Becker Jr., Rolf A. Walstad, 2012-12-06 Since its establishment in the 1950s the American Economic Association's Committee on Economic Education has sought to promote improved instruction in economics and to facilitate this objective by stimulating research on the teaching of economics These efforts are most apparent in the sessions on economic education that the Committee organizes at the Association's annual meetings At these sessions economists interested in economic education have opportunities to present new ideas on teaching and research and also to report the findings of their research The record of this activity can be found in the Proceedings of the American Economic Review The Committee on Economic Education and its members have been actively involved in a variety of other projects In the early 1960s it organized the National Task Force on Economic Education that spurred the development of economics teaching at the precollege level This in turn led to the development of a standardized research instrument a high school test of economic understanding This was followed later in the 1960s by the preparation of a similar test of understanding college economics The development of these two instruments greatly facilitated research on the impact of economics instruction opened the way for application of increasingly sophisticated statistical methods in measuring the impact of economic education and initiated a steady stream of research papers on a subject that previously had not been explored **Resources in Education**, 2000-04 **Innovations in Economic Education** Mary Beth Henning, 2016-11-25 Innovations in Economic Education addresses the growing issue of financial illiteracy by showing how economics can be successfully integrated into classrooms from kindergarten through higher education Pre service teachers experienced educators curriculum leaders parents and

school administrators will find practical ideas to improve economic understanding At the elementary level the book provides creative ways of introducing young students to the basic concepts of economics financial justice and social action For higher grade levels the book offers ideas to integrate economics into current history civics and math curricula The final portion of the book features recommendations by leading economic educators on how economics can play a greater role in teachers professional development The pedagogical tools presented in each chapter include lesson plans and practical insights and are designed to meet the NCSS C3 Framework and Common Core State Standards for Social Studies This book is a timely and valuable resource for all educators interested in improving their students economic literacy and financial decision making
