

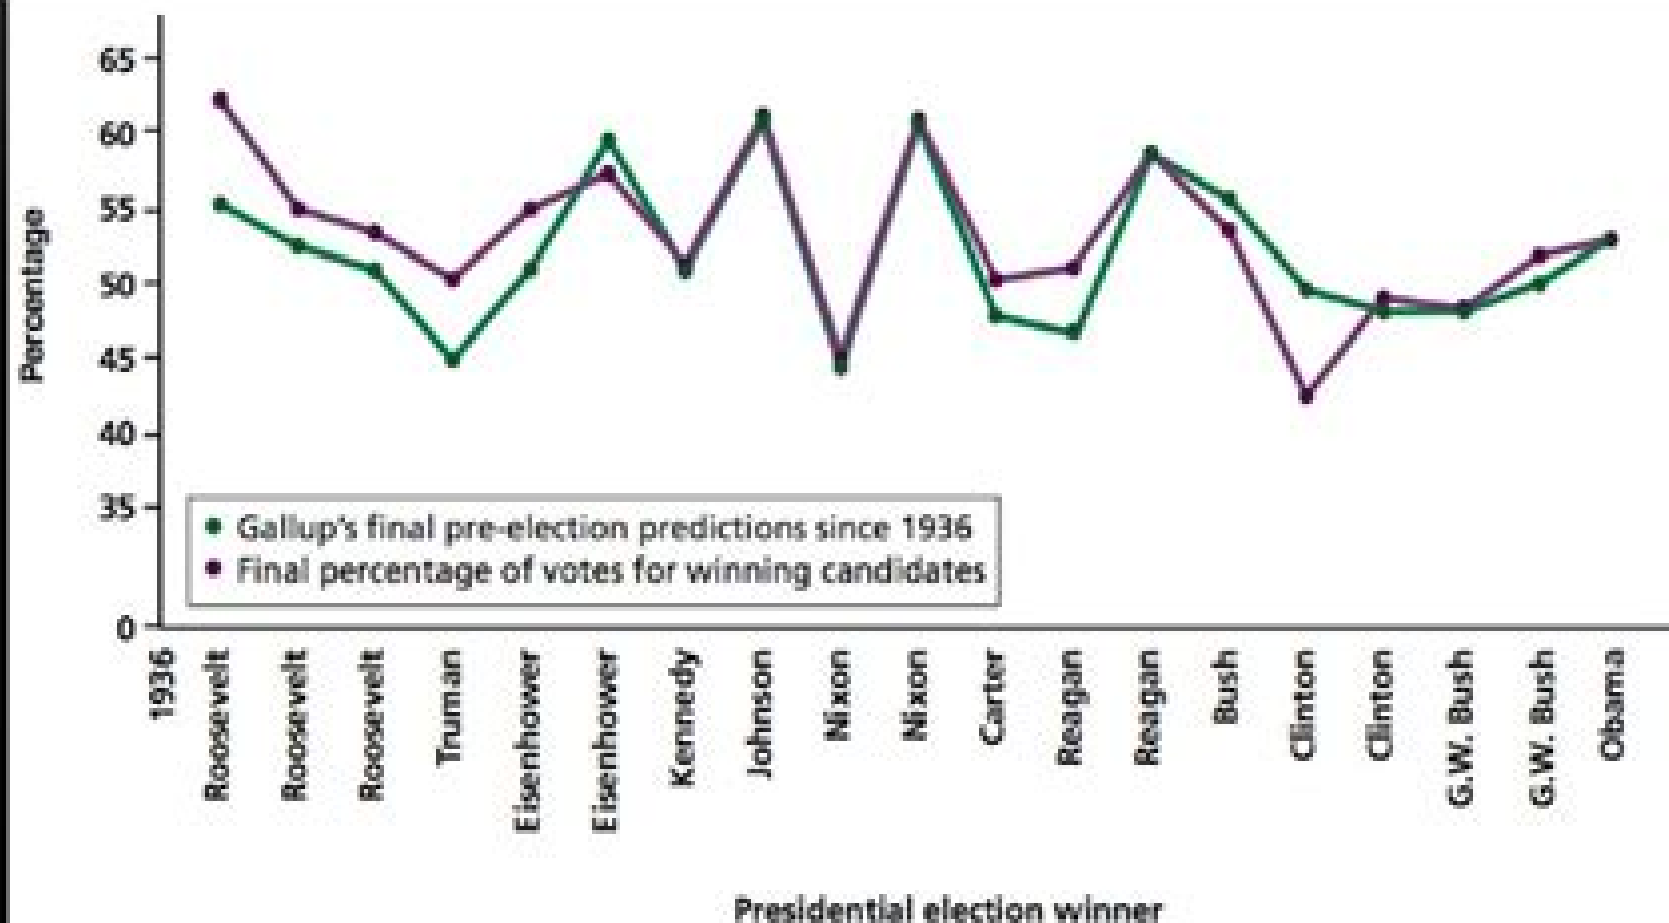

Figure 11.4- The Gallup Poll

Gallup Poll Public Opinion 1988

George Gallup

Gallup Poll Public Opinion 1988:

Statistical Reference Index, 1990 **Recent Social Trends in the United States, 1960-1990** Theodore Caplow, Howard M. Bahr, John Modell, Bruce A. Chadwick, 1994-03-21 On Rachel Carson and her work and on current environmental challenges The four authors present information on various American trends demographic macroeconomic and macro technological Descriptions tables and graphs trace the dynamics of population specifically in relation to the expansion which followed the 1982 83 recession and analyze achievements in intelligence genetic engineering and space travel Annotation copyrighted by Book News Inc Portland OR **Presidents and Prime Ministers** Patricia Lee Sykes, 2000 She reveals how conviction style politicians have appeared in the U S and U K at the same time individuals who articulated similar ideas that adapted liberal ideology to shifting circumstances and who achieved fundamental change at critical moments in their nations histories **Super Tuesday** Barbara Norrander, 2014-10-17 Super Tuesday 1988 was the first successful attempt to get several states in one region to hold their presidential primaries on the same day Its success or lack thereof will affect the way presidents are elected for many years to come Reaching beyond Super Tuesday and the nominations of George Bush and Michael Dukakis Barbara Norrander s book presents the nation s first regional primary as the latest chapter in the ever changing system through which U S political parties choose their presidential candidates Norrander s research details how changes in technology candidate and media strategies and historical circumstances have