Gabriels Palace:

Gabriel's Palace, 1993 Over 150 tales from the Talmud the Zohar Jewish folktales and Hasidic lore A Prison in the Woods Clarence Jefferson Hall, 2020-11-27 Since the mid nineteenth century Americans have known the Adirondack Mountains of upstate New York as a site of industrial production a place to heal from disease and a sprawling outdoor playground that must be preserved in its wild state Less well known however has been the area's role in hosting a network of state and federal prisons A Prison in the Woods traces the planning construction and operation of penitentiaries in five Adirondack Park communities from the 1840s through the early 2000s to demonstrate that the histories of mass incarceration and environmental consciousness are interconnected Clarence Jefferson Hall Jr reveals that the introduction of correctional facilities especially in the last three decades of the twentieth century unearthed long standing conflicts over the proper uses of Adirondack nature particularly since these sites have contributed to deforestation pollution and habitat decline even as they've provided jobs and spurred economic growth Additionally prison plans have challenged individuals commitment to environmental protection tested the strength of environmental regulations endangered environmental and public health and exposed tensions around race class place and belonging in the isolated prison towns of America's largest state park **Ange-Jacques Gabriel 1698 - 1782 by H. N. Henderson, 2009-09-15 This book explores the life and times of Ecuador's most controversial politician within the broader context of the new political history addressing five major themes of nineteenth century Latin American history the creation of political networks the divisiveness of regionalism the bitterness of the liberal conservative ideological divide the complicating problem of caudillismo and the quest for progress and modernization Two myths traditionally associated with García Moreno's rule are debunked The first is that he created a theocracy in Ecuador Instead the book argues that he negotiated a concordat with the Papacy giving the national government control over the church's secular responsibilities and subordinated the clergy many of whom were highly critical of García Moreno to the conservative state A second frequently repeated generalization is that he created a conservative dictatorship out of touch with the liberal age in which he lived Instead the book argues that moderates held sway during the first nine years of García Moreno's period of influence and only during his final term did he achieve the type of conservative state he thought necessary to advance his progressive nation building agenda In sum this book enriches our understanding of many of the notions of state formation by suggesting that conservatives like García Moreno envisioned a program of material progress and promoting national unity under a very different formula from that of nineteenth century liberals **Dante Gabriel**
