## **Economic Choice Under Uncertainty A Perspective Theory Approach:**

**Economic Choice Under Uncertainty** J. L. Ford,1987      **Time, Ignorance, and Uncertainty in Economic Models** Donald W. Katzner,1998 Formal economic analysis using Shackle s ideas of historical time and nonprobabilistic uncertainty

*Pioneers of Modern Economics in Britain* David Greenaway,John R. Presley,1989-06-18 This volume contains a series of biographical essays on seven of the most influential economists in Britain since World War II Each essay gives background details and a critical assessment of the economist s work examining his or her impact on the development of modern economics

**Unknownknowledge and Choice in Economics** Stephen F. Frowen,1990-06-18 A collection of papers discussing unknowledge and choice in economics The topics focus especially on G L S Shackle s theories and his place in subjectivist thought but also include time choice and dynamics in economics and interest rates and investment decisions

Economics as an Art of Thought Peter Earl,S FROWEN,2013-04-15 This volume unites scholars from all over the world and with very different theoretical perspectives Their chapters probe into typical Shacklean themes of time and money uncertainty and expectation and into the roots of G L S Shackle s philosophical and methodological stance

Guidebook for Risk Perception and Communication in Water Resources Planning ,1993

**Behavioural Foundations of Economics** J. Baxter,2016-07-27 In recent years work on what may broadly be described as behavioural economics has expanded rapidly and is now attracting the attention of leading figures in economics such as Kenneth Arrow Much of the work however has concentrated on particular aspects of individual and aggregate behaviour The book attempts to construct a unified framework showing both how behavioural variables form the basis of economic activity and how behavioural and economic variables interact to determine individual and aggregate behaviour

**International Trade, Capital Flows and Economic Development in East Asia** Anthony Bende-Nabende,2017-03-02 The book provides an understanding of how international trade and capital flows have engineered the development process in East Asia and examines the real and potential challenges that the region is expect to encounter in the twenty first century It integrates four topics i e capital flows East Asia globalization and economic development that are at the centre of the social political and economic debate The text highlights the region s growing strategic importance in the twenty first century globalizing world where transnational corporations are playing an increasingly decisive role in the global distribution of production and trade It blends generalised regional analyses with country specific case studies in the world s most dynamic region It is so well designed that each of the seventeen countries that comprise the region gets some space for discussion Thus the text is a valuable contribution to the social science and business literature with a special focus on the now strategic region of East Asia

The Elgar Companion to Consumer Research and Economic Psychology Peter E. Earl,Simon Kemp,2002-01-01 Presents over 100 specially commissioned entries on important topics in consumer research and economic psychology from behaviourism and brand loyalty to trust and the psychology of tourism Leading scholars in the fields provide stimulating insights into the area as well as summarising

existing knowledge      *Business Cycles and Financial Crises* A. W. Mullineux, 1990      Uncertainty, Production, Choice, and Agency Robert G. Chambers, John Quiggin, 2000-09-18 This book presents a justification of the state contingent approach to the economics of uncertainty      *Evolutionary and Neo-Schumpeterian Approaches to Economics* Lars Magnusson, 2007-11-23 not gentle to the capitalists Schumpeter 1991 Thus by instead portraying the conflict between entrepreneurial activity and the sociology of the modern state he came quite close to the analysis carried out by Thorstein Veblen some decades earlier who emphasized the conflict between progressive technology and the institutions of a contemporary predatory dynastic State of early modern times superficially altered by a suffusion of democratic and parliamentary institutions Veblen 1964 p 398 Modern neo Schumpeterian approaches have continued to build on this groundwork provided by their master During recent years there has been a great upsurge of discussion on technology innovations technological regimes etc from the dynamic perspective provided by Schumpeter Dosi 1984 Rosegger 1985 Dosi et al 1988 Thus the search process for temporal extra profits has been stressed and has been used for modelling attempts The wider institutional framework for technological change and innovation activity has also been strongly developed more recently Hence emphasis has grown in the study of technological and industrial regimes path dependency and the network approach developed recently that social relationships structure the opportunities and constraints that face firms and agents that for example carry out innovations Snehota 1990      Insights in Decision Making Robin M. Hogarth, 1990-04-18 How do people make decisions How can we help people make better decisions How can we best study the processes of decision making The growing field of behavioral decision research which seeks to link observed decision behavior to underlying psychological mechanisms may provide the answers to these questions The volume is based on a recent conference held to honor the work and memory of the late Hillel J Einhorn a pioneering scholar in behavioral decision research Composed of contributions by leading researchers *Insights in Decision Making* provides a state of the art image of work in this field The range of topics covered includes conceptual and technical issues the bridge the gap between theory and the practical concern of improving decision making difficulties in statistical thinking experimental studies of processes of judgment and choice and the emergence of new paradigms for studying decision behavior Providing many avenues for future research *Insights in Decision Making* will be essential reading for students of the psychology of decision making and will prove valuable to readers in psychology economics statistics and management      *The Limits of Rationality* Karen Schweers Cook, Margaret Levi, 2008-10-03 Prevailing economic theory presumes that agents act rationally when they make decisions striving to maximize the efficient use of their resources Psychology has repeatedly challenged the rational choice paradigm with persuasive evidence that people do not always make the optimal choice Yet the paradigm has proven so successful a predictor that its use continues to flourish fueled by debate across the social sciences over why it works so well Intended to introduce novices to rational choice theory this accessible interdisciplinary book collects writings by leading researchers The

Limits of Rationality illuminates the rational choice paradigm of social and political behavior itself identifies its limitations clarifies the nature of current controversies and offers suggestions for improving current models In the first section of the book contributors consider the theoretical foundations of rational choice Models of rational choice play an important role in providing a standard of human action and the bases for constitutional design but do they also succeed as explanatory models of behavior Do empirical failures of these explanatory models constitute a telling condemnation of rational choice theory or do they open new avenues of investigation and theorizing Emphasizing analyses of norms and institutions the second and third sections of the book investigate areas in which rational choice theory might be extended in order to provide better models The contributors evaluate the adequacy of analyses based on neoclassical economics the potential contributions of game theory and cognitive science and the consequences for the basic framework when unequal bargaining power and hierarchy are introduced

**An Inquiry Into Well-being and Destitution** Partha Dasgupta,1995 An interdisciplinary book by one of the most respected scholars in what is broadly development economics but encompasses the most recent insights from philosophical research and empirical work on resource allocation nutrition science and anthropology It has been widely recognized as a seminal work presenting a wide ranging description of the causes and remedies of poverty and undernourishment and addressing the current debate over methods of estimating their incidence
