December 1941 Craig Shirley, 2011-12-06 December 1941 traces day by day the most important 31 days in the history of America's participation in WWII which snuffed out the lives of millions and changed history forever From December 1 1941 until the morning of December 7 1941 America was at peace and with the exception of the stubborn and persistent high unemployment of the Great Depression was a relatively happy country By the afternoon of the December 7 attack on Pearl Harbor America was a radically changed country forever Its isolationist impulses evaporated and both major political parties became more or less internationalist The month also introduced food and gas rationing Victory Gardens scrap drives a military draft and the conversion of Detroit into an arsenal of democracy From the moment of America's entry into World War II people of all kinds but mostly women looking for work flooded into the city Instant apartment buildings sprang up as did eating and drinking salons all to the advantage of the massive increase in spending generated by the federal government December 1941 is a fascinating and meticulously researched look at the American home front her people faith economy government and culture Craig Shirley's December 1941 is a riveting narrative history of America in the crucible of the Second World War A real page turner Highly recommended Douglas Brinkley Professor of History at Rice University and New York Times bestseller of *The Wilderness Warrior* Routledge Philosophy GuideBook to Frege on Sense and Reference Mark Textor, 2010-09-13 Gottlob Frege is considered the father of modern logic and one of the founding figures of analytic philosophy His writings are difficult and deal with technical abstract concepts The Routledge Philosophy Guidebook to Frege On Sense and Reference helps the student to get to grips with Frege's thought **Merchant Vessels of the United States** , 1989 Philosophy Of Language Alex Miller, 2006-10-19 This engaging and accessible introduction to the philosophy of language provides an important guide to one of the liveliest and most challenging areas of study in philosophy Interweaving the historical development of the subject with a thematic overview of the different approaches to meaning the book provides students with the tools necessary to understand contemporary analytical philosophy Philosophy of Language Alexander Miller, 1998 In this accessible survey Alex Miller shows that philosophy of language is at the centre of the energetic philosophical activity of this century By interweaving the historical development of the subject with a thematic overview of radically different approaches to theories of meaning he gives readers the tools necessary to understand contemporary analytic philosophy *Racial Cleansing in Arkansas, 1883-1924* Guy Lancaster, 2014-07-30 Even before the end of Reconstruction in Arkansas the state already possessed a long standing reputation for violence including lynchings duels and feuds However the years following Reconstruction witnessed the creation of new forms of mob violence All across the state gangs of whites sought to drive African Americans from their homes their jobs and their positions of authority creating

communities shamelessly advertised as 100% white This happened not only in the highland regions the Ozarks and the Ouachitas where the expulsion of African Americans created so called sundown towns but it also occurred in the low lying Delta lands of eastern Arkansas where cotton was king and where masked mobs of landless whitecappers and nightriders regularly dealt terror and murder to black sharecroppers *Racial Cleansing in Arkansas 1883 1924 Politics Land Labor and Criminality* by Guy Lancaster is the first book to examine the phenomenon of racial cleansing within the context of one particular state illustrating how violence relates to geography and economic development Lancaster analyzes the wholesale expulsion of African Americans and the emergence of sundown towns together with a survey of more limited deportations including those with blatant political goals as well as vigilante violence The book has broader implications not only for the study of Southern and American history but also for a deeper understanding of ethnic and racial conflict local politics and labor history

Baptized in PCBs Ellen Griffith Spears, 2014-04-07 In the mid 1990s residents of Anniston Alabama began a legal fight against the agrochemical company Monsanto over the dumping of PCBs in the city's historically African American and white working class west side Simultaneously Anniston environmentalists sought to safely eliminate chemical weaponry that had been secretly stockpiled near the city during the Cold War In this probing work Ellen Griffith Spears offers a compelling narrative of Anniston's battles for environmental justice exposing how systemic racial and class inequalities reinforced during the Jim Crow era played out in these intense contemporary social movements Spears focuses attention on key figures who shaped Anniston from Monsanto's founders to white and African American activists to the ordinary Anniston residents whose lives and health were deeply affected by the town's military industrial history and the legacy of racism Situating the personal struggles and triumphs of Anniston residents within a larger national story of regulatory regimes and legal strategies that have affected toxic towns across America Spears unflinchingly explores the causes and implications of environmental inequalities showing how civil rights movement activism undergirded Anniston's campaigns for redemption and justice