influenced recent presidential nominations and how they set the stage for the South s primary in 1988 Super Tuesday Regional Politics and Presidential Primaries emerges as an authoritative source not only on Super Tuesday but on many other aspects of presidential nominations This book demonstrates that much of current conventional wisdom about presidential nominations is wrong Norrander traces candidate strategies from 1976 to 1988 and calculates turnout rates from 1960 to 1988 She also examines the composition of the Super Tuesday electorate with respect both to preconceived notions of who participates in presidential primaries and to deliberate attempts by the Democratic and Republican parties to manipulate voter turnout in the South s regional primary Her analysis of the timing and process of nomination victories from 1976 to 1988 emphasizes the importance of the overlooked role of candidate attrition over candidate momentum Of special interest to political scientists and to political observers concerned with parties elections and voting behavior Norrander s book will reshape the examination of presidential contests in 1992 and beyond **Democracy and Foreign Policy** Miroslav Nincic, 1992 This study challenges the belief that liberal democracy is incompatible with an effective foreign policy The author focuses initially on the effect of democratic practices and institutions on the efficacy and wisdom of international dealings Then he examines the pursuit and consequences of American foreign policy objectives on some of the central aspects of US democracy including the balance of power between the executive and legislative branches civil liberties and freedom of speech **Victory** Arthur B. Sanders, 1992 An unabashed liberal democrat the author argues that there are a

