Evaluation Jan-Eric Furubo, 2018-02-06 Evaluation has come of age Today most social and political observers would have difficulty imagining a society where evaluation is not a fixture of daily life from individual programs to local authorities to parliamentary committees While university researchers grant makers and public servants may think there are too many types of evaluation rankings and reviews evaluation is nonetheless

viewed positively by the public It is perceived as a tool for improvement and evaluators are seen as dedicated to using their knowledge for the benefit of society The book examines the degree to which evaluators seek power for their own interests This perspective is based on a simple assumption If you are in possession of an asset that can give you power why not use it for your own interests Can we really trust evaluation to be a force for the good To what degree can we talk about self interest in evaluation and is this self interest something that contradicts other interests such as the benefit of society Such questions and others are addressed in this brilliant innovative international collection of pioneering contributions Evaluating and Valuing in Social Research Thomas A. Schwandt, Emily F. Gates, 2021-08-04 Much applied research takes place as if complex social problems and evaluations of interventions to address them can be dealt with in a purely technical way In contrast this groundbreaking book offers an alternative approach that incorporates sustained systematic reflection about researchers values what values research promotes how decisions about what to value are made and by whom and how judging the value of social interventions takes place The authors offer practical and conceptual guidance to help researchers engage meaningfully with value conflicts and refine their capacity to engage in deliberative argumentation Pedagogical features include a detailed evaluation case Bridge to Practice exercises and annotated resources in most chapters and an end of book glossary Winner Third Place American Journal of Nursing Book of the Year Award Community Public Health Category
