Ever Present Past By Hamilton Edith:

The Ever-Present Past Edith Hamilton, 1964 **American Classicist** Victoria Houseman, 2023-10-03 A biography of the remarkable woman whose bestselling *Mythology* has introduced millions of readers to the classical world Edith Hamilton 1867 1963 didn't publish her first book until she was sixty two But over the next three decades this former headmistress would become the twentieth century's most famous interpreter of the classical world Today Hamilton's *Mythology* 1942 remains the standard version of ancient tales and sells tens of thousands of copies a year During the Cold War her influence even extended to politics as she argued that postwar America could learn from the fate of Athens after its victory in the Persian Wars In *American Classicist* Victoria Houseman tells the fascinating life story of a remarkable classicist whose ideas were shaped by and aspired to shape her times Hamilton studied Latin and Greek from an early age earned a BA and MA at Bryn Mawr College and ran a girls prep school for twenty six years After retiring she turned to writing and began a relationship with the pianist and stockbroker Doris Fielding Reid The two women were partners for more than forty years and entertained journalists diplomats and politicians in their Washington D C house Hamilton traveled extensively around the world formed friendships with Gertrude Stein and Ezra Pound and was made an honorary citizen of Athens While Hamilton believed that the ancient Greeks represented the peak of world civilization Houseman shows that this suffragist pacifist and anti imperialist was far from an apologist for Western triumphalism An absorbing narrative of an eventful life *American Classicist* reveals how Hamilton's Greek and Roman worlds held up a mirror to midcentury America even as she strived to convey a timeless beauty that continues to enthrall readers Women Classical Scholars Rosie Wyles, Edith Hall, 2016-10-27 *Women Classical Scholars* Unsealing the Fountain from the Renaissance to Jacqueline de Romilly is the first written history of the pioneering women born between the Renaissance and 1913 who played significant roles in the history of classical scholarship Facing seemingly insurmountable obstacles from patriarchal social systems and educational institutions from learning Latin and Greek as a marginalized minority to being excluded from institutional support denigrated for being lightweight or over ambitious and working in the shadows of husbands fathers and brothers they nevertheless continued to teach edit translate analyse and elucidate the texts left to us by the ancient Greeks and Romans In this volume twenty essays by international leaders in the field chronicle the lives of women from around the globe who have shaped the discipline over more than five hundred years Arranged in broadly chronological order from the Italian Iberian and Portuguese Renaissance through to the Stalinist Soviet Union and occupied France they synthesize illuminating overviews of the evolution of classical scholarship with incisive case studies into often overlooked key figures some like Madame Anne Dacier were already famous in their home countries but have been neglected in previous male centred accounts while others have been almost completely lost to the mainstream cultural memory This book identifies and celebrates them their frustrations achievements and lasting records in so doing it provides the classical scholars of today regardless of gender with the female intellectual ancestors they

did not know they had **Ladies' Greek** Yopie Prins, 2017-05-09 In *Ladies Greek* Yopie Prins illuminates a culture of female classical literacy that emerged in the second half of the nineteenth century during the formation of women's colleges on both sides of the Atlantic. Why did Victorian women of letters desire to learn ancient Greek, a dead language written in a strange alphabet and no longer spoken? In the words of Elizabeth Barrett Browning, they wrote some Greek upon the margin, lady's Greek without the accents. Yet in the margins of classical scholarship, they discovered other ways of knowing and not knowing Greek. Mediating between professional philology and the popularization of classics, these passionate amateurs became an important medium for classical transmission. Combining archival research on the entry of women into Greek studies in Victorian England and America with a literary interest in their translations of Greek tragedy, Prins demonstrates how women turned to this genre to perform a passion for ancient Greek full of eros and pathos. She focuses on five tragedies: *Agamemnon*, *Prometheus Bound*, *Electra*, *Hippolytus*, and *The Bacchae* to analyze a wide range of translational practices by women and to explore the ongoing legacy of *Ladies Greek*. Key figures in this story include Barrett Browning and Virginia Woolf, Janet Case and Jane Harrison, Edith Hamilton and Eva Palmer, and Mary F. Robinson and H. D. The book also features numerous illustrations, including photographs of early performances of Greek tragedy at women's colleges. The first comparative study of Anglo-American Hellenism, *Ladies Greek* opens up new perspectives in transatlantic Victorian studies and the study of classical reception, translation, and gender.

