

A portrait painting of a woman, Mrs. Graham, by John Gainsborough. She is depicted from the chest up, wearing an elaborate, light-colored dress with a wide, ruffled collar and a dark, patterned shawl draped over her shoulders. Her hair is styled in a large, dark, powdered wig. She is looking slightly to the right of the viewer. The background is dark and indistinct, with a hint of a classical column on the right side. The text "Gainsborough's Beautiful Mrs Graham" is overlaid on the right side of the painting in a white, serif font.

Gainsborough's Beautiful Mrs Graham Hugh Belsey, National Gallery of Scotland, 2003 Explores the world famous portrait in great detail Consumptive Chic Carolyn A. Day, 2017-10-05 During the late 18th and early 19th centuries there was a tubercular moment in which perceptions of the consumptive disease became inextricably tied to contemporary concepts of beauty playing out in the clothing fashions of the day With the ravages of the illness widely regarded as conferring beauty on the sufferer it became commonplace to regard tuberculosis as a positive affliction one to be emulated in both beauty practices and dress While medical writers of the time believed that the fashionable way of life of many women actually rendered them susceptible to the disease Carolyn A Day investigates the deliberate and widespread flouting of admonitions against these fashion practices in the pursuit of beauty Through an exploration of contemporary social trends and medical advice revealed in medical writing literature and personal papers *Consumptive Chic* uncovers the intimate relationship between fashionable women s clothing and medical understandings of the illness Illustrated with over 40 full color fashion plates caricatures medical images and photographs of original garments this is a compelling story of the intimate relationship between the body beauty and disease and the rise of tubercular chic *The Routledge History of Loneliness* Katie Barclay, Elaine Chalus, Deborah Simonton, 2023-02-28 The Routledge History of Loneliness takes a multidisciplinary approach to the history of a modern emotion exploring its form and development across cultures from the seventeenth century to the present Bringing together thirty scholars from various disciplines including history anthropology philosophy literature and art history the volume considers how loneliness was represented in art and literature conceptualised by philosophers and writers and described by people in their personal narratives It considers loneliness as a feeling so often defined in contrast to sociability and affective connections particularly attending to loneliness in relation to the family household and community Acknowledging that loneliness is a relatively novel term in English the book explores its precedents in ideas about solitude melancholy and nostalgia as well as how it might be considered in cross cultural perspectives With wide appeal to students and researchers in a variety of subjects including the history of emotions social sciences and literature this volume brings a critical historical perspective to an emotion with contemporary significance Chapter of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons CC BY 4.0 license *Thomas Gainsborough* Lord Ronald Sutherland Gower, Thomas Gainsborough, 1903
