Fair, Christian de Boissieu, 2012-12-06 The papers collected in this volume are those presented at the sixteenth Colloquium arranged by the Societe Universitaire Europeenne de Re cherches Financieres SUERF which took place in Lisbon in May 1991 The Society is supported by a large number of central banks and commer cial banks by other financial and business institutions and by personal subscriptions from academics and others interested in monetary and financial problems Since its establishment in 1963 it has developed as a forum for the exchange of information research results and ideas among academics and practitioners in these fields including central bank officials and civil servants responsible for formulating and applying monetary and financial policies national and international A major activity of SUERF is to organise and conduct Colloquia on subjects of topical interest to its members The titles places and dates of previous Colloquia for which volumes of the collected papers were published are noted on the last page of this volume Volumes were not produced for Colloquia held at Tarragona Spain in October 1970 under the title Monetary Policy and New Developments in Banking and at Strasbourg France in January 1972 under the title Aspects of European Monetary Union *Freedom as a task* Wolfgang Fikentscher, 1997 , **New Ways to Save Energy** A.S. Strub, H. Ehringer, 2012-12-06 Proceedings of the International Seminar organized by the Commission of the European Communities held in Brussels 21 25 October 1979 *Etudes sur le grand domaine carolingien* Jean-Pierre Devroey, 2024-10-28 The origins of the large estate of Carolingian Europe and the role it played in the evolution of Frankish society and economy are the themes of this volume The first group of articles focus on documentary evidence especially the polyptychs and their interpretation Though there is insufficient material for any true quantitative history Professor Devroey argues that the evidence points to demographic expansion coupled with the exploitation of new agricultural methods and crops and a reliance on the family as the unit of production Further studies relate these estates to the commercial networks of the area from a local to an international level A final concern is to demonstrate that the large estate formed a key component of the Carolingian rulers aim to establish the bonum commune and a stable society with assured food supplies regulated markets and a just system of weights and measures L origine du grand domaine de l Europe carolingienne et le r le qu il jouait dans l volution de la soci t et de l conomie du monde franc sont les th mes de ce volume Le premier groupe d articles se concentre sur des documents et plus sp cialement sur les polyptyques et leur interpr tation Bien qu il n y ait pas

de matériel suffisant pour une histoire quantitative le professeur Devroey soutient que tout indique une expansion démographique laquelle viennent s'ajouter l'exploitation de nouvelles méthodes agricoles et de récoltes ainsi qu'une dépendance vis-à-vis de la famille en tant qu'unité de production. Des études supplémentaires font le lien entre ces propriétés et les réseaux commerciaux de cette partie du monde du niveau local au niveau international. L'auteur s'efforce finalement de démontrer que le grand domaine était un des facteurs à la base de la volonté des dirigeants carolingiens d'instaurer le bonum commune et une société stable avec des approvisionnements assurés des marchés.
