## **Evaluating Managed Mental Health Services:**

Evaluating Managed Mental Health Services Leonard Bickman,C.S. Breda,E.M. Foster,P.R. Guthrie,C.A. Heflinger,E.W. Lambert,Wm.T. Summerfelt,2004-05-31 Based on a five year evaluation of an 80 million U S Army demonstration program this first of its kind study explores the cost effectiveness of a managed care model of service delivery for children and adolescents with mental health and substance addiction problems Contributions report on the quality cost and clinical outcome and raise critical questions about the effectiveness of mental health services and their delivery in community settings Chapters describe new approaches to measurement and provide analyses assisting future research on managed care

**Evaluating Managed Mental Health Services** Leonard Bickman,C.S. Breda,E.M. Foster,P.R. Guthrie,C.A. Heflinger,E.W. Lambert,Wm.T. Summerfelt,2004-06-14 Based on a five year evaluation of an 80 million U S Army demonstration program this first of its kind study explores the cost effectiveness of a managed care model of service delivery for children and adolescents with mental health and substance addiction problems Contributions report on the quality cost and clinical outcome and raise critical questions about the effectiveness of mental health services and their delivery in community settings Chapters describe new approaches to measurement and provide analyses assisting future research on managed care

Evaluating Managed Mental Health Care Stephen H. Leff,Virginia Mulkern,1995      **Outcome-Based Evaluation** Robert L. Schalock,2001 Outcome based evaluation is particularly useful for examining government and social programs where there is no financial bottom line This two part introductory reference provides in Part I an overview of outcome based approach discusses the four types of evaluations it includes Program evaluation to determine person and program referenced outcomes and their use Effectiveness evaluation to determine whether a program meets its stated goals and objectives Impact evaluation to determine whether a program made a difference and Policy evaluation to determine policy outcomes in reference to their equity efficiency or effectiveness Part II focuses on methodology choice of outcomes their measurement and their analysis

**Evaluating Systems of Care** E. Wayne Holden,Ana Maria Brannan,2014-07-10 This issue consists of five articles profiling different aspects of the national evaluation of the Comprehensive Community Mental Health Services for Children and Their Families Program Over the last eight years this program provided grants to develop community based systems of care for children with serious emotional disturbance and their families A comprehensive multilevel evaluation has been conducted that has provided information to local grantee communities and the federal government on the implementation and effectiveness of systems of care Touching on a range of questions that the evaluation is designed to address the articles in this special issue provide more general information on the system of care approach to addressing children s mental health problems

Mental Health Services: A Public Health Perspective Bruce Lubotsky Levin MD,Kevin D. Hennessy,John Petrila JD, LLM,2010-07-30 This revised and expanded third edition text utilizes a public health framework and the latest epidemiological treatment and service systems research to promote a

comprehensive understanding of the organization financing and delivery of mental health and substance abuse services in the United States Written by national experts in the field this timely work will provide policymakers administrators clinicians and public health and behavioral health graduate students with the knowledge base needed to manage and transform mental health service systems both nationally and locally The book is unique in providing a public health framework of the most significant issues facing mental health policy makers administrators planners and practitioners It combines issues e g evaluation law ethnicity that extend across different age groups treatment settings and disorders with issues that are population and disorder specific The publication of this book is timely for those involved with the debate over national health care reform legislation and provides important and timely information on populations at risk for mental disorders services and systems issues for those responsible for implementing policies and programs resulting from this reform effort

*The Practice of Clinical Neuropsychology* Greg J. Lamberty, John C. Courtney, Robert L. Heilbrunner, 2005-10-10 This volume is a contemporary survey of practice related issues in clinical neuropsychology in the United States Section 1 includes chapters on topics relevant to practitioners in clinical neuropsychology such as managed care practice trends business aspects of practice training and credentialing internet resources for practice and research in the private practice setting Section 2 provides narrative descriptions of a range of different practice settings Authors give firsthand descriptions of their settings billing and coding practices how they interface with colleagues and referral sources and other unique aspects of their practices Settings range from independent practices to university based departments for both pediatric and adult practices The volume will be a valuable resource for graduate students interested in clinical neuropsychology postdoctoral fellows embarking on a career in the field and practitioners interested in enhancing their practices via the experiences of a diverse group of successful practicing neuropsychologists

