Everything Women Always Wanted To Know About Cars But Didn't Know Who To Ask:

Everything Women Always Wanted to Know about Cars Lesley Hazleton, 1995 I remember everything about the day I bought my first car The pride the awe at the financial responsibility the way I stroked the paintwork I loved that car with an intensity that still persists years later And even after all the fancy cars I've driven since then if you gave me half a chance if they still made that car I'd buy it again Lesley Hazleton remembers that day so clearly because while men take for granted the independence that cars bring women do not For women a car means freedom It means control over their own lives It means really far more to women than it does for most men Yet for years automakers didn't consider women when they designed cars As far as they were concerned women were in the bleachers and men were in the grandstands Not anymore Lesley Hazleton talked to 150 women all over America to find out what they really thought about cars What she discovered will make you laugh and it will make you think This book is as much about the romance of owning a car and romance inside a car as it is about antilock brakes and air bags More than a car manual though it's filled with how to advice on taking care of your car it will enable you to negotiate for the best deal teach you how to test drive help you decide whether to buy or lease explain safety features and security issues and guide you to know your car as much as you love it With lively anecdotes charts and illustrations *Everything Women Always Wanted to Know About Cars But Didn't Know Who to Ask* is revealing insightful and extremely informative *Driving Women* Deborah Clarke, 2007-04-15 Publisher description **Women Behind the**
