Cinquième édition, revue ... et augmentée* Heinrich Gottfried Ollendorff, 1838

Nouvelle méthode pour apprendre à lire, à écrire et à parler une langue en six mois appliquée à l'allemand Heinrich Godefroy Ollendorff, 1838 **Nouvelle méthode pour apprendre à lire, à écrire et à parler une langue en six mois, appliquée à l'allemand** Heinrich Gottfried Ollendorff, 1850 French Sentences Vol.3 Nik Marcel, 2015-07-23 French Sentences Vol 3 English French THIS EDITION The dual language text has been arranged into sentences for quick and easy cross referencing The text can be used on its own However the content is ideal for reinforcing grammar and as a precursor to more advanced bilingual editions Volume 3 in this series takes a more in depth look at French grammar It also includes some of the basic verb charts Like in the first two volumes the text uses a bilingual sentence structure to tackle grammar It can be used as a primary source for grammar or as a way for reinforcing an alternative text on grammar However it can also be read in a relaxed manner without endeavouring to analyse to excess thus learning key grammatical concepts in a somewhat passive manner The reader can choose between four formats Section 1 English to French Section 2 French to English Section 3 English Section 4 French A methodology for getting the most out of this bilingual format is explained in the book s Foreword Once a student has studied the basics a suitable book about basic grammar can be helpful The suggestion is that any alternative grammar book be studied more with the intent of recognition and understanding rather than memorising and obsessive rote learning Go through as much of the grammar book you feel you can digest maybe even the whole book skipping over what is not easily understood Then read through a portion of text in this book looking for examples of what you have picked up or gleaned in your hopefully not so arduous study of grammar Then depending on your inclination return to the grammar book or your basic French book or move on to lengthier bilingual text like in 2Language Books texts for example or find some suitable French text a simple novel a French news website etc Grammar books will likely have some verb charts However there are currently good on line resources that go further dictionaries with a verb conjugation search option Many basic language books offer some form of audio support Internet services primarily news based radio stations offer podcasts Audio from television is an additional resource and can be formatted for use on various digital platforms

However if audio is an important component of your interest in languages electronic devices that support quality text to speech TTS will likely be appealing With a library card TTS technology in a device that supports the relevant content and the above mentioned resources as digital content an entire language learning system is available for not much more than a cup of coffee There is no substantial financial outlay to get you started Furthermore there are no additional ongoing fees and updates and there are no expiry dates on premium content and resources A Dual Language Book Project 2Language Books
