**Fuzzy Monsters** Chris Horrie, Steve Clarke, 1994-01-01      *Inside the BBC and CNN* Lucy Küng-Shankleman, 2012-11-12

Inside the BBC and CNN provides a unique insight into two of the world's best known media organisations during a period of great change and new challenges. The BBC and CNN have very different histories, remits and identities but both must now compete to provide news in a media environment being reshaped by increasing competition, globalisation, digitisation and convergence. In addition, they face increasing pressures of criticism focussed on the struggle for ratings and the perceived dumbing down of programming. Drawing on intensive research carried out among senior managers in both organisations, Lucy Küng-Shankleman's study explores the beliefs and attitudes that shape management priorities and broadcasting policy. More controversially, it examines how each organisation's distinct cultural beliefs about broadcasting's fundamental purpose, about the nature of competition and about the relationship between competition and quality have laid the foundations for their current and past success but could now threaten to limit their ability to respond to the unprecedented changes underway in the world's media landscape.

**Fuzzy Monsters** Chris Horrie, 1994      **The BBC** David Hendy, 2022-03-29

The first in-depth history of the iconic radio and TV network that has shaped our past and present: Doctor Who, tennis from Wimbledon, the Beatles and the Stones, the coronation of Queen Elizabeth and the funeral of Diana, Princess of Wales. For one hundred years, the British Broadcasting Corporation has been the preeminent broadcaster in the UK and around the world, a constant source of information, comfort and entertainment through both war and peace, feast and famine. The BBC has broadcast to over two hundred countries and in more than forty languages. Its history is a broad cultural panorama of the twentieth century itself, often although not always delivered in a mellifluous Oxford accent. With special access to the BBC's archives, historian David Hendy presents a dazzling portrait of a unique institution whose cultural influence is greater than any other media organization. Mixing politics, espionage, the arts, social change and everyday life, *The BBC* is a vivid social history of the organization that has provided both background commentary and screen-grabbing headlines woven so deeply into the culture and politics of the past century that almost none of us has been left untouched by it.

**Life On Air**, 2008-09-25

Radio Four has been described as the greatest broadcasting channel in the world, the heartbeat of the BBC, a cultural icon of Britishness and the voice of Middle England. Defined by its rich mix encompassing everything from journalism and drama to comedy, quizzes and short stories, its programmes such as *Today*, *The Archers*, *Woman's Hour*, *The Hitchhiker's Guide to the Galaxy*, *Gardeners' Question Time* and *The Shipping Forecast* have been part of British life for decades. Others, less successful, have caused offence and prompted derision. Born as it was in the Swinging Sixties, Radio Four's central challenge has been to change with the times while trying not to lose faith with those who see it as a standard bearer for quality, authoritativeness or simply old-fashioned BBC values. In this first major behind-the-scenes account of the station's history, David Hendy, a former producer for Radio Four, draws on privileged access to the BBC's own archives and new

interviews with key personnel to illuminate the arguments and controversies behind the creation of some of its most popular programmes He reveals the station's struggle to justify itself in a television age favouring clear branding and tightly targeted audiences with bitter disputes between the BBC and its fiercely loyal listeners The story of these struggles is about more than the survival of one radio network Radio Four has been a lightning rod for all sorts of wider social anxieties over the past forty years A kaleidoscopic view of the changing nature of the BBC the book provides a gripping insight into the very nature of British life and culture in the last decades of the twentieth century

### **The Classic Serial on Television and Radio**

Robert Giddings, Keith Selby, 2001-02-14 The classic serial invented by BBC Radio Drama sixty years ago survived and adapted itself to television the arrival of colour and the global market in what has become a flood of classics with all channels competing for ratings and overseas sales This richly detailed book traces these developments and analyses the genre's response to social economic technical and cultural changes which have re-shaped it into the form we recognise today The book contains considerable interview material with performers and media professionals