**Handbook of Mental Health Services for Children, Adolescents, and Families** Ric G. Steele, Michael C. Roberts, 2006-03-30 Social economic and theoretical changes in the current clinical landscape are adding up to profound changes in children s services not the least of which is an expanded need for mental health services Professionals novices and veteran clinicians alike wonder how to fill this demand in the present climate of turf wars reorganizations and budget cuts The Handbook of Mental Health Services for Children Adolescents and Families cogently analyzes the issues and provides the answers from current issues and emerging therapeutic trends to new avenues of treatment Thoroughly researched and documented by industry experts it presents the widest range of mental health services available to youth and their families Areas of coverage include Specific modalities in service delivery including in patient and day treatment facilities pediatric hospitals and community mental health centers as well as rural school and primary care settings Services tailored to special populations such as adolescent sex offenders homeless children and their families children with chronic illness oppositional teens abuse situations and children exposed to traumatic events Details on preventative programs for child abuse substance abuse STD s and gang violence An in depth examination of the latest

developments in children's services including therapeutic camping and Internet based treatment Approaches and methods for evaluating service organization delivery and efficacy Few areas of mental health care demonstrate the need for complementary services as much as child and family practice does With this need firmly in mind the Handbook encourages creativity and collaboration within practice settings and across agencies For clinicians administrators school practitioners and advanced level students this is a reference certain to have lasting impact on the field

**Evaluation Management** Federal Executive Institute, 1977

**Managed Care Services** Nancy W. Veeder, Wilma Cecelia Peebles-Wilkins, 2001 This volume explores policy programmatic and research issues in the health and behavioural health care system known as managed care Discussions include such areas as the evolution of health care from essential social good to a commodity cost of and access to care parity of behavioural health services reimbursement and more

**Essentials of Managed Health Care** Peter Reid Kongstvedt, 2003

**Man Mental Health Care** Minkoff, 2013-09-05 First Published in 1997 Routledge is an imprint of Taylor Francis an informa company

*Managing Managed Care* Michael C. Roberts, Linda K. Hurley, 2012-11-19

The introduction of the concept of managed care into mental and physical health care appears to be a juggernaut of unparalleled impact The two extremes of thought about this impact are 1 that managed care is a villainous foe to be resisted in order to bring back the earlier halcyon years of independence in practice decisions with greater reimbursement for psychologists services or 2 that managed care is a laudatory attempt to restrain health care costs that are out of control and spiraling upward by rooting out mismanagement and reversing financial incentives to provide unnecessary care The former view calls managed health care such names as mangled care and distributes bumper stickers stating Just Say No to HMOs The latter view points to the slowdown of increases in health care expenditures and the enhancement of health care affordability and appropriateness for greater numbers of persons resulting from managed care cost containment strategies and service review procedures Mental or behavioral health care has been as strongly impacted as medical care under managed care Where managed care has forced practitioners attention to validated procedures and to examining previous wasteful practices we applaud the movement Where managed care has had adverse impact we think there needs to be greater public legal and regulatory attention to its excesses and abuses

**Managed Mental Health Care in the Public Sector** Kenneth Minkoff, David Pollack, 1997 The rapid spread of managed care into public and community mental health systems is creating a dramatic transformation of traditional public sector settings This radical change is affecting administrators managers and clinicians Intended as a survival manual this book begins with an overview of the history concepts ideology and ethics of public sector managed care and then proceeds in focus from system to program management to clinical program levels With a concluding section on advocacy evaluation research and training issues Managed Mental Health Care in the Public Sector examines how public sector managed mental health care can be approached with a positive spirit an excitement about the potential to create dramatic and beneficial system changes and a genuine interest in

investigating the relative merits of every aspect of managed care systems      Managed Care and Public Health Paul K. Halverson, Arnold D. Kaluzny, Curtis P. McLaughlin, Glen P. Mays, 1998 Public Health      The Managed Health Care Handbook Peter Reid Kongstvedt, 2001 This thoroughly revised and updated book provides a strategic and operational resource for use in planning and decision making The Handbook enables readers to fine tune operation strategies by providing updates on critical managed care issues insights to the complex managed care environment and methods to gain and maintain cost efficient high quality health services With 30 new chapters it includes advice from managers in the field on how to succeed in every aspect of managed care including quality management claims and benefits administration and managing patient demand The Handbook is considered to be the standard resource for the managed care industry

