Sadeq, 1987 *Islamic Economic Development, Policy & Public Finance & Sustainable Development* Monzer Kahf, 2015-05-30 This is the fourth in a series of four books on Notes on Islamic Economics It deals with three important subjects 1 the Money and development theory in Islamic economics 2 Islamic public finance and 3 sustainable development in the Muslim countries In part one we discuss the Islamic development theory money as a central issue in development and inflation This part consists of chapters one to seven Chapter one deals with the Islamic theory of economic development chapter two deals with the role of government in economic development chapter three deals with money in Islamic economics chapter four discusses inflation chapter five discusses economic policy and its tools Islamic economics and chapters six and seven deal with issues of privatization in Islamic perspectives Part two consists of five chapters eight through twelve and deals with public finance and part three deals with sustainable development for the Muslim countries in chapters thirteen through sixteen The conclusion of this book looks for the future of Islamic economics The theme of my argument in all of them is that the Islamic system looks at economic development is a process determined by the institutional set up of a society which is changeable only by changing the value cultural system of the society The religion of Islam attempts to implant values conducive to development and prepares human beings to undertake necessary

**Towards a Maqāṣid al-Sharī'ah Index of Socio-Economic Development** Salman Syed Ali, 2019-09-05 Islamic economics which is a discipline for studying economic behaviour from an Islamic perspective advocates comprehensive human development defined by advancement and progress in multiple dimensions beyond GDP income or standard of living Not only should socio economic progress be in all dimensions but it should also have a higher purpose A society is considered economically and socially developed if adequate protections are provided for faith life intellect progeny and wealth This concept of balanced progress itself is an important idea recognized by the sociologists However the same has so far not been measured or used in policy making by economists Similarly lack of adequate protections in a society along these dimensions indicates poverty which is another way of measuring slack in development The chapters in this edited volume deal with conceptualization of socio economic development on these lines and show how to measure socio economic development in a comprehensive way The book will be of interest to academics in the fields of economics economic development and Islamic economics It will also be of interest to policy makers engaged in economic development social progress and poverty alleviation