Value Perspectives Today John F. Emling, 1977 A clear presentation of Piaget's new discipline, genetic epistemology, as a reality one pregnant with activity; this work will help to counteract the irrelevances and confusion in educating for values today.

Performing Arts/books in Print, 1973 *Slavery and the American Founding* Jude M. Pfister, 2025-03-21 Since 1776 the Founding generation has been portrayed as creators of a new world where liberty and freedom were the inherent birthright of all peoples. The Founders, although brilliant, were nonetheless human and fashioned a country conceived in liberty and freedom for themselves. The enslaved women and other minorities were not part of the original Founding documents. All men created equal was a political statement, not some ethereal message of Enlightenment understanding. This book demonstrates that to understand the American Founding is to understand the totality of America. The American Founding and the so-called compromises forged by state delegates to ensure national unity, despite existing alternatives that could have rejected enslavement, defined the period from 1765 to 1800 and planted the seeds for a horrific civil war. Two of the most debated words from the Age of Enlightenment, freedom and liberty, not only made America independent but also made it dependent on an execrable system rejected by most of the European thinkers who inspired the uprising against Britain.

Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1967 Includes Part 1, Number 2, Books and Pamphlets, Including Serials and Contributions to Periodicals. July-December.

The Booklist, 1967 *The Reader's Companion to American History* Eric Foner, John A. Garraty, 2014-01-14 An A to Z historical encyclopedia of US people, places, and events with nearly 1,000 entries, all equally

well written crisp and entertaining Library Journal From the origins of its native peoples to its complex identity in modern times this unique alphabetical reference covers the political economic cultural and social history of America A fact filled treasure trove for history buffs The Reader s Companion is sponsored by the Society of American Historians an organization dedicated to promoting literary excellence in the writing of biography and history Under the editorship of the eminent historians John A Garraty and Eric Foner a large and distinguished group of scholars biographers and journalists nearly four hundred contemporary authorities illuminate the critical events issues and individuals that have shaped our past Readers will find everything from a chronological account of immigration individual entries on the Bull Moose Party and the Know Nothings as well as an article on third parties in American politics pieces on specific religious groups leaders and movements and a larger scale overview of religion in America Interweaving traditional political and economic topics with the spectrum of America s social and cultural legacies everything from marriage to medicine crime to baseball fashion to literature the Companion is certain to engage the curiosity interests and passions of every reader and also provides an excellent research tool for students and teachers

The Freedom of Peaceful Action Stuart K. Hayashi, 2014-04-23 The Freedom of Peaceful Action is the first installment of the trilogy The Nature of Liberty which makes an ethical philosophic case for individual liberty and the free market against calls for greater government regulation and control The trilogy makes a purely secular and nonreligious ethical case for the individual s rights to life liberty private property and the pursuit of happiness as championed by the U S Founding Fathers Inspired by such philosophic defenders of free enterprise as John Locke Herbert Spencer and Ayn Rand The Nature of Liberty shows that such individual rights are not imaginary or simply assertions but are institutions of great practical value making prosperity and happiness possible to the degree that society recognizes them The trilogy demonstrates the beneficence of the individual rights approach by citing important findings in the emerging science of evolutionary psychology Although the conclusions of evolutionary psychology have been long considered to be at odds with the philosophies of individual liberty and free markets The Nature of Liberty presents a reconciliation that reveals their ultimate compatibility as various important findings of evolutionary psychology being logically applied confirm much of what philosophic defenders of liberty have been saying for centuries Moreover proceeding from the viewpoint of Rand this work argues that the structure of society most conducive to practical human well being is commensurately the most moral and humane approach as well The trilogy s first installment The Freedom of Peaceful Action focuses on the secular philosophic foundation for a society based on individual rights Starting from a defense of the efficacy of observational reason against criticisms from Immanuel Kant and Karl Popper it demonstrates how a philosophic position of individual liberty and free markets is the logical result of the consistent application of human reason to observing human nature This installment demonstrates that any political system that wishes for its citizens to thrive must take human nature into account and that an accounting of human nature reveals that a system of maximum liberty and property protection is the one most conducive to

peace and human well being **Theatre Books in Print** A. E.
