

Humour and Jokes: What's So Funny?

✓ Exclusively available on IvyPanda

Introduction

Humour has been defined as a form of assembling behaviour and regularities in a society to make people laugh. Humour has been said to constitute two opposing realities. The social diversity between different people is a key indicator of what to be considered humorous.

There many situations which generate humour to different individuals depending on the cultural background. It has also been said that age and gender plays an increasingly influencing role in identifying the response of people on different jokes (Oropeza-Escobar, M. 2011).

Functions of joking

Since humour applies to different cultural and social group, it has been said to have a sole function of enhancing class interactions. Joking creates a relationship whereby two individual or groups of people become free to exchange any form of communication. Humour has a vital function, which it makes sure that potentially disruptive sentiments are contained through a joking way.

In other words, what may appear to be a sensitive issue may be discussed without being serious. It serves like a defence in situations when a person makes a controversial statement than simply asserting it was to be a joke. Secondly, humour is also used as an expression of a common identity whereby a person makes fun of a situation he/she is experiencing.

Humour can also be extended to circumstances whereby a feeling of free interaction is desired. This mostly happens in a working environment when new workers meet. It can also be used when unfamiliar people have met. Jokes are highly effective in making sure that what seemed boring is given a twist, and everyone gets involved in the discussion (Macionis & Gerber, 2011).

Game Of Humor Paper

Game Of Humor Paper:

The Game of Humor Charles R. Gruner, 2017-07-05 Humor wit and laughter surround each person From everyday quips to the carefully contrived comedy of literature newspapers and television we experience humor in many forms yet the impetus for our laughter is far from innocuous Misfortune stupidity and moral or cultural defects however faintly revealed in others and ourselves seem to make us laugh Although discomfiting such negative terms as superiority aggression hostility ridicule or degradation can be applied to instances of humor According to scholars Thomas Hobbes s superiority theory that humor arises from mischances infirmities and indecencies where there is no wit at all applies to most humor With the exception of good natured play Charles R Gruner claims that humor is rarely as innocent as it first appears Gruner s proposed superiority theory of humor is all encompassing In *The Game of Humor* he expands the scope of Hobbes s theory to include and explore the contest aspect of good natured play As such the author believes all instances of humor can be examined as games in terms of competition and keeping score winners and losers Gruner draws on a broad spectrum of thought provoking examples Holocaust jokes sexual humor the racist dialogue of such comic characters as Stepin Fetchit and Archie Bunker simple puns and many of the author s own encounters with everyday humor Gruner challenges the reader to offer a single example of humor that cannot be de-humorized by its agonistic nature *The Game of Humor* makes intriguing and enjoyable reading for people interested in humor and the aspects of human motivation This book will also be valuable to professionals in communication and information studies sociologists literary critics and linguists and psychologists concerned with the conflicts and tensions of everyday life [Humour and Environmental Education](#) Constance Russell, Patrick

Chandler, Justin Dillon, 2024-12-23 This book illustrates how humour can be a powerful tool for environmental education Hailing from eight different countries the authors inquiries are grounded in a range of sites of learning and focus on different comedic forms offering a variety of perspectives on the ways humour features or could feature in environmental education The chapters adopt an array of methodological approaches and theoretical frames drawing not only on environmental education research and humour studies but also scholarship in affect theory antiracist and Indigenous education climate change communication critical pedagogy ecocriticism and language arts education feminist theory human animal relations media studies new materialisms philosophy psychology public pedagogy science education and social movement studies Many of the topics discussed in this volume necessitated multi or interdisciplinary inquiries and pedagogies Delving into humour led the authors to push beyond the boundaries of their own disciplines and for some to form creative collaborations that took them not only into new academic fields but also outside their professions to work with actors cartoonists comedians and game developers This book was originally published as a special issue of *Environmental Education Research*

Translation, Humour and the Media Delia Chiaro, 2010-09-23 Translation studies and humour studies are disciplines that have been long established but have seldom been looked at in conjunction This volume looks at the intersection of the

two disciplines as found in the media on television in film and in print From American cable drama to Japanese television this collection shows the range and insight of contemporary cross disciplinary approaches to humour and translation Featuring a diverse and global range of contributors this is a unique addition to existing literature in translation studies and it will appeal to a wide cross section of scholars and postgraduates **ArtsIT, Interactivity and Game Creation** Anthony L.

Brooks, Domna Banakou, Slavica Ceperkovic, 2025-07-10 This volume constitutes the proceedings of the 13th EAI International Conference on ArtsIT Interactivity and Game Creation ArtsIT 2024 in Abu Dhabi United Arab Emirates during November 13 15 2024 The 38 full papers and 4 short papers were presented in this volume were carefully reviewed and selected from 112 submissions The papers are thematically arranged in the following sections Part I Art Technical Education Co Creativity in multi modal interaction with generative AI Part II Amplifying Creativity Exploring Digital Musical Interfaces Illuminating Realities Creating immersive spaces to promote mindfulness and wellbeing Posters Intelligent Technologies for

Interactive Entertainment Dennis Reidsma, 2014-06-20 This book constitutes the proceedings of the 6th International Conference on Intelligent Technologies for Interactive Entertainment INTETAIN 2014 The 8 full papers presented together with 4 special session papers 4 panels and 6 extended abstracts were carefully selected from 26 submissions The papers present interdisciplinary research covering topics such as creativity applied to technology AI cognition and models of engagement and play The special session papers address the topic of humor in intelligent environments **Humor in**
