tool and will applaud its clear and understandable exposition of abstract concepts

Perspectives On Evaluating Criminal Justice and Corrections Erica Bowen, Sarah Brown, 2012-06-20 A comprehensive and authoritative overview of issues relating to the evaluation of criminal justice corrections interventions this book draws on a range of theoretical cultural and epistemological perspectives with authors from a range of disciplines and countries and provides a unique reference for academics practitioners and policy makers

Evaluating Juvenile Transfer and Disposition Kirk Heilbrun, David DeMatteo, Christopher King, Sarah Filone, 2017-05-08 Focusing on juvenile transfer and disposition evaluations this volume provides an up to date integration of current law science and practice with respect to juvenile risk assessment treatment needs amenability and sophistication maturity Included are perspectives relating to international practices use of specialized assessment tools and a separate chapter on resentencing following US Supreme Court decisions on juveniles sentenced to mandatory life without parole This text will be a useful and comprehensive reference for forensic psychologists and other mental health professionals engaged in juvenile evaluation as well as legal professionals juvenile and criminal justice professionals and others involved with juvenile assessment decision making and rehabilitation

Handbook on Risk and Need Assessment Faye Taxman, 2016-11-10 The Handbook on Risk and Need Assessment Theory and Practice covers risk assessments for individuals being considered for parole or probation Evidence based approaches to such decisions help take the emotion and politics out of community corrections As the United States begins to back away from ineffective expensive policies of mass incarceration this handbook will provide the resources needed to help ensure both public safety and the effective rehabilitation of offenders The ASC Division on Corrections Sentencing Handbook Series will publish volumes on topics ranging from violence

risk assessment to specialty courts for drug users veterans or the mentally ill Each thematic volume focuses on a single topical issue that intersects with corrections and sentencing research **Doing Criminological Research** Pamela Davies, Peter Francis, 2018-09-29 The new edition of this bestselling textbook comes completely revised and updated to take students on a guided tour of criminological research As a trusted companion this book brings together a range of experts in the field to provide key perspectives on how to prepare do and present research Each chapter comes with a range of learning features and contextualised case studies giving an in depth review on conducting research projects The book Includes fascinating case studies on transnational crime and policing victims male offenders institutional abuse and more Comes with study questions activities key terms and a glossary Includes visual material which highlights and illustrates key points Contains new chapters on mixed methods web based criminological research experimental criminological research and quantitative criminological research This is the go to for any student studying criminology essential to those conducting their own research in the field *Realist Evaluation for Crime Science* Graham Farrell, Aiden Sidebottom, 2018-10-17 This collection of essays published to mark the 20th anniversary of Realistic Evaluation celebrates the work of Professor Nick Tilley and his significant influence on the fields of policing crime reduction and evaluation With contributions from colleagues co authors and former students many of whom are leading scholars in their own right the thirteen essays which make up this volume contain both personal reflections and analysis of the prominent topics in Professor Tilley s forty years of scholarship

Criminological Theories Ronald L. Akers, 2000 In *Criminological Theories* the noted criminologist Ronald Akers provides thorough description discussion and appraisal of the leading theories of crime delinquent behavior and law criminal justice the origin and history of each theory and its contemporary developments and adherents Akers offers a clear explanation of each theory the central concepts and hypotheses of each theory as well as critical criteria for evaluating each theory in terms of its empirical validity Researchers and librarians as well as general readers will find this book a very useful tool and will applaud its clear and understandable exposition of abstract concepts *A Guide to Evaluating Crime Control of Programs in Public Housing* DIANE Publishing Company, 1997-06 This manual is designed to familiarize Public Housing Agency PHA directors analyzing evaluation information reporting your findings much more **Evaluating Gun Policy** Jens Ludwig, Philip J. Cook, 2004-05-13 Compared with other developed nations the United States is unique in its high rates of both gun ownership and murder Although widespread gun ownership does not have much effect on the overall crime rate gun use does make criminal violence more lethal and has a unique capacity to terrorize the public Gun crime accounts for most of the costs of gun violence in the United States which are on the order of 100 billion per year But that is not the whole story Guns also provide recreational benefits and sometimes are used virtuously in fending off or forestalling criminal attacks Given that guns may be used for both good and ill the goal of gun policy in the United States has been to reduce the flow of guns to the highest risk groups while preserving access for most people There is no lack of opinions on policies to regulate gun

commerce possession and use and most policy proposals spark intense controversy Whether the current system achieves the proper balance between preserving access and preventing misuse remains the subject of considerable debate Evaluating Gun Policy provides guidance for a pragmatic approach to gun policy using good empirical research to help resolve conflicting assertions about the effects of guns gun control and law enforcement The chapters in this volume do not conform neatly to the claims of any one political position The book is divided into five parts In the first section contributors analyze the connections between rates of gun ownership and two outcomes of particular interest to society suicide and burglary Regulating ownership is the focus of the second section where contributors investigate the consequences a large scale combined gun ban and buy back program in Australia as well as the impact of state laws that prohibit gun ownership to those with histories of domestic violence The third section focuses on efforts to restrict gun carrying and includes a critical examination of efforts in Pit
