Future natural Nature Science Culture:

Future natural Jon Bird, Barry Curtis, Melinda Mash, Tim Putnam, George Robertson, Lisa Tickner, 1996-03-21 Brings together leading theorists of culture and science to discuss the concept of nature Recent developments in biotechnologies electronic media and ecological politics are discussed *Environment and Social Theory* John Barry, 1999 Covering the ideas of key theorists this text provides an introduction to the relationship between the environment and social theory both historically and within contemporary social theory **Anti-GenetiX** Derrick A. Purdue, 2017-11-01 This title was first published in 2000 The development of genetically modified foods has given rise to much widespread and heated debate on the possible consequences both positive and negative of this new technology This book not only addresses the broad issues involved outlining the connections between gene patenting and biotechnology and their impact on international relations but also for the first time examines the social movement emerging against GM food Anti GenetiX traces this movement from its emergence and shows how and why it expanded from a small expert concern to the current huge political uproar It explores the contribution this movement makes to shaping global civil society and argues that such global social movements will become increasingly common in the global age **A Companion to the City** Gary Bridge, Sophie Watson, 2008-06-09 A Companion to the City provides the reader with an indispensable and authoritative overview of the key debates controversies and questions concerning the city from a variety of theoretical vantage points with an international perspective Indispensable companion for students of the City Multidisciplinary approach of interest across several fields Includes contributions from major scholars in the field **Environments, Natures and Social Theory** Damian White, Alan Rudy, Brian Gareau, 2017-09-16 From climate change to fossil fuel dependency from the uneven effects of natural disasters to the loss of biodiversity complex socio environmental problems indicate the urgency for cross disciplinary research into the ways in which the social the natural and the technological are ever more entangled This ground breaking text moves between environmental sociology and environmental geography political and social ecology and critical design studies to provide a definitive mapping of the state of environmental social theory in the age of the anthropocene Environments Natures and Social Theory provokes dialogue and confrontation between critical political economists actor network theorists neo Malthusians and environmental justice advocates It maps out the new environmental politics of hybridity moving from hybrid neo liberals to end times ecologists from post environmentalists to cyborg eco socialists White Rudy and Gareau insist on the necessity of a critical but optimistic hybrid politics arguing that a more just egalitarian democratic and sustainable anthropocene is within our grasp This will only be brought into being however by reclaiming celebrating and channeling the reconstructive potential of entangled hybrid humans as inventive hominids creative gardeners critical publics and political agents Written in an accessible style Environments Natures and Social Theory is an essential resource for undergraduate and postgraduate students across the social sciences **New Media** Martin Lister, 2003 Providing a comprehensive introduction

to the culture technologies history and theories of new media this book considers the ways in which they really are new assesses whether a media and technological revolution is under way and formulates ways for media studies to respond to new technologies *Cyberfeminism and Artificial Life* Sarah Kember,2003-08-29 Examining the construction manipulation and re definition of life in contemporary technoscientific culture this book aims to re focus concern on the ethics rather than on the nature of artificial life **Women, Science, and Technology** Mary Wyer,Mary Barbercheck,Donna Cookmeyer,Hatice Ozturk,Marta Wayne,2013-09-11 Women Science and Technology is an ideal reader for courses in feminist science studies This third edition fully updates its predecessor with a new introduction and twenty eight new readings that explore social constructions mediated by technologies expand the scope of feminist technoscience studies and move beyond the nature culture paradigm Landscape and Englishness David Matless,2016-09-15 As David Matless argues in this book updated in this accessible pocket edition landscape has been central to definitions of Englishness for centuries It is the aspect of English life where visions of the past present and future have met in debates over questions of national identity disputes over history and modernity and ideals of citizenship and the body Extensively illustrated Landscape and Englishness explores just how important the aesthetics of Britain s cities and countryside have been to its people Matless examines a wide range of material including topographical guides health manuals paintings poetry architectural polemics photography nature guides and novels Taking readers to the interwar period he explores how England negotiated the modern and traditional the urban and rural the progressive and preservationist in its decisions over how to develop the countryside re plan cities and support various cultures of leisure and citizenship Tracing the role of landscape to Englishness from then up until the present day he shows how familiar notions of heritage in landscape are products of the immediate post war era and he unveils how the present always resonates with the past **Animal Spaces, Beastly Places** Chris Philo,Chris Wilbert,2004-08-02 Animal Spaces Beastly Places examines how animals interact and relate with people in different ways Using a comprehensive range of examples which include feral cats and wild wolves to domestic animals and intensively farmed cattle the contributors explore the complex relations in which humans and non human animals are mixed together Our emotions involving animals range from those of love and compassion to untold cruelty force violence and power As humans we have placed different animals into different categories according to some notion of species usefulness domesticity or wildness As a result of these varying and often contested orderings animals are assigned to particular places and spaces Animal Spaces Beastly Places shows us that there are many exceptions and variations on the spatiality of human animal spatial orderings within and across cultures and over time It develops new ways of thinking about human animal interactions and encourages us to find better ways for humans and animals to live together Environment and Society Paul Robbins,John G. Hintz,Sarah A. Moore,2011-09-26 Environment and Society A Critical Introduction is an overview of the diverse conceptual tools and traditions for thinking about explaining and addressing the environmental challenges we face in

