Research Guide (1987) Wayne R. Dynes,2017-02-17 First published in 1987 this book encompasses a broad range interdisciplinary research into homosexuality displaying a full spectrum of points of view and given that the major traditions of modern homosexual research began in Europe is not restricted to works in English In general topics that are densely covered in the literature are presented in this guide selectively with some less studied topics such as Economics and Music fleshed out with signposts to more comprehensive research It seeks to not only mirror existing publications but also to stimulate new work by pinpointing neglected themes and methods This book will be of interest to students of sociology

Heterogender Homosexuality in Honduras Manuel Fernández-Alemany,Stephen O. Murray,2002 This ethnography of the sexual culture of males who have sex with males in the lower class part of San Pedro Sula Honduras shows that the analytic distinction between gender and sexuality is inoperative for Honduran men It provides original research and innovative analysis of Latin American sexual culture and the gendering of Latino sexualities and based on the views of lower class Hondurans challenges the heralding of globalization as liberation The collaboration between a Latin American anthropologist and an American comparativist sociologist is particularly novel and noteworthy for including the perspectives on homosexuality of the young men hombres who penetrate those classified as homosexuals and makes important contributions to Latin American studies gender studies cultural studies and to understanding sexual cultures *Homosexualities* Stephen O. Murray,2002-06 Breathtaking in its historical and geographical scope this book provides a sweeping examination of the construction of male and female homosexualities stressing both the variability of the forms same sex desire can take and the key recurring patterns it has formed throughout history An indispensable resource on same sex sexual relationships and their social contexts Essential reading Choice P romises to deliver a lot and even more extraordinarily succeeds in its lofty aims O riginal and refreshing A sensational book part of what I see emerging as a new commonsense revolution within academe Kevin White International Gay and Lesbian Review **Islamic Homosexualities** Stephen O. Murray,Will Roscoe,1997-02

The first anthropological collection that reveals patterns of male and female homosexuality in the Muslim World The dramatic impact of Islamic fundamentalism in recent years has skewed our image of Islamic history and culture Stereotypes depict Islamic societies as economically backward hyper patriarchal and fanatically religious But in fact the Islamic world encompasses a great diversity of cultures and a great deal of variation within those cultures in terms of gender roles and sexuality The first collection on this topic from a historical and anthropological perspective Homosexuality in the Muslim World reveals that patterns of male and female homosexuality have existed and often flourished within the Islamic world Indeed same sex relations have until quite recently been much more tolerated under Islam than in the Christian West Based on the latest theoretical perspectives in gender studies feminism and gay studies Homosexuality in the Muslim World

includes cultural and historical analyses of the entire Islamic world not just the so called Middle East Essays show both age stratified patterns of homosexuality as revealed in the erotic and romantic poetry of medieval poets and gender based patterns in which both men and women might to varying degrees choose to live as members of the opposite sex The contributors draw on historical documents literary texts ethnographic observation and direct observation by both Muslim and non Muslim authors to show the considerable diversity of Islamic societies and the existence of tolerated gender and sexual variances

Out in the Field Ellen Lewin, William Leap, 1996 Lesbian and gay anthropologists write in Out in the Field about their research and personal experiences in conducting fieldwork about the ethical and intellectual dilemmas they face in writing about lesbian or gay populations and about the impact on their careers of doing lesbian gay research The first volume in which lesbian and gay anthropologists discuss personal experiences Out in the Field offers compelling illustrations of professional lives both closeted and out to colleagues and fieldwork informants It also concerns aligning career goals with personal sexual preferences and speaks directly to issues of representation and authority currently being explored throughout the social sciences

Mucho Macho Chris Girman, 2013-12-16 Quality research uniquely enhanced by the author's personal experience In one of the first books to examine machismo from the perspective of Latin American and Latino men Chris

Girman relies on a compelling combination of ethnographic research and personal experience to explain how macho men like the author himself regulate and sustain same sex erotic encounters. Girman incorporates his own sexual experiences with a variety of Latin men into the book, infusing his writing with the unique perspective and vivid description that can only be related by someone who has lived the research he writes about. While most of the literature on Latin American male same sex desire ignores the significance of the male body in its investigation, this book shows why it is essential to focus on the macho male body and re-evaluates so-called machismo to forge a more nuanced description of Latin American masculinity. Girman incorporates his own sexual experiences with a variety of Latin American men into the book, infusing his writing with the unique perspective and vivid descriptions that can only be related by someone who has lived the research he writes about. With this book, you will become familiar with various kinds of Latin American homosexual behavior. Here is a glimpse at what you will find inside *Machismo Practice*. Theorists and Macho Performance summarizes previous research on Latin American male homo sexuality and defines the author's concept of machismo and Latin American masculinity. *Head Hands Balls and Ass* shows why focusing on the body as living matter rather than metaphor, as is done in so many other books on sexuality, is the ideal point of entry into the study of Latin American male homo sexuality and masculinity. This chapter focuses on specific regions of the macho body: head, hands, balls, and ass, to explain how machismo actually promotes rather than denies sexual encounters between men. It also shows the importance of the Latin American family as a variable that structures the manner and frequency in which homo sexual encounters occur. *The Dominican Tiguere and Hegemonic Masculinities* takes a specific look at a very peculiar form of hegemonic masculinity, relying on cunning more than strength to come out on top, that is indigenous to the Dominican Republic. This chapter also tells the stories of five of the author's sexual encounters in that nation and discusses the tiguere style of masculine performance. *Desire in a Costa Rican Prison* analyzes the ways in which desire, power, and pleasure are constituted in the Latin American prison environment. *Historical Representations of Same Sex Desire* examines two short stories: *El Matadero* by Esteban Echeverría and *Comienza el Desfile* by Reinaldo Arenas, which highlight male eroticism as important concepts within discourses on national identity. Both stories conceptualize same sex desire within specific historical moments and demonstrate how male homo sexuality emerges and represents itself not in contrast to the dominant discourse but within that discourse itself. *Familiar: Familial Voices* by Latino Men Speak Out documents the voices of gay identified Latino men living in Central Texas, men who have come to love other Latin Black and Anglo men in the context of very full lives. These men reveal their conceptions of identity, race, performance, resistance, family, pleasure, desire, masculinity, silence, and place. *Performing Matter's Masculinity: the Male Body and the Evocation of the non-real* defies the notion that written representations can capture the lived realities of
