Medicine, Risk, Discourse and Power John Martyn Chamberlain,2015-11-19 This book critically explores from a comparative international perspective the role medicine plays in constructing and managing natural and social risks including those belonging to modern medical technology and expertise Drawing together chapters written by professional practitioners and social scientists from the UK South America Australia and Europe the book offers readers an insightful and thought provoking analysis of how modern medicine has transformed our understanding of both ourselves and the world around us but in so doing has arguably failed to fully recognize and account for its unintended and negative effects This is an essential read for social scientists practitioners and policymakers who want to better understand how they can develop new ways of thinking about how modern medicine can promote social goods and enhance public health

Sustainability Challenges in the Fashion Industry Miguel Ángel Gardetti,Rosa Patricia Larios-Francia,2023-06-10 Fashion and the growth of fashion are presented as the manifestation of a process of civilization within a capitalist culture capital understood as material possessions that has become global and imperialist of which in an economic sense the industry or the fashion system

functions as one of its main instruments of exploitation And with respect to design Arturo Escobar said Can design detach itself from its roots in modernist practices of unsustainability and defuturization and reorient itself towards other commitments practices narratives and ontological enactions Moreover can design be part of the toolkit for the transition to the pluriverse i e a world in which many worlds can fit This book presents the importance of cultural sustainability in the textiles and fashion industry decolonizing fashion system and promotes the design for transitions Espacio público y reconstrucción de ciudadanía Patricia Ramírez Kuri,2003-01-01 Pensar la ciudad desde el marco conceptual del espacio público y redefinir el concepto de espacio público desde nuestras ciudades tal es la propuesta del libro Ello obliga a los autores aquí reunidos a aventurarse simultáneamente en el terreno de las precisiones técnicas y en el de los análisis de casos a trabajar con conceptos y con actores con espacios imaginarios y con espacios territorialmente delimitados A mostrar a través de diversas experiencias urbanas los condominios los comités vecinales el diseño urbano las ONG ciudadanas los servicios de salud cómo transcurre la vida pública en las megaciudades contemporáneas y cómo en el encuentro en esos espacios ciudadanos autoridades expertos y movimientos sociales pugnan por redefinir en cada caso los límites entre lo público y lo privado

Industrial relations and financial globalization Ignasi Brunet,Alejandro Pizzi,David Moral,2019-06-13 Capitalism in its modern form has become universal and has a presence in practically every country in the world including those which once called themselves Communist This book studies its effects on different labor markets from those linked to highly tertiary economies EU 27 USA and Japan to the most productive economies such as China and on to economic models that are in full transition from secondary to tertiary economies as is the case in several Latin American countries Capitalismo Financiero y Comunicación Francisco Sierra Caballero,Francesco Maniglio,2016-12-02 Si los procesos de financiarización de la economía son una característica dominante de la transformación socioeconómica mundial analizar los aspectos y los cambios de la comunicación en relación a estas se torna una prioridad estratégica En el marco contemporáneo de la globalización entender la financiarización de la economía como proceso contribuye desde una visión heterodoxa de la economía a comprender las transformaciones en curso El proceso de valorización financiera del capital ha transformado radicalmente el modelo hegemónico de comunicación que ahora más que nunca es liderado por el poder casi absoluto de un corporativismo financiero No de otro modo es posible hoy el proceso de acumulación del capital Ciertamente la revolución digital ha liquidado en el tiempo y en el espacio los límites de explotación intensificando la movilidad del capital dinero por medio de la financiarización de la economía pero básicamente la recomposición de las condiciones sociales existentes para la recuperación de la tasa de beneficio del capital rentista solo es posible a partir de las contrarreformas basadas en el principio de gobernanza y excepcionalidad que hacen posible la expropiación de la riqueza y la contención de las demandas sociales Este volumen trata de aportar elementos para el análisis de la dinámica financiera y el papel de la información como vector de acumulación en los procesos que hoy tienen lugar con la desposesión del capital El libro que tiene el lector

en su manos es apenas un aporte colectivo a la discusión y esperamos que una invitación o ayuda al estudio en un ámbito poco o nada analizado aun considerando la conocida sobredeterminación que viene observándose en el sistema de medios

Against Inequality Alejandro I. Canales, Dídimo Castillo Fernández, 2024-09-16 In *Against Inequality* the authors offer a theoretical and political proposal for social emancipation seen as an opportunity to build conditions of equality in contexts of freedom not only for ethical but essentially political foundations To achieve this the authors confront inequality in two ways as a social phenomenon and therefore historically situated and structured and through critical reflection on the concepts categories indicators and frameworks of its understanding In this sense they propose a critical reflection of the ways in which it has been thought theoretically and politically at various times with special reference to the way in which it has been conceived in modern capitalist society

Alejandro Piscitelli, 2001-08 **El cine de la marginalidad** Christian León, 2005 En los últimos quince años se produjo en América Latina un gran número de películas que abordaron con desencanto la vida de los personajes marginales de la gran urbe Los filmes configuran una tendencia en el cine regional que ha empezado a denominarse realismo sucio Este libro plantea un análisis de las implicaciones sociales culturales y cinematográficas del fenómeno a partir del concepto de cine de la marginalidad Filmes como *Rodrigo D no futuro* 1990 *Pizza birra y faso* 1997 *La vendedora de rosas* 1998 *Ratas ratones y rateros* 1999 *Amores perros* 2002 y *Un oso rojo* 2002 son examinados con minuciosidad para descubrir el horizonte discursivo que los explica El Cine de la Marginalidad define una nueva situación histórica nacida del agotamiento del paradigma nuevo cine latinoamericano surgido en los años de 1970 Plantea una singular combinación de modelos narrativos de ficción y procedimientos documentales a través de la apropiación de géneros cinematográficos del primer mundo desde la periferia Se caracteriza por reconstruir el punto de vista del sujeto marginal más allá de las narrativas de redención y progreso propias de la cultura ilustrada De ahí que el autor sostenga que este cine introduce en la escena pública la vivencia de los sujetos y las subculturas excluidas de las instituciones sociales Sin embargo esta visibilización del mundo marginal lejos de ser transparente y apacible muestra la imagen intraducible y violenta del sujeto subalterno que desafía al propio relato cinematográfico y deja ver el límite de la racionalidad capitalista y la cultura letrada Publisher's website *Economía política del clientelismo.