the contemporary world Provides an introduction to the environmental challenges we face in the contemporary world through foundational theoretical ideas illustrated with concrete everyday examples Utilizes compelling conversational language to expound on theory history and scientific topics making the text accessible to a diverse readership Draws upon contemporary theoretical understandings in nature society theory while demonstrating through practice and deployment Includes discussion of key historical events topical issues and policies as well as scientific concepts

Handbook of Gender and Women's Studies Kathy Davis, Mary Evans, Judith Lorber, 2006-04-27 This breathtakingly broad interdisciplinary reader demonstrates how widely feminist thinking has spread how deeply it has shaken settled assumptions in the disciplines and how much new light it throws on contemporary controversies Myra Marx Ferree University of Wisconsin Madison A timely intervention and highly engaged thoughtful and scholarly analysis of the state of gender and women's studies in the West by three eminent feminist scholars Highly cognisant of the central issues that have fractured blocked and enhanced western feminism Bev Skeggs Goldsmiths The comprehensiveness and the interdisciplinary range of themes are impressive and they make the Handbook into a wonderful tool for teachers and students of women's and gender studies Nina Lykke Linköping University Gender and women's studies is one of the most challenging fields within the social sciences the dynamics of gender relations and the social and cultural implications of gender constructions offer a lively forum of debate The Handbook of Gender and Women's Studies presents a comprehensive and engaging review of the most recent developments within the field including the study of masculinity the feminist implications of postmodernism the cultural turn and globalization The authors review current research and offer critical analyses of women's and gender studies in work the welfare state family education religion violence and war and feminist global politics Edited by three leading academics from Europe and the United States and with 25 chapters written by scholars based throughout the world the Handbook situates the most important debates in the field within a uniquely international and interdisciplinary context The Handbook is a useful introduction to gender theory and an exciting starting point for fresh debates

Anti-Capitalism Lécio Morais, 2002-12-20 This book is a collection of essays from some of the world's leading Marxist economists on the problems of globalisation and the evolution of modern capitalism With contributions from Suzanne de Brunhoff Ellen Meiksins Wood Ben Fine Simon Clarke John Holloway and John Weeks among others it provides a cohesive critique of the weaknesses of the existing system and puts forward a new agenda for anti capitalist thought and action Covering key issues such as globalisation the nation state money and finance conflict and war technological change the environment class struggle economic crisis capitalism in the Third World the collapse of the USSR and the transcendence of capitalism this is an ideal introduction to some of the most pressing problems of our time

