Dinwoodie, Marianne Levin, Ansgar Ohly, 2021-01-07 The nature and content of intellectual property IP law which is heavily contingent on the state of technology and on social and market developments has always been subject to ongoing transitions How those transitions are effected and the shape they take is crucial to the ability of IP to achieve its stated goals and provide the necessary climate for investment in creativity innovation and brand differentiation Yet the need for change can run headlong into a desire for coherence A search for coherence tests the limits of the concept of intellectual property is imperiled by overlaps between different IP regimes and calls for a unifying normative theme This volume assembles contributors from across IP and the globe to explore these questions including whether coherence is desirable It should be read by anyone interested in understanding the conceptual underpinnings of one of the most important and dynamic areas of the law **Publication**, 1991 **Evolution of the Cretaceous Ocean-climate System** Enriqueta Barrera, Claudia C.

Johnson, 1999-01-01 **Urban Re-Industrialization** Krzysztof Nawratek, 2017-07-24 Urban re industrialisation could be seen as a method of increasing business effectiveness in the context of a politically stimulated green economy it could also be seen as a nostalgic mutation of a creative class concept focused on 3D printing boutique manufacturing and crafts These two notions place urban re industrialisation within the context of the current neoliberal economic regime and urban development based on property and land speculation Could urban re industrialisation be a more radical idea Could urban re industrialization be imagined as a progressive socio political and economic project aimed at creating an inclusive and democratic society based on cooperation and a symbiosis that goes way beyond the current model of a neoliberal city In January 2012 against the backdrop of the 2008 financial crisis Krzysztof Nawratek published a text in opposition to the fantasy of a cappuccino city arguing that the post industrial city is a fiction and that it should be replaced by Industrial City 2.0 Industrial City 2.0 is an attempt to see a post socialist and post industrial city from another perspective a kind of negative of the modernist industrial city If for logistical reasons and because of a concern for the health of residents modernism tried

to separate different functions from each other mainly industry from residential areas Industrial City 2 0 is based on the ideas of coexistence proximity and synergy The essays collected here envision the possibilities as well as the possible perils of such a scheme
