Every Managers Guide To Business Finance:

Every Manager's Guide to Business Finance Robert G. Finney, 1994-01 Every Manager's Guide to Business Finance simplifies everything that an operating manager needs to know about how money flows into and out of the business. Written by a nonfinancial manager for nonfinancial managers, it explains how you can maximize the financial contribution of your group to the company and how to work effectively with the financial professionals so the needs of your organization are met. This book will also help you acquire the necessary money and asset management skills that you may need to get promoted without turning you into a card-carrying number cruncher. Featuring fundamental financial concepts, lively examples, and illustrations, the author explores in detail how money is obtained, spent, and protected in business. Comprehensive yet easy to read, *Every Manager's Guide to Business Finance* is the first book for nonfinancial managers that covers such a broad range of critical topics in detail. Because the focus is on what operating professionals need to know about their company's money, the chapter on accounting, for example, does not explain how to do accounting. Rather, it stresses the important concepts and uses of accounting in business. Likewise, coverage of cash management describes what you can do to maximize cash flow, but not how to set up a network for the best movement of cash. On the other hand, activities such as budgeting and employee compensation are handled by operating managers; therefore, their coverage concentrates on processes and techniques. With *Every Manager's Guide to Business Finance* as your desktop reference, you'll get a handle on how your company's money ebbs and flows and multiply your opportunities to get ahead.

The Business Manager's Guide To Getting The Best From Your Team Richard Parkes Cordock, If you are a manager in business and you lead a team of people, you're immediately under pressure to deliver results. Whether you lead a small team of five or an entire department of 100 or more, the buck stops with you when it comes to results. Good or bad, you are judged on the results you deliver and goals you achieve. But in reality, it's not just you who delivers results; it's your entire team, and it's your job as a manager and leader to get the very best from your team each day. This is often easier said than done, and for many managers, improving team performance is a constant headache and source of frustration. Even managers of successful teams are under pressure to achieve more and are on the lookout for ways to give them the edge.
