Gabriel Faure Robert Orledge,1979 The Pavane the Sicilienne and a few other lollipops are all that most people know of Faur s music apart from the ever popular Requiem But Gabriel Faur was more than just a salon composer the master of charms Debussy called him and his powerful wartime and final period compositions in particular are often misunderstood Although he lived through one of the most difficult and yet exciting periods for a musician a period of rapid and often unexpected developments in the arts as a whole yet he remained true to himself The inspired professional musician of the nineteenth century developed into a classic in the twentieth The results of a great deal of research carried out by the author and others are included in this the first major book on Faur s life and music to appear in English for over thirty years Dr Orledge comprehensively covers the whole of Faur s extensive output and deals in detail for the first time with the composer s manuscripts and notebooks Copiously illustrated with plates and music examples this book will be essential reading for all concerned with the music of an unduly neglected French genius Back cover *Gabriel Faure (1845-1924)*

Gabriel Faur s m lodies offer an inexhaustible variety of style and expression that have made them the foundation of the French art song repertoire During the second half of his long career Faur composed all but a handful of his songs within six carefully integrated cycles Faur moved systematically through his poetic contemporaries exhausting Baudelaire s Les fleurs du mal before immersing himself in the Parnassian poets He would set nine poems by Armand Silvestre in swift succession 1878 84 seventeen by Paul Verlaine 1887 94 and eighteen by Charles Van Lerberghe 1906 14 As an artist deeply engaged with some of the most important cultural issues of the period Faur reimagined his musical idiom with each new poet and school and his song cycles show the same sensitivity to the poetic material Far more than Debussy Ravel or Poulenc he crafted his song cycles as integrated works reordering poems freely and using narratives key schemes and even leitmotifs to unify the individual songs The Faur Song Cycles explores the peculiar vision behind each synthesis of music and verse

revealing the astonishing imagination and insight of Fauré's musical readings. This book offers not only close readings of Fauré's musical works but an interdisciplinary study of how he responded to the changing schools and aesthetic currents of French poetry.

Gabriel Fauré. [With portraits.], 1945 *Gabriel Fauré (1845-1924)* Charles Kœchlin, 1946 *The Music of Gabriel Faure* James Sobaskie, 2009-01

Gabriel Faure 1845-1924 was a master of widely acknowledged influence on the subsequent generation of composers that included Maurice Ravel and Les six. James Sobaskie has discovered that the secret to the seductiveness of Faure's music is the principle of allusion whose presence may be felt from the first work to the last and whose power is expressed as a range of stylistic features and structural aspects. Sobaskie employs Schenkerian motivic and contextual analysis complemented by clear graphic examples to reveal the elements and techniques behind the music's engaging effects.
