The Economics of Communist Agriculture Jerzy F. Karcz, 1979 Soviet State and Society Between Revolutions, 1918-1929 Lewis H. Siegelbaum, 1992-08-20 The evolution of the ruling Communist Party and its New Economic Policy is explored in the first book to analyze the relationship between the Soviet state and society from 1917 through the early 1930s through the changing fortunes of its peoples Finance, Intermediaries, and Economic Development Stanley L. Engerman, Philip T. Hoffman, Jean-Laurent Rosenthal, Kenneth L. Sokoloff, 2003-07-14 This volume includes ten essays dealing with financial and other forms of economic intermediation in Europe Canada and the United States since the seventeenth century Each relates the development of institutions to economic change and describes their evolution over time as well as discussing several different forms of intermediation and deals with significant economic and historical issues Soviet Agriculture Stefan Hedlund, 2019-08-06 This book first published in 1984 analyses the institutions and decision making processes that determined agricultural production in the Soviet Union It addresses the crisis in Soviet agriculture of the early 1980s examining the problems of low productivity adverse natural conditions and an underdeveloped infrastructure The book s analysis of the crisis focuses on the growing gap between demand and supply of agricultural produce and the pressures on the government to alleviate the food shortages Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989 The Primary Sector in Economic Development (Routledge Revivals) Mats Lundahl, 2015-05-08 It is a major problem for less developed countries to make their primary sectors sufficiently profitable in order to be able to build up their manufacturing and service sectors. This edited collection first published in 1985 examines the nature of the primary sector and its role in economic development Chapters consider problems of stagnation and income distribution in such countries as Chile and Brazil trade in national primary products and exports in Africa and the Middle East and reform and policies of development in countries such as Peru An interesting volume with an international scope this title will be of value to economics students with a particular interest in the role of the primary sector in developing economies Socialist Agriculture In Transition Joseph C Brada, Karl-Eugen Wadekin, 2019-07-11 Because of altered investment priorities policymakers in socialist countries can no longer increase the resources devoted to agriculture as they have in the past Instead they must seek alternative means of improving agricultural performance One approach has been to change the structure of socialist agriculture and to foster organizational changes within agricultural units The contributors to this volume evaluate such reforms and weigh their implications for agricultural output and trade They examine the normless links being introduced in the USSR and compare Soviet experiences with the successes of Chinese and Hungarian reorganizations describe and analyze the changes being implemented in the German Democratic Republic Yugoslavia and Vietnam and pay particular attention to the role of Polish agriculture in the production crisis and to agriculture s potential for improving Poland s overall economic performance The contributors also address issues of infrastructure development the incentives being developed to foster more efficient

allocation of resources within the agricultural sector and the likely growth of East West and intra socialist agricultural trade **Agrarian Reform in Russia** Carol S. Leonard, 2010-12-06 This book examines the history of reforms and major state interventions affecting Russian agriculture the abolition of serfdom in 1861 the Stolypin reforms the NEP the Collectivization Khrushchev reforms and finally farm enterprise privatization in the early 1990s It shows a pattern emerging from a political imperative in imperial Soviet and post Soviet regimes and it describes how these reforms were justified in the name of the national interest during severe crises rapid inflation military defeat mass strikes rural unrest and or political turmoil It looks at the consequences of adversity in the economic environment for rural behavior after reform and at long run trends It has chapters on property rights rural organization and technological change It provides a new database for measuring agricultural productivity from 1861 to 1913 and updates these estimates to the present This book is a study of the policies aimed at reorganizing rural production and their effectiveness in transforming institutions Prospects For Soviet Grain Production Brigitta Young, 2019-06-04 This book challenges the conventional view that the present low yields of the Soviet agricultural system result primarily from its institutional structure demonstrating that other factors are of equal or greater importance Ms Young examines two alternative explanations first that weather is the dominant force underlying trends in The Global Economic System I. Wallace, 2002-09-26 Provides a unique treatment of world economic geography as a whole and examines the principle philosophies that have shaped our study of it identifies the importance of the biophysical as well as cultural and political environments The Red and the Green Frederic L. Pryor, 2014-07-14 Reorganizing the agricultural sector into large scale state and collective farms was the most radical transformation of economic institutions implemented by Marxist governments Frederic Pryor provides perspective on this unique experiment by comparing in a systematic and original fashion the changes in the organization of agriculture in all of the world's Marxist nations This approach allows not only a clearer understanding of the major lines of agricultural policy and organization in these nations but also a keener insight into the reasons underlying the variations among them What have been the doctrinal elements that have led to collectivization Why has the process of collectivization been so different in various nations How have the farms been organized both internally and within the larger economy How has the performance of agriculture differed between the various Marxist nations and comparable capitalist nations And what are the difficulties in reversing collectivization and moving back toward private agriculture In answering these questions The Red and the Green draws on a vast number of primary and secondary sources from many nations as well as from extensive interviews with farmers agricultural officials and specialists in more than a dozen Marxist nations Among books dealing with problems of communist economy this study is unrivaled in its broad scope combined with careful institutional and statistical analysis Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the

