Evaluation of Food Harry T. Lawless, Hildegard Heymann, 2010-09-27 The field of sensory science has grown exponentially since the publication of the previous version of this work Fifteen years ago the journal Food Quality and Preference was fairly new Now it holds an eminent position as a venue for research on sensory test methods among many other topics Hundreds of articles relevant to sensory testing have appeared in that and in other journals such as the Journal of Sensory Studies Knowledge of the intricate cellular processes in chemoreception as well as their genetic basis has undergone nothing less than a revolution culminating in the award of the Nobel Prize to Buck and Axel in 2004 for their discovery of the olfactory receptor gene super family Advances in statistical methodology have accelerated as well Sensometrics meetings are now vigorous and well attended annual events Ideas like Thurstonian modeling were not widely embraced 15 years ago but now seem to be part of the everyday thought process of many sensory scientists And yet some things stay the same Sensory testing will always involve human participants Humans are tough measuring instruments to work with They come with varying degrees of acumen training experiences differing genetic equipment sensory capabilities and of course different preferences Human foibles and their associated error variance will continue to place a limitation on sensory tests and actionable results Reducing controlling partitioning and explaining error variance are all at the heart of good test methods and practices

Policy Analysis and Management Robert Goehlert, Fenton S. Martin, 1985 *Poor People's Social Movement Organizations* Melvin F. Hall, 1995-07-17 The goal of this book is to join social movement analysis with collective action theory To that end the author introduces the organizational empowerment model of collective action All social movement theories lack a discussion of the influence of movement organization on the tactics of an organization A national survey of social movement organizations is employed to develop a model of how the organizational features of the local group competition among social movement organizations the political settings of the organization and organizational empowerment influence collective action style This model will allow for testing some long held assumptions about organizational change as well as assumptions about the efficacy of poor people organized to achieve change Research in Education, 1972
