Gallows In The Grove Civil Society In American Law:

The Gallows in the Grove George Liebmann, 1997-10-28 A summary of the the alarming effects of well intentioned constitutional doctrines that have blighted local and voluntary initiative and given rise to sterile and increasingly lawless national politics and a description of many of the hopeful developments in public policy that will be possible if more restrained judicial policies are adopted

The Common Law Tradition George Liebmann, 2017-09-04 This book commemorates a place and a time in American law teaching but more importantly an outlook the common law tradition That outlook was empirical and tolerant These values were carried into expression by a group of people who were not part of a cult or faction nor ruled by the herd instinct Now in paperback The Common Law Tradition is a collective portrait of five scholars who epitomize the tradition The focus is Chicago in the 1960s The five figures considered Edward H Levi Harry Kalven Jr Karl Llewellyn Philip Kurland and Kenneth Culp Davis did much to broaden the perspectives of the legal academy Levi made use of sociology economics and comparative law Kalven collaborated with sociologists on the Jury Project and with economists on tax law and auto compensation plans Llewellyn s commitment to empirical research underpinned his work on the Uniform Commercial Code Kurland s approach to constitutional law was highlighted by his insistence on the relevance of legal history Davis was an energetic comparativist in his work on administrative law What distinguished these Chicagoans is that their work was practical and rooted in the law and hence yielded concrete applications The group s diversity the tolerant atmosphere in which they taught and wrote and the attachment of its individual members to empirical approaches differentiate them from today s legal scholars and make their ideas of continuing importance

America's Political Inventors George W. Liebmann, 2017-12-11 Recent American political developments including the election of Donald Trump reveal profound disquiet with the highly centralized political regime based on discretionary allocation of funds and powers to interest groups that has developed since the creation of emergency institutions after America s entry into World War I This book demonstrates the effectiveness in American history of measures conceived in a different spirit addressing the population at large rather than particular interest groups relying on citizen and local initiative and founded not on the distribution of frequently unearned benefits and powers but on reciprocal contributions and obligations George W Liebmann discusses John Winthrop and his foundation of New England towns John Locke and the creation of Southern plantations Thomas Jefferson and his scheme for the organization of Northwestern townships and American territories and states Joseph Pulitzer and the origins of municipal home rule John Wesley Powell and the creation of reclamation districts Hugh Hammond Bennett and the fostering of soil conservation districts and Byron Hanke and the development of residential community associations The book concludes with a number of public policy proposals relating to housing urban renewal care of the elderly immigration and youth unemployment conceived in the same spirit Liebmann brings to light little known facts concerning the growth of practices and institutions that Americans take for granted His book will be of interest to students of

Popular Culture The President's Czars Mitchel A. Sollenberger, Mark J. Rozell, 2012-04-27 Faced with crises that would challenge any president Barack Obama authorized pay czar Kenneth Feinberg to oversee the 20 billion fund for victims of the BP oil spill and to establish and enforce executive pay guidelines for companies that received 700 billion in federal bailout money Feinberg's office comes with vastly expansive policy powers along with seemingly deep pockets yet his position does not formally fit anywhere within our government's constitutional framework The very word czar seems inappropriate in a constitutional republic but it has come to describe any executive branch official who has significant authority over a policy area works independently of agency or Department heads and is not confirmed by the Senate or subject to congressional oversight Mitchel Sollenberger and Mark Rozell provide the first comprehensive overview of presidential czars tracing the history of the position from its origins through its initial expansion under FDR and its dramatic growth during the presidencies of George W Bush and Barack Obama The President's Czars shows how under pressure to act on the policy front modern presidents have increasingly turned to these appointed officials even though by doing so they violate the Appointments Clause and can also run into conflict with the nondelegation doctrine and the principle that a president cannot unilaterally establish offices without legislative support Further Sollenberger and Rozell contend that czars not only are ill conceived but also disrupt a governing system based on democratic accountability A sobering overview solidly grounded in public law analysis this study serves as a counter argument to those who would embrace an excessively powerful presidency one with relatively limited constraints Among other things it proposes the restoration of accountability starting with significant changes to Title 3 of the U S Code which authorizes the president to appoint White House employees without regard to any other provision of law Ultimately the authors argue that czars have generally not done a good job of making the executive branch bureaucracy more effective and efficient Whatever utility presidents may see in appointing czars Sollenberger and Rozell make a strong case that the overall damage to our constitutional system is great and that this runaway practice has to stop

