Prelude to Berlin Richard W. Harrison, 2016 *Prelude to Berlin* The Red Army's Offensive Operations in Poland and Eastern Germany 1945 offers a panoramic view of the Soviet strategic offensives north of the Carpathians in the winter of 1945 During the course of this offensive the Red Army broke through the German defenses in Poland and East Prussia and eventually occupied all of Germany east of the Oder River The book consists primarily of articles that appeared in various military journals during the first decade after the war The General Staff's directorate charged with studying the war experience published these studies although there are other sources as well A particular highlight of these is a personal memoir that offers a rare insight into Soviet strategic planning for the winter spring 1945 campaign Also featured are documents relating to the operational strategic conduct of the various operations which were compiled and published after the fall of the Soviet Union The book is divided into several parts corresponding to the operations conducted These include the Vistula Oder operation by the First Belorussian and First Ukrainian Fronts out of their respective Vistula bridgeheads This gigantic operation involving over a million men and several thousand tanks artillery and other weapons sliced through the German defenses and in a single leap advanced the front to the Oder River less than 100 kilometres from Berlin from which they launched their final assault on the Reich in April Equally impressive was the Second and Third Belorussian Fronts offensive into Germany's East Prussian citadel This operation helped to clear the flank further to the south and exacted a long awaited revenge for the Russian Army's defeat here in 1914 This effort cut off the German forces in East Prussia and concluded with an effort to clear the flanks in Pomerania and the storming of the East Prussian capital of Königsberg in April The study also examines in considerable detail the First Ukrainian Front's Upper and Lower Silesian operations of February March 1945 These operations cleared the army's flanks in the south and deprived Germany of one of its last major industrial and agricultural areas

Stratton, the Honorable Elwood H. (Bud) Hillis, and the Honorable Ronald V. Dellums, on Their November 5-6, 1983, Visit to Grenada with Speaker's Fact-finding Mission** United States. Congress. House. Committee on Armed Services, 1984 *RADICALIZED SCHOOLS: Dr. Armand A. Fusco, 2025-01-10* How to Combat the Racial Radicalization of Education Vol I This two volume guidebook is essentially an encyclopedia illustrating the problems revolving around the racial agenda that's indoctrinating K 12 students who are being radicalized by promoting Critical Race Theory CRT with all of its various clones using different terms and phrases The issue with parents who are revolting against is how it is being done indoctrination and not choice and not age appropriate in the lower grades The reason for two volumes is because most books relating to this issue go into the topic without giving the necessary background stagecraft to really know what's involved Too often authors assume the reader is familiar with the background information and that is a dangerous assumption to make Vol I provides the definitions of so many words and phrases because Critical Race Theory is a concept driven by twisted and confusing language much of it with new words such as intersectionality making it sound mysterious and even important Yet it is a simple problem to resolve with choice and options but the racial advocates primarily white suburban educators do not want it resolved believing that every single student K 12 must be radicalized and racialized by the racial agenda without providing any evidence of the need for its infusion in K 12 schooling The districts promoting it are even denying that CRT is being promoted Therefore it's the words being used that are the clue whether or not CRT it is being taught For example the Superintendent of Schools of the trophy school did an

unpresented action by purchasing a copy of How to be an AntiRacist for every teacher to use no further evidence is needed Anyone can be radicalized it occurs when someone starts to believe or support extreme views and then in some cases they become willing or unwilling radicalized activists Even the Connecticut solution a deep blue state arrived at a very amicable solution It recognized that it should not be done through indoctrination but with choice and only at the high school level In addition it s a political issue with Progressive Demo crats and the Biden White House advocating for its use in schools and Republicans opposed to it For example the term slavery is interpreted to mean black slavery only when in fact white slavery started sooner it was harsher because they were used in the dangerous mining and timber work and it was cheaper to buy a white slave rather than a black slave Vol II Volume I set the center stage for the radicalization drama to take place for Vol II to provide the nitty gritty of the racial agenda that creates conflict chaos anger and makes schools unsafe for staff and students This is reason enough why it does not belong in schools What s critical to understand is that this extreme indoctrination has absolutely nothing to do with improving academic skills and knowledge and furthermore it violates U S Supreme Court decision 1968 Epperson vs Arkansas that prohibits the teaching of only one dogma What s even more interesting is that the districts promoting the racial dogma deny that they are doing so In psychology denialism is a person s choice to deny reality as a way to avoid a psychologically uncomfortable truth moreso for others when it involves the racial agenda The options available to combat the radicalization are then provided To make matters far worse is that the time and attention being given to this agenda has the so called safe school plans collecting dust causing the publication of Does Your Child Attend a Safe School No A Manual for Parents and Policymakers that provides 53 reasons why schools doing the racial agenda are not safe Additionally reading and math scores have been in a steady decline with 30 35 million students scoring below proficiency can it be any worse *Hearing on H.R. 3073 ... Before the Research and Development Subcommittee and Investigations Subcommittee of the Committee on Armed Services, House of Representatives, Ninety-eighth Congress, First Session, November 10, 1983* United States.