Allen, 2021-07-13 To say that history s greatest economic experiment Soviet communism was also its greatest economic failure is to say what many consider obvious Here in a startling reinterpretation Robert Allen argues that the USSR was one of the most successful developing economies of the twentieth century He reaches this provocative conclusion by recalculating national consumption and using economic demographic and computer simulation models to address the what if questions central to Soviet history Moreover by comparing Soviet performance not only with advanced but with less developed countries he provides a meaningful context for its evaluation Although the Russian economy began to develop in the late nineteenth century based on wheat exports modern economic growth proved elusive But growth was rapid from 1928 to the 1970s due to successful Five Year Plans Notwithstanding the horrors of Stalinism the building of heavy industry accelerated growth during the 1930s and raised living standards especially for the many peasants who moved to cities A sudden drop in fertility due to the education of women and their employment outside the home also facilitated growth While highlighting the previously underemphasized achievements of Soviet planning Farm to Factory also shows through methodical analysis set in fluid prose that Stalin's worst excesses such as the bloody collectivization of agriculture did little to spur growth Economic development stagnated after 1970 as vital resources were diverted to the military and as a Soviet leadership lacking in original thought pursued wasteful Politics or Markets? Mats Lundahl, 2002-01-31 First published in 1992 Routledge is an imprint of Taylor investments Francis an informa company Faulty Foundations Holland Hunter, Janusz M. Szyrmer, 2014-07-14 Could the USSR have been prepared for World War II more humanely and efficiently In this first integrated evaluation of Stalin's economic goals and actions Holland Hunter and Janusz Szyrmer reconstruct and test Soviet results annually and by sector Addressing historians political scientists and economists the authors build a new internally consistent twelve sector annual record of output and capital growth assembling and reconciling Western reconstructions of Soviet data to assess Soviet policy and test how alternative policies might have worked They point out lessons from the 1930s that can be applied today The authors analyze the basic steps marking the prewar Soviet drive agricultural collectivization head long investment in heavy industry autarkic foreign trade and rearmament They conclude that the economy s growth potential was misused that collectivization was a mistake and that with a slower drive to build heavy industry living standards could have been higher throughout the 1930s while the ability to withstand invasion would have been stronger A related implication for the 1990s is that correct prices small scale production and individual initiative are key requirements for an effective Soviet economy Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the

The new theoretical framework deepens and expands the theory of agricultural modernization and production organizations. The book discusses the multi symbiosis pattern of agricultural production organizations in contemporary China from macro and micro economics perspectives Based on the peasant household economy this multi symbiosis organizational structure co exists and interweaves with various forms of economic organizations. The book points out that this multi symbiosis organizational structure is the result of free choice of the majority of farmers since the reform and opening up in turn it also provides a broader organizational and institutional space for farmers diversified choices The book predicts that China's agricultural production organization networking will gradually move towards networking based on diversification and also form networked organization groups China's Economic <u>Development</u> Chu-yuan Cheng, 2019-03-13 How has the government of the PRC transformed traditional economic institutions into a socialist central planning system What has been the impact of this transformation on China's economic growth What is the essence of the Chinese development model and how successfully has it functioned during the past three decades What are the prospects for t **Engineering Earth** Stanley D.
