## G I Generation A Memoir:

**The GI Generation** Frank F. Mathias, 2021-12-14 Frank Mathias was born in Maysville Kentucky pop 7000 in 1925 and grew up in nearby Carlisle pop 1500 where life in his small town was much like that in towns and villages all across America. He came of age in an era of total security his parents never even had a key to their front door. Daily living was infused with gossip no one had a secret and everyone knew everyone else's business. Outdoor life was a vital part of growing up and teachers and mentors instilled a sense of right and wrong in young people. Raised during the Great Depression Mathias became a member of a fighting force the likes of which the world had never known a legion now called The Greatest Generation. The GI Generation tells Mathias's story of growing up with the sweet whistle of the L N train and the summer kitchen smells of hot salt rising bread and blackberry cobbler which could instantly halt even the most rousing game of cowboys and Indians. Much of community life focused on the local high school which in Mathias's case was a tiny one with no chemistry courses no drivers training and no guidance counselors. Yet the one hundred students who graduated between 1942 and 1944 became university professors top executives military commanders successful investors lawyers and physicians. A vivid portrait of a bucolic pre war boyhood. The GI Generation takes readers back to an era when boys rustled watermelons under the hot summer sun and young lovers danced to the sounds of farmhouse bands. Whether describing the unfortunate but delicious end of his brother's pet chicken Don or the ominous clouds of war Mathias writes with humor honesty and compassion. *One from the Least and Disappearing Generation- a Memoir of a Depression Era Kid* Clarence G. Oliver, 2006-04-12 The Great Depression of the 1930s was a challenging time for most families especially those in the Dust Bowl states such as Oklahoma. This is a true story of a young boy born just three months before the Crash of 1929 told with reflections on his growing up in Ada Oklahoma during the 1930s and 1940s as his and other neighborhood families struggled for survival and then recovered as the nation began to experience the Happy Days are Here Again promised by a new president Franklin Delano Roosevelt. The book covers the childhood and youth years ending with high school graduation when writer recognizes that he has miles to go before I sleep. Young Oliver hawked newspapers in Ada's downtown business area as a seven year old moved on to paper routes and other jobs and learned important life skills through family church work Scouting neighborhood activities and especially as he became the eyes for a loving blind grandfather who despite that handicap ran a small neighborhood store and taught the young man how to see with the mind's eye. People and events remembered from childhood days are sometimes part fact and part perception. The people existed and the events occurred. The blending of reality with the thoughts and impressions left in the mind of a young child become the memories of an adult and are shared so that today's generation and future generations will know what life was like in that era. These are reflections on the joys and trials neighborhood incidents play the murder of a neighbor falling in love memories of one person from the generation which was the smallest in number of all recent generations and one which is rapidly disappearing.

*A Nation Forged in War* Thomas A. Bruscino, 2013-05-12 World War II shaped the United States in profound ways and this new book the first in the Legacies of War series explores one of the most significant changes it fostered a dramatic increase in ethnic and religious tolerance *A Nation Forged in War* is the first full length study of how large scale mobilization during the Second World War helped to dissolve longstanding differences among White soldiers of widely divergent backgrounds Never before or since have so many Americans served in the armed forces at one time more than 15 million donned uniforms in the period from 1941 to 1945 Thomas Bruscino explores how these soldiers

shared experiences enduring basic training living far from home engaging in combat transformed their views of other ethnic groups and religious traditions He further examines how specific military policies and practices worked to counteract old prejudices and he makes a persuasive case that throwing together men of different regions ethnicities religions and classes not only fostered a greater sense of tolerance but also forged a new American identity When soldiers returned home after the war with these new attitudes they helped reorder what it meant to be white in America Using the presidential campaigns of Al Smith in 1928 and John F Kennedy in 1960 as bookend events Bruscino notes a key change in religious bias Smith s defeat came at the end of a campaign rife with anti Catholic sentiment Kennedy s victory some three decades later proved that such religious bigotry was no longer an insurmountable obstacle Despite such advances Bruscino notes that the growing broad mindedness produced by the war had limits it did not extend to African Americans whose own struggle for equality would dramatically mark the postwar decades Extensively documented *A Nation Forged in War* is one of the few books on the social and cultural impact of the World War II years Scholars and students of military ethnic social and religious history will be fascinated by this groundbreaking new volume

