Time periods: Antiquity through 18th century* John Neu, 1997 **The Most Disreputable Trade** Thomas F. Bonnell, 2008-04-17 A publishing phenomenon began in Glasgow in 1765 Uniform pocket editions of the English Poets printed by Robert and Andrew Foulis formed the first link in a chain of literary products that has grown ever since as we see from series like Penguin Classics and Oxford World Classics Bonnell explores the origins of this phenomenon analysing more than a dozen multi volume poetry collections that sprang from the British press over the next half century Why such collections flourished so quickly who published them what forms they assumed how they were marketed and advertised how they initiated their readers into the rites of mass market consumerism and what role they played in the construction of a national literature are all questions central to the study The collections played out against an epic battle over copyright law and involved fierce contention for market share in the classics among rival publishers It brought despair to the most powerful of London printers William Strahan who prophesied that competition of this nature would ruin bookselling turning it into the most pitiful beggarly precarious unprofitable and disreputable Trade in Britain Samuel Johnson s Lives of the Poets were part of such a collection dubbed Johnson s Poets The third edition of this collection published in 1810 brought the national project to its high water mark it contained 129 poets plus extensive translations from the Greek and Roman classics By this point all the features that characterize modern series of vernacular classics had been established and never since has such an ambitious expression of the poetic canon been repeated as Bonnell shows by peering forward into the nineteenth century and beyond Based on work with archival materials newspapers handbills prospectuses and above all the books themselves Bonnell s findings shed light on all aspects of the book trade Valuable bibliographical data is presented regarding every collection forming an indispensable resource for future work on the history of the English poetry canon Current Research in Britain

Roman Military Architecture on the Frontiers Rob Collins,Matt Symonds,Meike Weber,2015-11-30 The Roman army was one of the most astounding organizations in the ancient world and much of the success of the Roman empire can be attributed to its soldiers Archaeological remains and ancient texts provide detailed testimonies that have allowed scholars to understand and reconstruct the army s organization and activities This interest has traditionally worked in tandem with the study of Roman frontiers Historically the early imperial period and in particular the emergence of the frontiers has been the focus of research During those investigations however the remains of the later Roman army were also frequently encountered if not always understood Recent decades have brought a burgeoning interest in not only the later Roman army but also late antiquity more widely It is the aim of this volume to demonstrate that while scholars grappling with the late Roman army may want for a rich corpus of inscriptions and easily identifiable military installations research is revealing a dynamic less predictable force that was adapting to a changing world in terms of both external threats and its own internal structures The dynamism and ingenuity of the late Roman army provides a breath of fresh air after the suffocating uniformity of its forbears The late Roman army was a vital and influential element in the late antique empire Having evolved through the 3rd century and been formally reorganized under Diocletian and Constantine the limitanei guarded the frontiers while the comitatenses provided mobile armies that were fielded against external enemies and internal threats The transformation of the early imperial army to the late antique army is documented in the rich array of texts from the period supplemented by a perhaps surprisingly rich archaeological record **Fiddle Music of Prince Edward Island** Ken Perlman,2011-08-18 Over 425 reels jigs set tunes waltzes marches strathspeys and airs transcribed from the playing of traditional fiddlers make this a must have title **International Who's who in Music and Musicians' Directory** David M.
