Manlove, 2020-04-16 After a decade from 1965 which had seen the growth in Britain and America of an enormous interest in fantasy literature and a rise in its academic repute from cold to lukewarm a serious study of the subject seemed long overdue In this first critical book in its time on modern English fantasy Colin Manlove surveys a representative group of modern fantasies in the Victorian period in the children's scientific and Christian fantasy The Water Babies by Charles Kingsley and the mystical fantasy of the Scottish writer George MacDonald and from the twentieth century the interplanetary romances of C S Lewis the post war fantasy of rebellious youth in Mervyn Peake s Gormenghast books and the quest to avert apocalypse in J R R Tolkien s The Lord of the Rings The aim with all these works is to show the peculiar literary experiences they offer and to assess their strengths and limitations in relation to wider English literature In the introduction to his book Manlove gives a definition of fantasy marking

off the genre from its near neighbors science fiction and Gothic or horror story and distinguishing between fantasies that are serious works of imagination and those that are fanciful or escapist Each chapter that follows is primarily a literary analysis set in a context of the writer's life thought and other works As the book proceeds there begins to emerge a picture of the originality and merit of the writers but at the same time the sense of a division in the purpose of each writer whereby their works fail to abide by their own laws In the conclusion to this book Manlove draws the different types of division found into one and argues that the problem is one that is endemic to the writing of modern fantasy On Loving Our Enemies Jerome Neu, 2012-05-30 This essay collection discusses the role of emotion in ethics the relationship between emotions and authenticity and freedom the role of emotions in the law and includes discussions of Freud and his critics Goes to the Movies Jim Collins, Ava Preacher Collins, Hilary Radner, 2012-10-02 Film Theory Goes to the Movies fills the gap in film theory literature which has failed to analyze high grossing blockbusters The contributors in this volume however discuss such popular films as The Silence of the Lambs Dances With Wolves Terminator II Pretty Woman Truth or Dare Mystery Train and Jungle Fever They employ a variety of critical approaches from industry analysis to reception study to close readings informed by feminist deconstructive and postmodernist theory as well as recent developments in African American and gay and lesbian criticism An important introduction to contemporary Hollywood this anthology will be of interest to those involved in the fields of film theory literary theory popular culture and women s studies **Bridges to Science Fiction and** Fantasy Gregory Benford, Gary Westfahl, Howard V. often not even knowing what we are looking for This book investigates in a thorough manner what happiness is and how we might achieve happiness It is written as a theoretical and practical guide that does not require prior philosophical training Striving to cover all facets of human pursuits of happiness its philosophical considerations in clude topics of law economics political science sociology history anthropology psychology biology and physics Its inclusive examination reveals happiness as an intensely individual phenomenon as well as a systematic force that shapes human destiny and matters beyond up to a cosmic scale The book illuminates these subjective and objective functions of happiness Its insights about the nature of happiness may help us to understand the general subject matters of our search as well as the general terrain and rules by which we must abide in our pursuit of happiness However it does not presume to know what specific objectives and pursuits will make us happy Rather it develops describes and encourages us to discover tools to find understand and define our personal happiness and to pursue the implementation of this vision with optimized preparedness Its objective is not to indoctrinate but to empower us The book proposes that humans are generally endowed with all internal constituents and mechanisms to develop their happiness to its fullest possible extent Unless our faculties are pathologically impeded we might only have to become aware of these inherent forces to actuate them Improving our happiness seems to be a function of comprehensively revealing our concept of happiness and permitting it to take its natural place. The mission of the book is to assist in this process Finding what makes us happy requires that we achieve knowledge of who we are and of what we want It requires us to be mindful of our wishes our needs our personality Once we understand our motivations we must arrange and implement them to their best effect in relation to one another our capacities other humans and our nonhuman environment The book supports us in gaining these insights and in the resulting tasks The book further examines how much happiness we can expect to obtain even under the best circumstances It describes external and internal constraints that threaten our achievements But it also shows perspectives that may enable us to conquer limitations Thus we may not only gain clarity about our happiness but also confidence in its pursuit Visit the book website with the same name to learn more

A ^AWild West of the Mind George Sher,2021-05-11 The book addresses two main topics first the morality of thought and second what s involved in having a free mind It connects these topics by arguing that to have a free mind a person must be willing to follow his thoughts wherever they lead and that this just isn t possible if the person thinks that some thoughts are morally off limits The book defends the unpopular position that it is not morally wrong to have even the nastiest of attitudes the most biased of beliefs or the vilest of fantasies Feminist Theory Terrell Carver,2024-10-14 This volume brings together top articles on feminist political theory published in Contemporary Political Theory With chapters on topics like abortion the legacies of individual thinkers and the role of care the authors contribute varied but timely perspectives to the study of gender and politics Video Games, Violence, and the Ethics of Fantasy Christopher Bartel,2020-07-23 Is it ever morally wrong to enjoy fantasizing about immoral things Many video games allow players to commit numerous violent

and immoral acts But should players worry about the morality of their virtual actions A common argument is that games offer merely the virtual representation of violence No one is actually harmed by committing a violent act in a game So it cannot be morally wrong to perform such acts While this is an intuitive argument it does not resolve the issue Focusing on why individual players are motivated to entertain immoral and violent fantasies Video Games Violence and the Ethics of Fantasy advances debates about the ethical criticism of art not only by shining light on the interesting and under examined case of virtual fantasies but also by its novel application of a virtue ethical account Video games are works of fiction that enable players to entertain a fantasy So a full understanding of the ethical criticism of video games must focus attention on why individual players are motivated to entertain immoral and violent fantasies Video Games Violence and the Ethics of Fantasy engages with debates and critical discussions of games in both the popular media and recent work in philosophy psychology media studies and game studies Nature and the Numinous in Mythopoeic Fantasy Literature Chris Brawley, 2014-07-14 This book makes connections between mythopoeic fantasy works that engage the numinous and the critical apparatuses of ecocriticism and posthumanism Drawing from the ideas of Rudolf Otto in The Idea of the Holy mythopoeic fantasy is a means of subverting normative modes of perception to both encounter the numinous and to challenge the perceptions of the natural world Beginning with S T Coleridge's theories of the imagination as embodied in The Rime of the Ancient Mariner the book moves on to explore standard mythopoeic fantasists such as George MacDonald C S Lewis and J R R Tolkien Taking a step outside these men particularly influenced by Christianity the concluding chapters discuss Algernon Blackwood and Ursula Le Guin whose works evoke the numinous without a specifically Christian worldview