Includes 23 drawings and 23 photos **The 18th New York Infantry in the Civil War** Ryan A. Conklin, 2016-10-07
 Responding to President Lincoln's initial call for troops the 18th New York Infantry emerged as one of the Excelsior State's first regiments and mustered many of its earliest volunteers. Formed of companies from across the state the unit saw combat early suffering the first casualties of the Bull Run campaign when they were ambushed on the march four days before the battle. As part of the Army of the Potomac they fought at Gaines's Mill, Crampton's Gap, Antietam, Fredericksburg, and Chancellorsville. Drawing on numerous sources including several unpublished letters and diaries this book gives the complete history of the 18th from the first enlistee to the last surviving veteran who died in 1938 with an emphasis on the experiences of individual soldiers **Murder at the National Cathedral and Other Historic D.C. Crimes** Zachary G. Ford, 2025-01-28
 Bloody discoveries potential serial killers dramatic court cases Washington D.C. saw its share of grim murders in the mid twentieth century. From a love triangle gone wrong to an unknown killer on the loose there was no shortage of sensationalized headlines keeping residents up to date. Reports of a respected businessman found in a hotel room with the body of his longtime mistress shocked locals while the murder of eleven year old Carol Bardwell in Rock Creek Park sparked a manhunt for her killer. The racially charged case of Catherine Reardon's murder in the National Cathedral's library would even end up in front of the U.S. Supreme Court. Join author Zachary G. Ford as he uncovers the capital region's dark past.

The Darkest Dawn Thomas Goodrich, 2005-02-16 The story of the Lincoln assassination and its aftermath captured with you are there immediacy. It was one of the most tragic events in American history. The famous president beloved by many reviled by some murdered while viewing a play at Ford's Theater in Washington. The frantic search for the perpetrators. The nation in mourning. The solemn funeral train. The conspirators brought to justice. Coming just days after the surrender of the Confederate Army at Appomattox the assassination of Abraham Lincoln has become etched in the national consciousness like few other events. The president who had steered the nation through its bloodiest crisis was cut down before the end just as it appeared that the bloodshed was over. The story has been told many times but rarely with the immediacy of *The Darkest Dawn*. Thomas Goodrich brings to his narrative the care of the historian and the flair of the fiction writer. The result is a gripping account filled with detail and as fresh as today's news. Among the hundreds of books published about the assassination of our 16th president this is an exceptional volume. Frank J. Williams founding Chair of The Lincoln Forum.

Frege: Identity Challenges Reflection Ulrich Pardey, Kai F. Wehmeier, 2025-04-04 The received view of identity takes it to be a binary relation between objects like many others specifically identity is thought to be the binary relation every object bears to itself and to no others. As such it is supposed to play a fundamental role in our conceptual scheme. It is also widely held that Gottlob Frege 1848-1925 after a false start in his *Begriffsschrift* of 1879 where he proposed that identity is a relation between signs eventually came round to the now mainstream view. The first paragraph of his celebrated 1892 essay *On Sense and Reference* marking the transition. In *Frege: Identity Challenges Reflection* Ulrich Pardey and Kai F. Wehmeier

show that common wisdom is mistaken on both counts First careful exegesis shows that Frege did not repudiate the earlier sign based conception of identity in his 1892 essay but instead defended it moreover that conception is in no way refuted by the collection of formal and philosophical objections that have been raised against it in subsequent decades In particular the Begriffsschrift theory of identity far from being incompatible with quantification over objects in fact affords an elegant ontologically conservative integration of identity into predicate logic Second Pardey and Wehmeier argue that our conceptual scheme is not at all committed to a binary relation that every object bears to itself and only itself Moreover the tension between the alleged binarity of the identity relation and the logical impossibility of its ever relating two things famously pointed out by Wittgenstein in the Tractatus forms the basis of an argument for the logical incoherence of such a relation
