**The Mystery of Skara Brae** Laird Scranton, 2016-11-15 An investigation of the origins of the Neolithic farming village on Orkney Island Reveals the striking similarities between Skara Brae and the traditions of pre dynastic ancient Egypt as preserved by the Dogon people of Mali Explains how megalithic stone sites near Skara Brae conform to Dogon cosmology Examines the similarities between Skara Brae and Gobekli Tepe and how Skara Brae may have been a secondary center of learning for the ancient world In 3200 BC Orkney Island off the coast of Northern Scotland was home to a small farming village called Skara Brae For reasons unknown after nearly six centuries of continuous habitation the village was abandoned around 2600 BC and its stone structures covered over perhaps deliberately like the structures at Gobekli Tepe Although now well excavated very little is known about the peaceful people who lived at Skara Brae or their origins Who were they and where did they go Drawing on his in depth knowledge of the connections between the cosmology and linguistics of Egyptian Dogon Chinese and Vedic traditions Laird Scranton reveals the striking similarities between Skara Brae and the Dogon of Mali who still practice the same cosmology and traditions they once shared with pre dynastic Egypt He shows how the earliest Skara Brae houses match the typical Dogon stone house as well as Schwaller de Lubicz's interpretation of the Egyptian Temple of Man at Luxor He explains how megalithic stone sites near Skara Brae conform to Dogon cosmology each representing sequential stages of creation as described by Dogon priests and he details how the houses at Skara Brae also represent a concept of creation Citing a linguistic phenomenon known as ultraconserved words the author compares words of the Faroese language at Skara Brae a language with no known origin with important cosmological words from Dogon and

ancient Egyptian traditions finding obvious connections and similarities Scranton shows how the cultivated field alongside the village of Skara Brae corresponds to the heavenly field symbolism pervasive throughout many ancient cultures such as the Field of Reeds of the ancient Egyptians and the Elysian Fields of ancient Greece He demonstrates how Greek and Egyptian geographic descriptions of these fields are a consistent match with Orkney Island Examining the similarities between Skara Brae and Gobekli Tepe Scranton reveals that Skara Brae may have been a secondary center of initiation and civilizing knowledge a long lost Egyptian mystery school set up millennia after Gobekli Tepe was ritually buried and given the timing of the site is possibly the source of the first pharaohs and priests of ancient Egypt

Decoding Maori Cosmology  
Laird Scranton,2018-05-08 An exploration of New Zealand s Maori cosmology and how it relates to classic ancient symbolic traditions around the world Shows how Maori myths symbols cosmological concepts and words reflect symbolic elements found at G bekli Tepe in Turkey Demonstrates parallels between the Maori cosmological tradition and those of ancient Egypt China India Scotland and the Dogon of Mali in Africa Explores the pygmy tradition associated with Maori cosmology which shares elements of the Little People mythology of Ireland including matching mound structures and common folk traditions It is generally accepted that the Maori people arrived in New Zealand quite recently sometime after 1200 AD However new evidence suggests that their culture is most likely centuries older with roots that can be traced back to the archaic G bekli Tepe site in Turkey built around 10 000 BC Extending his global cosmology comparisons to New Zealand Laird Scranton shows how the same cosmological concepts and linguistic roots that began at G bekli Tepe are also evident in Maori culture and language These are the same elements that underlie Dogon ancient Egyptian and ancient Chinese cosmologies as well as the Sakti Cult of India a precursor to Vedic Buddhist and Hindu traditions and the Neolithic culture of Orkney Island in northern Scotland While the cultural and linguistic roots of the Maori are distinctly Polynesian the author shows how the cosmology in New Zealand was sheltered from outside influences and likely reflects ancient sources better than other Polynesian cultures In addition to shared creation concepts he details a multitude of strikingly similar word pronunciations and meanings shared by Maori language and the Dogon and Egyptian languages as well as likely connections to various Biblical terms and traditions He discusses the Maori use of standing stones to denote spiritual spaces and sanctuaries and how their esoteric mystery schools are housed in structures architecturally similar to those commonly found in Ireland He discusses the symbolism of the Seven Mythic Canoes of the Maori and uncovers symbolic aspects of the elephant headed Hindu god Ganesha in Maori cosmology The author also explores the outwardly similar pygmy traditions of Ireland and New Zealand characterized by matching fairy mound constructions and mythic references in both regions He reveals how the trail of a group of Little People who vanished from Orkney Island in ancient times might be traced first to Scotland Ireland and England and then on to New Zealand accompanied by signature elements of the global cosmology first seen at Gobekli Tepe

