Political Stability DR. Ir. Justian Suhandinata, SE, 2013-02-06 For decades Chinese Indonesians have been in numerous harsh spotlights in their own country Starting from supposedly simple things like obtaining official documents to be legal citizens of Indonesia their only homeland now where they can be harassed and cornered which not seldom can extend to the extremes where they are made as victims and scapegoat particularly when issues related to racism arise Similar to other ethnic groups they also live in different economic classes Some are very wealthy some are rich some live in the middle class economy some dwell in their simple lives some are poor and some try to survive their abject poverty In the urban areas they are seen to live a good life some are very rich or even extremely prosperous Most of these people are businessmen ranging from a colossal size to a mere small business However reality also shows that many Chinese Indonesians in the suburb areas live an uncertain day to day life and some are even extremely poor Fishermen in Tangerang North Sumatra Riau Bangkaor pedicab drivers unskilled labor angkot a small public minibuses drivers domestic maids office boys and blue collar workers in West Kalimantan Sambas and Singkawang and Bangka are factual examples of the grueling lives that they have to carry on striving In spite of all the facts people often forget or even intentionally ignore the facts that many Chinese Indonesians have also made positive contributions to their country in many different aspects such as economy sports culture science or political sectors to name a few These facts also need to be understood and enlightened to fellow countrymen in order to portray a more balanced objective view and non discriminatory judgment which in turn can prevent hatred dislike and other unfavorable prejudice against Indonesian citizens of Chinese descent due to the past inaccurate stereotype and labeling This book tries to present an objective portrait of Chinese Indonesians and their roles within their own beloved country and state with the very same goal of all proud Indonesian countrymen to create a stronger unity and integrity of Indonesia a country that highly values pluralism and the unity in diversity principle through the distinguished Pancasila philosophy

Chinese Economic Journal and Bulletin, 1927 **The Chinese Economic Bulletin**, 1926 **Institutions and Chinese Economic Development** Li Tan, 2021-11-10. China's rise as an economic power has posed some challenging questions: how did China achieve GDP growth that was even faster than the Four Asian Tigers? Is the Chinese model superior? Why hasn't the rapid economic growth led to democracy in the country as many observers expected? And can China sustain its rapid economic growth with its existing social system? *Institutions and Chinese Economic Development: A Comparative Historical Approach* explores these questions by studying the historical relationship between institutions and economic development in China, drawing comparisons with England, Japan, and other Asian economies as appropriate. The investigation focuses on several junctures in China's economic development: the starting point of the divergence between China and the West, the externally provoked industrial development in the late 19th century, and the contemporary Chinese Miracle. The analysis foregrounds the role played by Chinese institutions and examines their effects on both the country's failure to industrialize in the past and its economic achievements in recent time. The book also asks whether, without reform to the existing state institutions, China might still be subject to the historical dynastic cycles today despite its recent economic success. This work is of great interest to students and scholars of the Chinese economy, economic history, and institutional economics, as well as comparative history and Chinese studies more broadly.
