previous accounts flawed by myth or subjectivity this text sets the record straight Man s early attempts at stimulating immunity are rooted in folk wisdom of the distant past Vaccination was not a discovery or a medical breakthrough but a development from variolation substituting cowpox as an inoculum instead of smallpox Analysing relevant primary sources with an innovative approach this book reveals the geographical extent of awareness of Jesty s endeavour in Georgian England confirms his priority and seeks to establish his Intellectual Property for the first use of an empirical vaccine Jenner brought vaccination to the world His achievement will always take precedence but the findings of this new research suggest it is now time to honour Benjamin Jesty with the credit he deserves *Edward Jenner's Cowpox Vaccine* Peter Razzell,1980
