The National Bureau of Economic Research organized a project to explore the economic issues facing the major art museums
of the United States For this purpose NBER defined economics broadly to include not only the financial situation of the
museums but also the management and growth of museum collections the museums relationship with the public and the role
of the government in supporting art museums This volume brings together nontechnical essays on these issues by economists
associated with the NBER and personal statements by leaders of America s major national art museums and related
foundations It can be read not only by economists but also by museum officials and trustees Museum directors generally
come to their responsibilities with a background in art history and curatorial work but without experience in thinking about
the management and public policy aspects of museum administration Trustees who serve on museum boards generally have a
background in business or law but have not previously tried to apply their experience to the unusual economic problems of
museums The background papers the panelists remarks and the summary of the discussion will help them to approach their
responsibilities with a better understanding of the problems and possibilities of the museum Libraries, Museums and Art
Galleries Year Book Thomas Greenwood,1910 **The Rise of the Must-See Exhibition** Anna Lawrenson,Chiara
O'Reilly,2018-12-07 Blockbuster exhibitions are ubiquitous fixtures in the cultural calendars of major museums and galleries

positions these exhibits in the Australian cultural context demonstrating how policy developments and historical precedents

have created a space for their current domination Drawing on historical evidence policy documents and contemporary debates the book offers a complex analysis of the aims and motivations of blockbuster exhibitions Its chronological approach reveals a genealogy of exhibits from the mid nineteenth century onward to identify precursors to current practice This provides a foundation upon which to examine the unprecedented growth of blockbusters in the latter half of the twentieth century The examples discussed offer a unique opportunity to study how institutional growth political support individual champions and audience interest have influenced the development of large scale temporary exhibitions The Rise of the Must See Exhibition considers blockbusters as an international phenomenon and as such is highly relevant to practitioners working across the cultural sector around the world The book will also appeal to academics and students engaged in the study of museums and galleries arts management and curating as well as those interested in the history of exhibitions and cultural policy