**Memoirs Of A Cold War Son** Gaines Post, 2002-04-25 In 1951 Gaines Post was a gangly bespectacled introspective teenager preparing to spend a year in Paris with his professorial father and older brother his mother who suffered from extreme depression had been absent from the family for some time Ten years later now less gangly but no less introspective he was finishing a two year stint in the army in West Germany and heading toward Oxford on a Rhodes scholarship having narrowly escaped combat in the Berlin crisis of 1961 His quietly intense coming of age story is both self revealing and reflective of an entire generation of young men who came to adulthood before the Cuban Missile Crisis and the Vietnam War Post's experiences in high school in Madison Wisconsin and Paris his Camus influenced undergraduate years at Cornell University and his army service in Germany are set very effectively against the events of the Cold War McCarthyism and American crackdowns on dissidents American foreign and military policy in Western Europe in the nuclear age French and German life and culture crises in Paris and Berlin that nearly bring the West to war and the Post family to dissolution these are the larger scenes and subjects of his self disclosure as a contemplative conflicted Cold War agnostic His intelligent talented mother and her fragile health hover over Post's narrative informing his hesitant relationships with women and his acutely questioning sense of self worth His story is strongly academic and historical as well as political and military his perceptions and judgments lean toward no ideological extreme but remain true to the heroic ideals of his boyhood during the Second World War

**The Filson Club History Quarterly**, 2001 *A Memoir of the New Left* Charles Atkinson Haynie, 2009 In Charles Haynie's autobiography we get a rare look into the development of a great social movement through the quietly dramatic experiences of a rank and file member of that movement This is valuable social history but more important Charles Haynie's life is an inspiration for a new generation Howard Zinn Charles Haynie's life as an activist and

organizer began while he was a graduate student at Cornell University Young fiercely intelligent and spirited Haynie had a political awakening during the early antinuclear movement in the late 1950s It was the beginning of a long career of tireless fighting for social justice a career that Haynie himself compellingly describes in *A Memoir of the New Left* From 1963 to 1965 Haynie was field director for a voter registration project in Tennessee In 1967 he worked with Massachusetts Political Action for Peace as an organizer of antiwar delegations in all twelve congressional districts of the state Haynie also ran for a Buffalo Common Council seat in 1979 and helped organize the Buffalo Unity Day rally to ease racial tensions During his most intense period of political activism Haynie helped organize participated in and was arrested during the Freedom Rides in which scores of civil rights protesters rode buses throughout the segregated South Later he participated in a variety of intentional communities designed to educate and support oppressed minorities in rural and urban areas He died in 2001 Unlike other histories of the American left which tend to celebrate famous personalities Haynie's memoir focuses on how ordinary citizens become politicized In the process this account raises questions about the nature of democracy and how political change occurs Written in an engaging reflective often humorous style Haynie examines how his political awakening both disrupted and enriched his personal life Aeron Haynie the daughter of Charles Haynie is associate professor of English at the University of Wisconsin Green Bay She is the coeditor with Pamela Gilbert and Marlene Tromp of *Mary Elizabeth Braddon in Context* and the coeditor with Regan Gurung and Nancy Chick of *Exploring Signature Pedagogies* Timothy S Miller lives in Dallas Texas with his wife and daughter He's been a ranch hand waiter contract driver professional clown and spent ten years in global wealth management Douglas Dowd was a longtime professor at Cornell University before his retirement An economic historian and political activist his most recent books include *Capitalism and Its Economics* *A Critical History* and *Understanding Capitalism* *Critical Analysis from Karl Marx to Amartya Sen*
