Hiroshige Famous Places of Naniwa (Osaka) Cristina

Berna,Eric Thomsen,2024-08-07 This book shows the 10 Famous Views Of Naniwa Osaka by Hiroshige published in 1834

They are unusual in that they show markets with merchants negotiating The 8 Views is a Chinese artistic and literary theme developed already in the 10th century and then transposed into Japanese culture where it developed its own independent expression Print artist Utagawa Hiroshige as many other Japanese artists took up the issue of 8 Views of Omi and again as other Japanese artists he expanded the theme into 8 Views of Kanazawa 8 Views of Edo Environs and other locations To give some background there are many other prints included especially about rice but also fishing and transportation and cultural activities afforded by the wealth accumulated by the merchants It is possible to travel to see the same sites today *Color Woodcut International* Chazen Museum of Art,2006 Color woodcut printmaking was not new to Britain America or Japan in the late eighteenth century Yet after Japan was opened to the West in 1854 and deeper cultural exchange began Japanese prints captured the European and American imagination The fresh colors simplicity of materials and departure from traditional compositions entranced western artists and the public alike Likewise Japanese audiences and artists were intrigued by the styles and techniques of western art which was broadly available in Japan by the end of the nineteenth century Artists there created images of the strange foreigners and imagined what American cities looked like By the beginning of the twentieth century artists were not content to merely imagine what the other side of the world looked like As prints traveled around the globe for study so did artists and with them spread the tricks and techniques of color woodblock printmaking as well as appreciation for the prints Woodblock printmakers in the West started to investigate Japanese processes and Japanese publishers began to seriously seek out the print market outside of Japan Important themes began to emerge scenes of nature and old fashioned architecture outnumbered modern city views and images of animals were nearly as popular as those of human figures Imagery was often idyllic and beautiful attractive to an international audience Twentieth century art however moves at a furious pace and the ferment of the international woodcut style quickly ran its course Artists appropriated what they needed from the color woodcut then developed techniques subjects and styles in their

own ways An ever expanding range of prints became indebted to the artists of the previous generation who had reinvigorated woodblock printmaking styles and practices around the world This full color catalogue includes many prints from this colorful exhibition and shows how the progression of styles became more similar as international artists learned from and competed with each other then stylistically diverged as artists of each country took what they learned in new directions The three essays each focus on the influences and contributions made to the international style by three countries Japan Britain and America

The Prints of Isoda Koryūsai Allen Hockley, Koryūsai Isoda, 2003 He may very well be the most productive artist of the eighteenth century Refuting outmoded paradigms of connoisseurship and challenging the assumptions of conventional print scholarship Allen Hockley elevates this important figure from the status of a minor Edo period artist He argues that Koryusai excelled by the most significant measure he was a highly successful creator of popular commodities Employing an active audience model Hockley reshapes the study of ukiyo e as a

Excursions in Identity Laura Nenzi, 2008-04-16 In the Edo period 1600 1868 status and gender based expectations largely defined a person s place and identity in society The wayfarers of the time however discovered that travel provided the opportunity to escape from the confines of the everyday Cultured travelers of the seventeenth and eighteenth centuries wrote travel memoirs to celebrate their profession as belle lettrists For women in particular the open road and the blank page of the diary offered a precious opportunity to create personal hierarchies defined less by gender and more by culture and refinement After the mid eighteenth century which saw the popularization of culture and the rise of commercial printing textbooks guides comical fiction and woodblock prints allowed not a few commoners to acquaint themselves with the historical lyrical or artistic pedigree of Japan s famous sites By identifying themselves with famous literary and historical icons of the past some among these erudite commoners saw an opportunity to rewrite their lives and re create their identities in the pages of their travel diaries The chapters in Part One Re creating Spaces introduce the notion that the spaces of travel were malleable accommodating reconceptualization across interpretive frames Laura Nenzi shows that far from being static backgrounds these travelscapes proliferated in a myriad of loci where one person s center was another s periphery In Part Two Re creating Identities we see how in the course of the Edo period educated persons used travel to or through revered lyrical sites to assert and enhance their roles and identities Finally in Part Three Purchasing Re creation Nenzi looks at the intersection between recreational travel and the rising commercial economy which allowed visitors to appropriate landscapes through new means monetary transactions acquisition of tangible icons or other forms of physical interaction