Frontiers of Cyberspace, 2012-01-01 The content of this volume reflects theoretical and practical discussions on cultural issues influenced by increased adoption of information and communication technologies The penetration of new forms of communication such as online social networking internet video casting and massive online

multiplayer gaming the experience and exploration of virtual worlds and the massive adoption of ever emergent ICT technologies are all developments in desperate need of serious examination It is not surprising that these new realities and the questions and issues to which they give rise have drawn increasing attention from academics Those engaging these issues do so from a wide range of academic fields Accordingly the authors contributing to this volume represent an impressive array of academic disciplines and varied perspectives including philosophy sociology religion anthropology digital humanities literature studies film science new media studies and still others Thus the subsequent chapters offer the reader a multidimensional examination of this volume s unifying theme the ways and extent to which current and anticipated cybernetic environments have altered and will continue to shape our understandings of what it means to be human

Representations of the Post/human Elaine L. Graham,2002 This work draws together a wide range of literature on contemporary technologies and their ethical implications It focuses on advances in medical reproductive genetic and information technologies *Sustainable Communities and Green Lifestyles* Tendai Chitewere,2017-08-09 Sustainable communities raise questions about the compatibility of capitalism and environmentalism and how we can green our way of life in a capitalist economy that values short term production and consumption over long term conservation and simple living If capitalism and its drive towards consumption has produced social and environmental degradation is it the best medium to identify solutions Sustainable Communities and Green Lifestyles examines one ecovillage as it attempts to create a sense of community while reducing its impact on the natural environment Through extensive participant observation the book demonstrates how ecovillages are immersed within a larger discourse of class race and lifestyle choices highlighting the inseparability of environmental sustainability and social justice Sustainable communities are confronted by the contradictions of green consumption and must address social inequality or risk focusing inward on personal green consumerism creating mere green havens for the few who can afford to live in them This book cautious of redirecting environmentalist efforts away from structural solutions and onto personal environmentalism offers a critical perspective on the challenges of an emerging green lifestyle This book offers a critical perspective on the direction of US environmentalism and contributes to debates in environmental studies anthropology and urban planning **Science, Technology, and Society** Sal Restivo,2005-05-19

Emphasizing an interdisciplinary and international coverage of the functions and effects of science and technology in society and culture Science Technology and Society contains over 130 A to Z signed articles written by major scholars and experts from academic and scientific institutions and institutes worldwide Each article is accompanied by a selected bibliography Other features include extensive cross referencing throughout a directory of contributors and an extensive topical index

Reading Birth and Death Jo Murphy-Lawless,1998 This book makes an important contribution to the fields of obstetrics midwifery childbirth education sociology of the body cultural studies and women s studies **Desire After Affect**

Marie-Luise Angerer,2014-11-24 Desire is a term often used in conjunction with the subject This desire is directed towards

the real which is defined as the generic core of the linguistic order As a result of the focus on affect the three terms desire the subject the real have been fundamentally shaken up and called into question Affect in various forms is now a matter of concern across a wide range of disciplines including neuroscience psychology the humanities and social sciences All of these fields have a declared interest in affect in emotions and sensations in pathos passions and the senses Desire After Affect argues that this affective euphoria cannot be explained solely in terms of a repression of language logos and reason It argues that the affective turn is symptomatic of a fundamental shift in modes of thinking about the human condition It explores what this means for the human and the posthuman animal and machine and calls for a new theory of subjectivation a philosophy of media affect

Hybrid Geographies Sarah Whatmore, 2002-08-20 *Hybrid Geographies* is one of the most original and important contributions to our field in the last 30 years At once immensley provocative and productive it is written with uncommon clarity and grace and promises to breathe new life not only into geographical inquiry but into critical practice across the spectrum of the humanities and social sciences and beyond An extraordinary achievement Professor Derek Gregory Department of Geography University of British Columbia *Hybrid Geographies* critically examines the opposition between nature and culture the material and the social as represented in scientific environmental and popular discourses Demonstrating that the world is not an exclusively human achievement *Hybrid Geographies* reconsiders the relation between human and non human the social and the material showing how they are intimately and variously linked General arguments informed by work in critical geography feminist theory environmental ethics and science studies are illustrated throughout with detailed case study material This exemplifies the two core themes of the book a consideration of hybridity the human non human relation and of the fault lines in the spatial organization of society and nature *Hybrid Geographies* is essential reading for students in the social sciences with an interest in nature space and social theory