**Point of Origin** Laird Scranton,2015-02-22 Reveals Gobekli Tepe as a center of civilizing knowledge for the ancient

world Details how symbolic elements at Gobekli Tepe link a pre Vedic cult in India to cosmological myths and traditions in Africa Egypt Tibet and China Discusses how carved animal images at Gobekli Tepe relate to stages of creation and provide an archaic foundation for symbolic written language Defines how classical elements of ancient Egyptian myth and religion characterize an archaic cosmological tradition that links ancestrally back to Gobekli Tepe How could multiple ancient cultures spanning both years and geography have strikingly similar creation myths and cosmologies Why do the Dogon of Africa and the civilizations of ancient Egypt India Tibet and China share sacred words and symbols Revealing the existence of a long forgotten primal culture and the world s first center of higher learning Laird Scranton shows how the sophisticated complex at Gobekli Tepe in Turkey is the definitive point of origin from which all the great civilizations of the past inherited their cosmology esoteric teachings and civilizing skills such as agriculture metallurgy and stone masonry fully developed Scranton explains how the carved images on Gobekli Tepe s stone pillars were the precursors to the sacred symbols of the Dogon Egyptians Tibetans and Chinese as well as the matriarchal Sakti cult of ancient Iran and India He identifies Gobekli Tepe as a remote mountain sanctuary of higher knowledge alluded to in Sakti myth named like an important temple in Egypt and defined in ancient Buddhist tradition as Vulture Peak Scranton reveals how Gobekli Tepe s enigmatic H carvings and animal symbolism symbolic of stages of creation was presented as a kind of prototype of written language accessible to the hunter gathers who inhabited the region He shows how the myths and deities of many ancient cultures are connected linguistically extending even to the name of Gobekli Tepe and the Egyptian concept of Zep Tepi the mythical age of the First Time Identifying Gobekli Tepe not only as the first university but also as the first temple perhaps built as a civilizing exercise Scranton definitively places this enigmatic archaeological site at the point of origin of civilization religion and ancient science

**China's Cosmological Prehistory** Laird Scranton,2014-08-22 An examination of the earliest creation traditions and symbols of China and their similarities to those of other ancient cultures Reveals the deep parallels between early Chinese words and those of other ancient creation traditions such as the hieroglyphics of ancient Egypt Explores the 8 stages of creation in Taoism and the cosmological origins of Chinese ancestor worship the zodiac the mandala and the I Ching Provides further evidence that the cosmology of all ancient cultures arose from a single now lost source Building on his extensive research into the sacred symbols and creation myths of the Dogon of Africa and those of ancient Egypt India and Tibet Laird Scranton investigates the myths symbols and traditions of prehistoric China providing further evidence that the cosmology of all ancient cultures arose from a single now lost source Scranton explores the fundamental similarities between the language that defined ancient Chinese cosmology and that of other creation traditions revealing the connections between the phonetic structure of the words their glyphs and their use He demonstrates striking parallels between the earliest systems of writing in China and the hieroglyphs of ancient Egypt He examines the 8 levels of creation in Taoism and the cosmological origins of Chinese ancestor worship mythical emperors the zodiac the mandala and the I Ching He details the fundamental principles of

land use in ancient China in relation to the symbolism of a Buddhist stupa and the Dogon granary ritual shrines that are also the central symbol of other creation traditions Understanding the true meanings of these symbol complexes also reveals the sophisticated scientific understanding of these ancient cultures for these creation symbols directly correlate with our modern understanding of atoms and the energetic makeup of matter In exploring Chinese cosmological traditions Scranton sheds new light on the contention that the sacred knowledge of the ancients is the legacy of an earlier culture who gave primitive humanity the tools they needed to birth the first known civilizations Book of Mormon Onomasticon & Theological Word Study Robert F. Smith,2024-12-31 Complete list of Book of Mormon words and names and their variants with likely etymologies offered including theological words and concepts *The Orion Zone* Gary David,2010-04-20 Ancient star lore exploring the mysterious location of Pueblos in the American Southwest circa 1100 AD that appear to be a mirror image of the major stars of the Orion constellation Many readers are familiar with the correlation between the pyramids of Egypt and the stars of Orion Beginning in 1100 A D on the Arizona desert the Hopi constructed a similar pattern of villages that mirrors all the major stars in the constellation As Above so Below The Orion Zone explores this ground sky relationship and its astounding global significance Packed with diagrams maps astronomical charts and photos of ruins and rock art this useful guidebook decodes the ancient mysteries of the Pueblo Indian world Egypt - Temple of the Whole World Sibylle Meyer,2004-03-01 The intellectual heritage of Ancient Egypt once wrote Jan Assmann can hardly be said to have become part of our cultural memory It is a subject of fascination not of understanding This fascination began when ancient Greek travellers started visiting Egypt and continues unto this day more often than not as a scholarly search for the oldest roots of our cultural memory Jan Assmann's superb academic achievement undoubtedly represents the single most significant contribution to the modern understanding of Ancient Egypt reaching far beyond the boundaries of Egyptology proper The essays in this volume all written by his friends and disciples reflect the tremendous impact of his oeuvre on the scholarly world encompassing not only Egyptological and related themes but also central aspects of Judaeo Christian identity such as monotheism and the historical events surrounding the recently discovered Diaspora temple of Yahu on the island of Elephantine **Old Testament Cosmology and Divine Accommodation** John W. Hilber,2020-04-03 In order to reconcile the discrepancies between ancient and modern cosmology confessional scholars from every viewpoint on the interpretation of the early chapters of Genesis agree that God accommodated language to finite human understanding But in the history of interpretation no consensus has emerged regarding what accommodation entails at the linguistic level More precise consideration of how the ancient cognitive environment functions in the informative intention of the divine and human authors is necessary Not only does relevance theory validate interpretative options that are inherently most probable within the primary communication situation but the application of relevance theory can also help disentangle the complexities of dual authorship inherent in any model of accommodation The results also make a salutary contribution to the theological