number of myths and half truths about American politics that need to be properly understood if progressives and the Democratic party are to win the Presidency and govern effectively *See How They Ran* Gil Troy,2012-09-18 *See How They Ran* explores why candidates campaign as they do why Americans complain about it and what these evolving patterns and changing images tell us about American democracy itself On the eve of every election many Americans become convinced that this presidential campaign is worse than it has ever been Frustrated we long for the good old days of dignified campaigns and worthy candidates However as Gil Troy s fascinating history demonstrates they never existed Originally candidates did not run for office but awaited the people s call in dignified silence When Stephen Douglas campaigned in 1860 he pretended to be visiting his mother as he traveled not actively campaigning In the post 1945 world however both Democratic and Republican candidates have stopped to kiss babies donned hard hats and pumped hands along the campaign trails From the founding of our nation Americans have wanted a leader who is simultaneously a man of the people and a man above the people In *See How They Ran* Troy shows that our disappointment with current presidential campaigns is simply the latest chapter in a centuries long struggle to make peace with the idea of leadership in a democratic society This is an engrossing and essential read **The Last Decade of the Cold War** Olav Njolstad,2004-08-02 The last decade of the Cold War witnessed the transformation of world politics with the collapse of one party Communist rule in Eastern Europe and the Soviet Union This book explains how it happened and why *The Politics of Parenthood* Mary Frances Berry,1994-03-01 A distinguished scholar presents a landmark historical perspective on parenthood in America This trailblazing book suggests that behind the rhetoric of maternal responsibility are issues of power resources and control Berry s book could be a significant impetus for corporate executives and political leaders conservatives and liberals and mothers and fathers to support parental involvement that is gender free The Washington Post Book World *Americans View Crime and Justice* Timothy J. Flanagan,Dennis R. Longmire,1996-06-10 This book should be made a part of any college level library that features holdings in social sciences *Americans View Crime and Justice* presents a national public opinion survey and its results on the issues These edited results of a survey conducted in 1995 examine such issues as gun control capital punishment and juvenile crime offering public opinion along with the analyses of a panel of criminologists The Midwest Book Review Readable and carefully edited *Americans View Crime and Justice* reports and analyzes results from the recent National Crime and Justice Survey NCJS the richest and most wide ranging investigation of public opinion on crime and justice issues in more than a decade Conducted in June 1995 the survey features responses from 1 000 adults in the United States on now volatile issues such as fear of crime gun control capital punishment juvenile crime and additional related topics of national concern A distinguished panel of criminologists analyzes the collected data in this volume to present a comprehensive report on the development and current status of public opinion on these timely issues Divided into three sections context and framework findings and opinion policy and science this authoritative volume also analyzes the

implications of the survey data Providing interesting insights and timely quantification of Americans view of crime and justice this volume offers a unique view of public opinion particularly important to the work of researchers law enforcement personnel policy makers public officials and students of criminology and criminal justice law and political science **No**

Child Left Behind and the Transformation of Federal Education Policy, 1965-2005 Patrick J. McGuinn, 2006

Education is intimately connected to many of the most important and contentious questions confronting American society from race to jobs to taxes and the competitive pressures of the global economy have only enhanced its significance Elementary and secondary schooling has long been the province of state and local governments but when George W Bush signed into law the No Child Left Behind Act in 2002 it signaled an unprecedented expansion of the federal role in public education This book provides the first balanced in depth analysis of how No Child Left Behind NCLB became law Patrick McGuinn a political scientist with hands on experience in secondary education explains how this happened despite the country s long history of decentralized school governance and the longstanding opposition of both liberals and conservatives to an active reform oriented federal role in schools His book provides the essential political context for understanding NCLB the controversies surrounding its implementation and forthcoming debates over its reauthorization how the struggle to define the federal role in school reform took center stage in debates over the appropriate role of the government in promoting opportunity and social welfare He places the evolution of the federal role in schools within the context of broader institutional ideological and political changes that have swept the nation since the 1965 Elementary and Secondary Education Act chronicles the concerns raised by the 1983 report A Nation at Risk and shows how education became a major campaign issue for both parties in the 1990s McGuinn argues that the emergence of swing issues such as education can facilitate major policy change even as they influence the direction of wider political debates and partisan conflict McGuinn traces the Republican shift from seeking to eliminate the U S Department of Education to embracing federal leadership in school reform then details the negotiations over NCLB the forces that shaped its final provisions and the ways in which the law constitutes a new federal education policy regime against which states have now begun to rebel and that only by understanding the unique dynamics of national education politics will reformers be able to craft a more effective national role in school reform *Attack Politics* Emmett H. Buell, Lee Sigelman, 2008 Ask most Americans and they ll tell you that presidential campaigns get dirtier and more negative with every election This text suggests that this may not be as true as we think and shows that over the last dozen elections negativity may have been well publicised but hasn t increased

Victory Arthur Sanders, Stephen J. Wayne, 2016-09-16 The author of this book is an unabashed liberal democrat He argues that there are a number of myths and half truths about American politics that need to be properly understood if progressives and the Democratic party are to win the presidency and govern effectively The book has three parts myths and realities of public opinion current party coalitions their strengths and weaknesses a programme for progressive Democrats **The**

