Excerpt from *Games Ancient and Oriental and How to Play Them* Being the Games of the Ancient Egyptians The Hiera Gramme of the Greeks the Ludus Latrunculorum of the Romans and the Oriental Games of Chess Draughts Backgammon and Magic Squares The present age is distinguished for discovery of the records and monuments of antiquity and for the wonderful discoveries of the secrets of nature for searching after things long past and for making progress with rapid strides into the future These two studies frequently go hand in hand together We study the buildings and the sculptures of the ancients and the paintings of the old masters and we apply the principles thus learnt to the requirements of the present day we study ancient authors not merely to improve our taste and intellect but also to enable us to exert our faculties to the best advantage in the affairs of life The past the present and the future are woven together in all the studies and occupations of man As a healthy recreation from pursuits of more severe study necessity and usefulness the following pages are offered in the hope that some of the amusements of past ages may take their place among the relaxations of modern times The author directed his attention many years ago to the games of chess draughts and backgammon and to the formation of magic squares About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      *Games and Ancient and Oriental and How to Play Them* Edward Falkner, 2009-02 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1917 edition Excerpt 6 Columns for Discount on Purchases and Discount on Notes on the same side of the Cash Book c Columns for Discount on Sales and Cash Sales on the debit side of the Cash Book d Departmental columns in the Sales Book and in the Purchase Book Controlling Accounts The addition of special columns in books of original entry makes possible the keeping of Controlling Accounts The most common examples of such accounts are Accounts Receivable account and Accounts Payable account These summary accounts respectively

displace individual customers and creditors accounts in the Ledger The customers accounts are then segregated in another book called the Sales Ledger or Customers Ledger while the creditors accounts are kept in the Purchase or Creditors Ledger The original Ledger now much reduced in size is called the General Ledger The Trial Balance now refers to the accounts in the General Ledger It is evident that the task of taking a Trial Balance is greatly simplified because so many fewer accounts are involved A Schedule of Accounts Receivable is then prepared consisting of the balances found in the Sales Ledger and its total must agree with the balance of the Accounts Receivable account shown in the Trial Balance A similar Schedule of Accounts Payable made up of all the balances in the Purchase Ledger is prepared and it must agree with the balance of the Accounts Payable account of the General Ledger The Balance Sheet In the more elementary part of the text the student learned how to prepare a Statement of Assets and Liabilities for the purpose of disclosing the net capital of an enterprise In the present chapter he was shown how to prepare a similar statement the Balance Sheet For all practical
