Chronology L. Austine Waddell, 2013-10 This is a new release of the original 1930 edition *The Sumerians* Paul Collins, 2021-03-22 The Sumerians are widely believed to have created the world's earliest civilization on the fertile floodplains of southern Iraq from about 3500 to 2000 BCE They have been credited with the invention of nothing less than cities writing and the wheel and therefore hold an ancient mirror to our own urban literate world But is this picture correct Paul Collins reveals how the idea of a Sumerian people was assembled from the archaeological and textual evidence uncovered in Iraq and Syria over the last one hundred fifty years Reconstructed through the biases of those who unearthed them the Sumerians were never simply lost and found but reinvented a number of times both in antiquity and in the more recent past *Recent Geographical Literature, Maps and Photographs* Royal Geographical Society (Great Britain), 1928

Recent Geographical Literature, Maps, and Photographs Added to the Society's Collection, 1928 *The Rise of Man in the Gardens of Sumeria* Christine Preston, 2009-06-15 Lieut Col Laurence Austine Waddell 1854 1938 was a British Army officer with an established reputation mainly due to a work on the Buddhism of Tibet his explorations of the Himalayas and a biography which included records of the 1903 4 military expedition to Lhasa Lhasa and its Mysteries Waddell was also in the limelight due to his acquisition of Tibetan manuscripts which he donated to the British Museum His overriding interest was in Aryan origins After learning Sanskrit and Tibetan and in between military expeditions and gathering intelligence from the borders of Tibet in the Great Game Waddell researched Lamaism He extended his activities to Archaeology Philology and Ethnology and was credited with discoveries in relation to Buddha His personal ambition was to locate records of ancient

civilisation in Tibetan lamaseries Waddell is little known as an archaeologist and scholar in contrast with his fame in the Oriental field due to the controversial nature of his published works dealing with Aryan themes Waddell studied Sumerian and presented evidence that an Aryan migration fleeing Sargon II carried Sumerian records to India He interrupted his comparative studies of Sumerian and Indian king lists to publish a work on Phoenician origins and decipherment of Indus Valley seals the inscriptions of which he claimed were similar to Sumerian pictogram signs cited from G A Barton's plates which are reproduced in this volume Waddell's life is reconstructed from primary sources such as letters from Marc Aurel Stein at the British Museum and Theophilus G Pinches held in the Special Collections at the University of Glasgow Library Special attention is paid to the contemporary reception of his theories with the objective of re-evaluating his contribution they are contrasted to past and present academic views in addition to an overview of relevant discoveries in Archaeology

From the Words of Angels and Ancient Book of Jikra - On the Drama of Initiation in the Atlantean Age and Our Hidden Genesis Christine Preston, 2011-07-15 This work unravels the great mysteries of the Bible and ancient civilization In introducing her disclosures Christine Preston reveals the meaning of Trees in Scripture as being in connection with Initiation in the Old World The latter being the Atlantis of Plato she reveals original sin as a misuse of power by Atlanteans influenced by Wise Serpents who opposed spiritual evolution She discusses divine human intermarriages and provides a solution for the fact that the Watchers parallel to the Sons of God of Genesis are depicted as evil by disclosing a secondary scenario in Enoch that is illustrated by the Ancient Book of Jikra **American Journal of Archaeology and of the History of the Fine Arts**, 1932

found in the same area as the million year old mammoth remains at a depth of 19 20 meters According to that analogy the ships would come from a period of 70 000 years ago which is impossible That s why we sent their exceptionally well preserved oak wood for age analysis using the C 14 method as well as others because we found ourselves in front of a big and completely mysterious discovery Archeologist prof dr Miomir Korac **More Books** Boston Public Library,1931