Enigma of 1989 Jacques Lévesque, 2023-04-28 The Enigma of 1989 The USSR and the Liberation of Eastern Europe explores the pivotal events of 1989 that reshaped the global political landscape focusing on the role of the Soviet Union in the collapse of Eastern European Communist regimes The book centers on the unexpected Soviet passivity in the face of these changes particularly under the leadership of Mikhail Gorbachev Unlike the rigid Soviet policies of the past Gorbachev's approach allowed for a peaceful dissolution of the Soviet Empire and the fall of the Berlin Wall The author examines how this surprising turn of events was not just a sign of Soviet weakness but also a strategic move within Gorbachev's broader vision for a transformed international order where Eastern European democratization was part of a controlled process aimed at benefiting the USSR The study argues that Gorbachev's policies were driven by a new ideology of transition which despite its roots in Marxism and Leninism sought to establish a world order based on new universal values This ideology coupled with the immense risks Gorbachev took helped him manage the crises in Eastern Europe neutralize conservative opposition and maintain Soviet influence in international politics until the fall of Eastern Europe in 1989 The book delves into the internal and external dynamics that led to the USSR's passive role in the dissolution of Eastern Europe and links it to Gorbachev's broader efforts to transform both Soviet foreign policy and domestic politics Ultimately it concludes that the collapse of the Eastern European regimes marked the breaking point of Gorbachev's ambitions as it led to a loss of control over both the Soviet Union and his foreign policy initiatives This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1997

The Gallup Poll George Gallup, 1986 2 volume sp The Gallup Poll Annual Series makes available every significant public opinion poll conducted by the Gallup Organization arranged chronologically by year Every volume has a full name and subject index to simplify accessing data on particular topics Standing orders may begin with any volume and may be cancelled at any time

Public And Professional Attitudes Toward Aids Patients David E. Rogers, Eli Ginzberg, 2019-07-11 This volume analyzes in considerable depth how fears prejudices social and moral values and individual perceptions have affected and shaped the public the personal the professional and the economic ways in which our society interacts with people suffering from HIV infections

Attitudes Toward the Outdoors, 1994 The 850 entries here from books newspaper magazine and professional journal articles public opinion collections and government documents are divided into five subject areas the environment parks and recreation areas outdoor recreation wildlife and wildlife management

The Post-Cold War Presidency Anthony J. Eksterowicz, Glenn P. Hastedt, 1999 With the end of the Cold War U S presidential leadership has become both more important and more difficult Post war periods have historically posed challenges to leadership and this time around the long time image of the Oleader of the free worldO has declined in the face of globalization and increased

interdependence among nations It is exactly this complex environment that makes Americans look ever more to their president for guidance This accessibly written volume discusses socio cultural political and economic changes during and after the Cold War period and how these have affected modern presidential leadership Prominent contributors cover key issues_image and character domestic and foreign policy distraction theory domestic and international economics executive legislative relations security intelligence executive dominance and activist government_and suggest strategies for helping to ensure a strong presidency in the future

The Democracy Sourcebook Robert A. Dahl,Ian Shapiro,Jose Antonio Cheibub,2003-08-15 The Democracy Sourcebook offers a collection of classic writings and contemporary scholarship on democracy creating a book that can be used by undergraduate and graduate students in a wide variety of courses including American politics international relations comparative politics and political philosophy The editors have chosen substantial excerpts from the essential theorists of the past including Jean Jacques Rousseau John Stuart Mill Alexis de Tocqueville and the authors of The Federalist Papers they place them side by side with the work of such influential modern scholars as Joseph Schumpeter Adam Przeworski Seymour Martin Lipset Samuel P Huntington Ronald Dworkin and Amartya Sen The book is divided into nine self contained chapters Defining Democracy which discusses procedural deliberative and substantive democracy Sources of Democracy on why democracy exists in some countries and not in others Democracy Culture and Society about cultural and sociological preconditions for democracy Democracy and Constitutionalism which focuses on the importance of independent courts and a bill of rights Presidentialism versus Parliamentarianism Representation discussing which is the fairest system of democratic accountability Interest Groups Democracy s Effects an examination of the effect of democracy on economic growth and social inequality and finally Democracy and the Global Order discusses the effects of democracy on international relations including the propensity for war and the erosion of national sovereignty by transnational forces

Passions and Interests Gerald M. Pomper,1992 Pomper examines both empirically and normatively models of party as bureaucratic organization governing caucus cause advocate ideological community social movement urban machine rational office seeking team and personal faction He evaluates the contributions of U S political parties to democratic values and presents a program to strengthen the parties as institutions of American democracy