Compendium of HHS Evaluation Studies HHS Evaluation Documentation Center (U.S.), 1984      Handbook of Research in Pediatric and Clinical Child Psychology Dennis Drotar, 2013-11-11 The professional development of researchers is critical for the future development of the fields of pediatric and clinical child psychology In order to conduct research in pediatric and clinical child psychology researchers need to work with a wide range of populations and master an increasingly wide range of skills many of which are either not formally taught or considered in sufficient depth in clinical training Such skills include the development of resources for research by writing grants to government agencies and foundations skills in preparing research for publications concerning original research review articles or case reports scientific presentation skills the ability to review and edit scientific manuscripts and to implement and manage research in applied settings Moreover the increasing complexity of research in pediatric and clinical child psychology requires successful researchers in these fields to develop their expertise with a wide range of new specialized methodologies data analytic methods models of data analysis and methods of assessment Finally to enhance the relevance of their research to practice researchers in pediatric and clinical child psychology need to integrate their work with clinical service delivery programs that are based on empirical research The necessity to train researchers in pediatric and clinical child psychology in such multifaceted knowledge and skills places extraordinary burdens on professional training programs Professional researchers in pediatric and clinical child psychology also are challenged to develop new knowledge and skills through continuing education and faculty development programs

The Use of Psychological Testing for Treatment Planning and Outcomes Assessment Mark E. Maruish, 2014-04-08 Test based psychological assessment has been significantly affected by the health care revolution in the United States during the past two decades Despite new limitations on psychological services across the board and psychological testing in particular it continues to offer a rapid and efficient method of identifying problems planning and monitoring a course of treatment and assessing the outcomes of interventions This thoroughly revised and greatly expanded third edition of a classic reference now three volumes constitutes an invaluable resource for practitioners who in a managed care era need to focus their testing not on the general goals of personality assessment symptom identification and diagnosis so often presented to them as students

and trainees but on specific questions What course of treatment should this person receive How is it going Was it effective New chapters describe new tests and models and new concerns such as ethical aspects of outcomes assessment Volume I reviews general issues and recommendations concerning the use of psychological testing for screening for psychological disturbances planning and monitoring appropriate interventions and the assessing outcomes and offers specific guidelines for selecting instruments It also considers more specific issues such as the analysis of group and individual patient data the selection and implementation of outcomes instrumentation and the ethics of gathering and using outcomes data Volume II discusses psychological measures developed for use with younger children and adolescents that can be used for the purposes outlined in Volume I Volume III those developed for use with adults Drawing on the knowledge and experience of a diverse group of leading experts test developers researchers clinicians and others the third edition of *The Use of Psychological Testing for Treatment Planning and Outcomes Assessment* provides vital assistance to all clinicians and to their trainees and graduate students

*Assessing Outcomes in Child and Family Services* Anthony N. Maluccio, 2017-11-30 In this collective portrait editors and authors do not attempt to draw systematic country by country comparisons Given the magnitude of the issues they believed that it would be inappropriate to paint with too broad a stroke What they have accomplished however is to codify and identify what the participants repeatedly noted in regard to issues and difficulties inherent in conducting outcome evaluation These include varying definitions of outcome complexities in measuring outcomes of particular interventions with different groups of consumers and documenting the effectiveness of the intervention the tendency to focus on evaluation of process more than outcome the challenge of involving practitioners in the evaluation task in part because its value is unclear to them or perceived as distant or untrustworthy the typical inadequacy of resources available for systematic evaluation and the need to inject rigor into the design and execution of evaluation projects The authors demonstrate strong conviction about sharing research expertise across national boundaries learning through each other how to cope with organizational impediments to cross national collaboration and strengthening the interaction between practice and research Their contributions suggest that there is wide interest in pursuing cross national collaboration In recent years largely in response to demands by their funding sources for accountability assessment of performance and cost effectiveness researchers in human services have been devoting increased attention to outcome evaluation Limited attention however has been given to the findings of evaluation studies conducted in different countries The present volume has been organized and edited to address the task of learning from outcome research across the world Its goal an extension of a major goal of the human services in any one country is to improve life chances of vulnerable children and youth