Waugh, 2018-11-30     **The Revival of Atumism: The Ancient Egyptian Religion Part 1** Mostafa Elshamy, 2021-09-19 The word Atumism derives from Atum the manifestation of the All Lord in creating the sphere of earth and the creature Adam The words Atumian and Atumianity addressed here by the meaning of Human and Humanity are derived from Atum who is Adam In the Egyptian literature there is a thin line that differentiates Atum and Adam Why denominate the Egyptian Religion by the term Atumism The answer is found in multitude of diverse notions embedded in the Egyptian speech and makes the term in its profoundness the most right for a religion that has been of divine revelation millennia ahead of A D This book is a fusion of the earlier research titled *Ancient Egypt The Primal Age of Divine Revelation Volume I and II*     Let Us Go Up to Zion Iain Provan, Mark Boda, 2012-07-23 This volume honours Professor H G M Williamson Regius Professor of Hebrew at Oxford University through a collection of essays by colleagues and former students from across the globe The various contributions intersect with the previous work of Professor Williamson related to the Old Testament Hebrew Bible and Hebrew language and texts

**Marriage and matrimonial property in ancient Egypt** P.W. Pestman, 2020-03-02     **The Journal of Egyptian Archaeology** , 1921     Gods of Eden Andrew Collins, 2002-04-01 A groundbreaking historical documentation of the secret history of pre Pharonic Egypt and the race of angels that built it By the author of *From the Ashes of Angels and Gateway to Atlantis* more than 30 000 copies sold in the United Kingdom Unlocks the secrets of how the Great Pyramids and the Sphinx

were built Explains the traces left by the race of Elder gods that founded ancient Egypt through ancient texts of the Hall of Records Proves the foundations of ancient astronomy 10 000 years ago Hidden deep below Egypt s Giza plateau is perhaps the key to unlocking the mysteries of the Great Pyramid one of the seven wonders of the world Built using a technology unequalled even today the ancient Egyptians claimed they inherited their advanced culture from a race of Elder gods who lived during a previous age known as Zep Tepi the First Time In his earlier companion book From the Ashes of Angels renowned historical writer Andrew Collins provided historical and scientific evidence showing how these Elder gods who were the flesh and blood members of a race of fallen angels founded ancient Egypt Now in Gods of Eden he describes the remarkable achievements of their culture Assembling clues from archaeology mythology and religion Collins shows us how this great society mastered acoustic technology and employed the use of sound to raise heavy objects into the air and pierce holes through solid rock It was with this technology that they were able to construct gigantic structures that have marveled adventurers and archaeologists worldwide With findings based on more than 20 years of research and scholarship Collins reveals the fascinating historical destiny of this culture of fallen angels and the imprints and legacies they left behind at the genesis of civilization **The Aramaic and Egyptian Legal Traditions at Elephantine** Alejandro F. Botta, 2009-06-25

This is a study of the interrelationships between the formulary traditions of the legal documents of the Jewish colony of Elephantine and the legal formulary traditions of their Egyptian counterparts The legal documents of Elephantine have been approached in three different ways thus far first comparing them to the later Aramaic legal tradition second as part of a self contained system and more recently from the point of view of the Assyriological legal tradition However there is still a fourth possible approach which has long been neglected by scholars in this field and that is to study the Elephantine legal documents from an Egyptological perspective In seeking the Egyptian parallels and antecedents to the Aramaic formulary Botta hopes to balance the current scholarly perspective based mostly upon Aramaic and Assyriological comparative studies
