Reflections on the Commemoration of the First World War David Monger, Sarah Murray, 2020-11-30 The First World War's centenary generated a mass of commemorative activity worldwide Officially and unofficially individually collectively and commercially locally nationally and internationally efforts were made to respond to the legacies of this vast conflict This book explores some of these responses from areas previously tied to the British Empire including Australia Britain Canada India and New Zealand Showcasing insights from historians of commemoration and heritage professionals it provides revealing insider and outsider perspectives of the centenary How far did commemoration become celebration and how merited were such responses To

what extent did the centenary serve wider social and political functions Was it a time for new knowledge and understanding of the events of a century ago for recovery of lost or marginalised voices or for confirming existing clichés And what can be learned from the experience of this centenary that might inform the approach to future commemorative activities The contributors to this book grapple with these questions coming to different answers and demonstrating the connections and disconnections between those involved in building public knowledge of the war to end all wars

Geographies of Commemoration in a Digital World Danielle Drozdewski, Shanti Sumartojo, Emma Waterton, 2021-08-20 This book reframes commemoration through distinctly geographical lenses locating it within experiential and digital worlds It interrogates the role of power in representations of memory and shows how experiences of commemoration sit within alongside and in contrast to its official normative forms The book charts how memories places and experiences of commemoration play out and have or have not changed in and through a digital world Key to the book's exploration is a new epistemology of memory underpinned by an embodied research approach

Our Corner of the Somme Romain Fathi, 2019-02-28 By the time of the Armistice Villers Bretonneux once a lively and flourishing French town had been largely destroyed and half its population had fled or died From March to August 1918 Villers Bretonneux formed part of an active front line at which Australian troops were heavily involved As a result it holds a significant place in Australian history Villers Bretonneux has since become an open air memorial to Australia's participation in the First World War Successive Australian governments have valorised the Australian engagement contributing to an evolving Anzac narrative that has become entrenched in Australia's national identity Our Corner of the Somme provides an eye opening analysis of the memorialisation of Australia's role on the Western Front and the Anzac mythology that so heavily contributes to Australians understanding of themselves In this rigorous and richly detailed study Romain Fathi challenges accepted historiography by examining the assembly projection and performance of Australia's national identity in northern France

advances and creative analytical frameworks Nowhere is this truer than in the inter disciplinary fields of archaeological practice that combine traditional sources such as historical photographs and maps with 3D digital topographic data from Airborne Laser Scanning ALS and large scale geophysical prospection For twentieth century conflict landscapes and their surviving archaeological remains these developments have encouraged a shift from a site oriented approach towards landscape scaled research This volume brings together an wide range of perspectives setting traditional approaches that draw on historical and contemporary aerial photographs alongside cutting edge prospection techniques cross disciplinary analyses and innovative methods of presenting this material to audiences Essays from a range of disciplines archaeology history geography heritage and museum studies studying conflict landscapes across the globe throughout the twentieth century all draw on aerial and landscape perspectives to past conflicts and their legacy and the complex issues for heritage management Organized in four parts the first three sections take a broadly chronological approach exploring the use of aerial evidence to expand our understanding of the two World Wars and the Cold War The final section explores ways that the aerial perspective can be utilized to represent historical landscapes to a wide audience With case studies ranging from the Western Front to the Cold War Ireland to Russia this volume demonstrates how an aerial perspective can both support and challenge traditional archaeological and historical analysis providing an innovative new means of engaging with the material culture of conflict and commemoration

Remembering the First World War Bart Ziino, 2014-12-05 *Remembering the First World War* brings together a group of international scholars to understand how and why the past quarter of a century has witnessed such an extraordinary increase in global popular and academic interest in the First World War both as an event and in the ways it is remembered The book discusses this phenomenon across three key areas The first

section looks at family history genealogy and the First World War seeking to understand the power of family history in shaping and reshaping remembrance of the War at the smallest levels as well as popular media and the continuing role of the state and its agencies The second part discusses practices of remembering and the more public forms of representation and negotiation through film literature museums monuments and heritage sites focusing on agency in representing and remembering war The third section covers the return of the War and the increasing determination among individuals to acknowledge and participate in public rituals of remembrance with their own contemporary politics What for instance does it mean to wear a poppy on armistice remembrance day How do symbols like this operate today These chapters will investigate these aspects through a series of case studies Placing remembrance of the First World War in its longer historical and broader transnational context and including illustrations and an afterword by Professor David Reynolds this is the ideal book for all those interested in the history of the Great War and its aftermath