That Eminent Tribunal Christopher Wolfe, 2009-02-09 The role of the United States Supreme Court has been deeply controversial throughout American history Should the Court undertake the task of guarding a wide variety of controversial and often unenumerated rights Or should it confine itself to enforcing specific constitutional provisions leaving other issues even those of rights to the democratic process That Eminent Tribunal brings together a distinguished group of legal scholars and political scientists who argue that the Court's power has exceeded its appropriate bounds and that sound republican principles require greater limits on that power They reach this conclusion by an interesting variety of paths and despite varied political convictions Some of the essays debate the explicit claims to constitutional authority laid out by the Supreme Court itself in *Planned Parenthood v Casey* and similar cases and others focus on the defenses of judicial authority found commonly in legal scholarship e g the allegedly superior moral reasoning of judges or judges supposed track record of superior political decision making The authors find these arguments wanting and

contend that the principles of republicanism and the contemporary form of judicial review exercised by the Supreme Court are fundamentally incompatible The contributors include Hadley Arkes Gerard V Bradley George Liebmann Michael McConnell Robert F Nagel Jack Wade Nowlin Steven D Smith Jeremy Waldron Keith E Whittington Christopher Wolfe and Michael P Zuckert Neighborhood Futures George Liebmann, 2018-04-17 Two conflicting developments have recently characterized civic life in the United States The first the centralization of formal agencies of government too often leads to diminishing political liberties and tyranny The second which is characterized by a greater amount of civic participation and individual self actualization is the formation of a whole new layer of sublocal institutions both public and private These include residential community and condominium associations property owner based business improvement districts in nearly all major cities neighborhood improvement districts in large cities and even self governing public schools Neighborhood Futures is a realistic exploration of how for a society to move forward and improve its citizens must exercise the power to act creatively and feel they are both competent and responsible individuals Supporting his ideas with the Dutch innovation of the woonerf or neighborhood street government Liebmann follows through by discussing other foreign models of civic life forms and illustrating how they have resulted in resident satisfaction George W Liebmann is a partner of Liebmann Shively P A a Baltimore law firm that specializes in local government and education law In addition to having served as a top aide to one of Maryland s governors he is a former faculty associate of the Lincoln Institute of Land Policy and is the author of Little Platoons and The Gallows in the Grove **Six Lost Leaders** George W. Liebmann, 2001-01-01 In his new book George W Liebmann discusses the work of six largely forgotten figures Octavia Hill William Glyn Jones Mary Richmond George William Brown Mary Parker Follet and Bryan Keith Lucas Three are British three American Some came from affluent backgrounds some grew up poor One was barely educated another spent eleven years at some of the world s more prestigious institutions of higher learning What united them all was a shared conviction that citizenship involved more than voting that society consists of more than the marketplace or political institutions and that professional values are important for shaping a civil discourse With a sympathetic eye toward the fulfillment of these common aspirations Liebmann looks at the national health social work housing management and educational initiatives spearheaded by these powerful figures over the past two centuries This study is a fascinating retort to our cynical age of political disillusionment and an innovative contribution to social and political history *Higher Learning & Catholic Traditions* Robert E. Sullivan, 2001 This is the inaugural volume in the Erasmus Institute Books series Founded in 1997 the institute strives to build bridges between Catholic thought and secular scholarship by encouraging the application of Catholic intellectual traditions to research in the humanities and social sciences including the arts and professional fields such as law The institute also supports parallel work grounded in the intellectual traditions of other Christian faiths of Judaism and of Islam The essays in this volume began as papers delivered at a conference on Higher Learning and Catholic Traditions held at the University of Notre Dame in October 1999 In Higher

Learning and Catholic Traditions a number of distinguished academics from various disciplines and different religious convictions present their views on the complex relations between some important aspects of Catholic thought and modern academic culture and knowledge The contributors discuss the development of specialized disciplines the fragmentation of academic knowledge and the apparent isolation of Christian intellectual traditions from the discourse of the modern university More tellingly some of the contributors also subvert t *The University of Chicago Magazine* ,1996 **Choice** ,1997 **Current Publications in Legal and Related Fields** ,1998 **Solving Problems Without Large Government** George Liebmann,2000-04-30 Solving Problems Without Large Government circumvents sterile discussions of federalism and privatization by discussing the potential role of sub local government assisted entities in providing effective and fair access to services Some readers will be astonished at the numerous examples of vital social functions which have already been handled at this level in a variety of societies throughout history The proper use of small institutions Liebmann argues can actually serve to foster greater economic equity and political power *Martindale-Hubbell Law Directory* Martindale-Hubbell,2002-03 **Building a Healthy Culture** Don E.
