Elites and Arab Politics Ian Kelly,2020-06-11 This work explains elite behaviour in authoritarian systems and proposes why elites withdraw their support for the incumbent when faced with popular uprisings Building upon foundations drawn from institutional authoritarianism and synthesised with local context from the substantial scholarship on the Middle East and North Africa the book argues that the elite supporting autocrats come from three distinct cadres the military the single party and the personalist Each of these cadres possesses its own distinct institutional interests and preferences towards regime change Drawing on these interests the study constructs a theoretical framework that is assessed through testing it against three variables Utilising an analytic narrative the research finds that the withdrawal of elite support is the consequence of long term processes that see distinct cadres marginalised First increased incumbent preference for personalist elements destabilises regimes as the military and single party cadres reconsider their positions Second neoliberal economic policies implemented via structural adjustment accelerated this personalisation as the state s withdrawal from the economy This in turn affected the ability of the military and single party elites to access patronage Finally the degree of military involvement in the formal political sphere contributes to shaping the nature of the system that replaced the incumbent regime under examination Building upon a wide range of literature the book argues that interest realisation determines whether or not elite actors support regime change in authoritarian systems The volume will be of interest to scholars researching politics social sciences and the Middle East

Egypt and the Politics of Change in the Arab Middle East Robert Bowker, 2010-01-01

The situation unfolding in Egypt and elsewhere in the Arab Middle East has important implications for the future of the Arab political order. For the first time, a secular but inclusive political alternative to Islamism has emerged. It has captured the political imagination of the emerging Arab middle class. It will shape the regional security environment. Its consequences are unpredictable, but the greatest risk to the region is the marginalization and alienation of a movement that has raised and galvanized its political horizons.

Robert Bowker

In his book *Egypt and the Politics of Change in the Arab Middle East*, Professor Robert Bowker argues that if regimes fail to address effectively the demands for empowerment of its educated youth, they face the prospect of a tsunami-like current of instability and regression.

Ambassador Bowker's new book achieves the challenging objective of making a contribution to scholarship on Egypt and the Arab world while being accessible to a general audience. He addresses the key drivers of change, such as globalization and Islamicization, and the entrenched attitudes, behavior, and institutions they confront. Drawing upon an impressive array of empirical information, case studies, and first-hand observations, he both illustrates and assesses the contending forces and the likely outcomes of their confrontations.

Robert Springborg

Naval Postgraduate School, Monterey, US

This book is certain to be a valued and respected addition to the literature on the eve of a potentially transformational moment in Egyptian history and thus possibly for the Arab world as well.

Jerrold D. Green

Pacific Council on International Policy, Los Angeles, US

In this illuminating and informed book, Robert Bowker tackles the prospects for change in the contemporary Arab world. He persuasively argues that while long-term demographic, educational, and social transformations pose formidable challenges for the future, the important issues of political reform, Islamism, and regional security are contestable. The message that this book so engagingly conveys is that change is both inevitable and not necessarily to be feared. It is a refreshingly constructive and timely reminder for all who would see the new Middle East as destined to be volatile and precarious.

James Piscatori

Durham University, UK

Dr Bowker's study provides the best encapsulation and explanation of changes in the Arab world's social and economic landscape in an age of faster and deeper interdependence. Measured and sober in its analysis and challenging in its conclusions, it should be read by all those who want to have a better understanding of the Middle East in general and Egypt in particular.

Amin Saikal

The Australian National University, Egypt

Egypt and the Politics of Change in the Arab Middle East is a forward-looking analysis of the relationship

between economic and political reform in Egypt and of the evolving nature of Arab society and political culture both in Egypt and elsewhere Writing from the perspective of a recently retired ambassador with extensive Arab regional experience Robert Bowker discusses the potential impact of systemic resistance to pressures for greater transparency accountability and political reform amid ongoing demographic educational and generational changes His analysis encompasses the military and security services the influence of the shadow state and the impact of social surveillance coercion and corruption Looking ahead he discusses emerging business models returning Arab expatriates the gradual empowerment of women and the impact of Islam He considers the political sustainability of economic reform including the challenges facing marginalized groups His analysis concludes by reviewing the regional security and political context of reform the importance of political leadership over the coming decade and the role of external parties Compelling insightful and thought provoking the book provid
