[Proceedings of the International Conference Theory and Applications in the Knowledge Economy TAKE 2017](#) Blazenka Knezevic, Gaby Neumann , 2017-07-08 Foreword A famous Portuguese Poet once said around one hundred years ago before I was born all the words that should save the Humanity had already been written the only thing that was missing was to save Humanity Fast forward to the 21st century services led and knowledge based economy and we have myriads of theoretical study about the decisive assets namely intangibles Those

analysis are made in several perspectives namely Human Resources Knowledge Management Intellectual Capital and also many sectorial perspectives like Trade Economics Logistics Social Policy etc However today the question about the applicability of all these studies remains unsolved So it like many of the words that will save the Knowledge Economy have already been written all we need is to save the Knowledge Economy Or is it not The idea behind TAKE Conference was to provide a multidisciplinary forum in which those multiple perspectives will come together We believe it is a fruitful operation and we intend to continue the exercise in the future The problem of the relation between theory and practice in the knowledge economy is getting more important and not less important with the development of the BRICS and other nations TAKE main question will be one of the problems of the 21st century Following the promising start of TAKE 2016 in Aveiro Portugal TAKE 2017 was organized by the Faculty of Economics of Zagreb University around Prof Blazenka Knezevic I would like to thank her and her team for the massive effort in putting TAKE 2017 together It will be a very nice and memorable conference I would like also to thank the 5 keynotes the special sessions and workshop organizes the authors of the 60 papers and 5 posters the stream leaders the reviewers and the sponsors for the efforts And to the 90 participants from 20 countries Austria Bosnia Herzegovina Canada Croatia Germany Hong Kong Hungary Netherlands Mexico Portugal Poland Romania Russia South Africa Serbia Slovakia Spain Thailand United Kingdom United States A special word to Prof Gaby Neumann from Wildau who organized the Proceedings Let us make TAKE 2017 a great occasion and help save the knowledge economy a bit Eduardo Tom Conference Chair Zagreb July 2017

Behavioural Economics and Business Ethics Philip Alexander Rajko, 2013-03-01 Economics and moral philosophy have in recent years been considered to be distinct and separate fields However behavioural economics has started to reconcile various aspects of morality and economics which has offered new conceptual opportunities to advance economics ethics and business ethics This book aims to advance economic ethics and business ethics by combining normative principles and empirical evidence grounded on the key motivational forces in economic decision making It has three core objectives to assess order ethics as a theory of both economic ethics and business ethics using behavioural economics methods and evidence to identify cardinal virtues for modern business ethics to set up valuable guidelines for the implementation of economic ethics and business ethics

Strategy and Game Theory Felix Munoz-Garcia, Daniel Toro-Gonzalez, 2019-05-16 This textbook presents worked out exercises on game theory with detailed step by step explanations While most textbooks on game theory focus on theoretical results this book focuses on providing practical examples in which students can learn to systematically apply theoretical solution concepts to different fields of economics and business The text initially presents games that are required in most courses at the undergraduate level and gradually advances to more challenging games appropriate for graduate level courses The first six chapters cover complete information games separately analyzing simultaneous move and sequential move games with applications in industrial economics law and regulation Subsequent chapters dedicate special attention to incomplete information games

such as signaling games cheap talk games and equilibrium refinements emphasizing common steps and including graphical illustrations to focus students attention on the most relevant payoff comparisons at each point of the analysis In addition exercises are ranked according to their difficulty with a letter A C next to the exercise number This allows students to pace their studies and instructors to structure their classes accordingly By providing detailed worked out examples this text gives students at various levels the tools they need to apply the tenets of game theory in many fields of business and economics The second edition of the text has been revised to provide additional exercises at the introductory and intermediate level expanding the scope of the book to be appropriate for upper undergraduate students looking to improve their understanding of the subject The second edition also includes a new chapter devoted entirely to cheap talk games Revised to appeal to a larger audience of instructors and students this text is appropriate for introductory to intermediate courses in game theory at the upper undergraduate and graduate levels
