Pierce, 1987-03-04 This important contribution to the study of science fiction explores the origins of the basic literary traditions of the genre Thematic rather than chronological organization sets this work apart from previous analyses The entire range of literary invention within science fiction is explored from its earliest beginnings through the past hundred years of serious development Emphasis is on enabling the reader to perceive the evolution of science fiction as an organic whole rather than a mere accumulation of works linked solely by popular publishing trends [The Publishers Weekly](#), 1976-04 **Edgar Rice Burroughs** Jimmie C. Goodwin, 2020-02-28 The definitive guide to two of the most prolific paperback publishers of the stories of Edgar Rice Burroughs The book includes all known printings and variations of both the United States and Canadian editions Images throughout show ad pages and other pertinent information The book gives detailed information on variations of the books about such things as publishers address ad pages edge variations size variations and others *The Whole Story* John E. Simkin, 1996 This work is the only comprehensive guide to sequels in English with over 84 000 works by 12 500 authors in 17 000 sequences *Moral Status* Mary Anne Warren, 1997-11-13 Mary Anne Warren explores a theoretical question which lies at the heart of practical ethics what are the criteria for having moral status In other words what are the criteria for being an entity towards which people have moral obligations Some philosophers maintain that there is one intrinsic property for instance life sentience humanity or moral agency Others believe that relational properties such as belonging to a human community are more important In Part I of the book Warren argues that no single property can serve as the sole criterion for moral status instead life sentience moral agency and social and biotic relationships are all relevant each in a different way She presents seven basic principles each focusing on a property that can in combination with others legitimately affect an agent's moral obligations towards entities of a given type In Part II these principles are applied in an examination of three controversial ethical issues voluntary euthanasia abortion *Little Fuzzy Illustrated* Henry Beam Piper, 2020-06-02 *Little Fuzzy* is a 1962 science fiction novel by H Beam Piper now in public

Wrestling with Paul Sarah Emanuel,2025-11-04 In this book Sarah Emanuel a Jewish scholar of the New Testament argues that Paul was not a universalist Instead Emanuel shows that stemming from his Hellenistic Jewish worldview Paul understood Jews as needing to maintain the law in Christ and gentiles as needing to abstain from the law in Christ Both groups in other words needed to maintain particular ethnic difference in their Christ following orientations lest they be left behind from Paul s imagined end of days Emanuel also argues that the way in which Paul understood these groups was through ethno nationalistic and hierarchical means By ethno nationalistic she means that Paul viewed the end of days as a new Israel centric nation requiring particular polyethnic cultural affiliation Jews for Christ and gentiles for Christ By hierarchical she means that Paul valued Jews for Christ over gentiles for Christ and also males over females and free persons over enslaved persons after all Paul s end of days was itself Israel centered i e Jewish centered with the God of Israel i e the Jewish God at the helm Finally none of these beliefs made Paul exceptional in his Judaism It made him average in his Judaism Wrestling with Paul shows that scholars in a post Holocaust world have often sanitized this ethnocentric exclusivism so as to make Paul ahistorically good for modern Jews and Judaism It also shows that readers of Paul have for millenia made sense of him in light of contemporaneous attitudes toward Jews
