Economic Policies and Price Stability in China Tong-eng Wang,1980 **How China Escaped Shock Therapy**

Isabella M. Weber,2021-05-26 China has become deeply integrated into the world economy Yet gradual marketization has facilitated the country's rise without leading to its wholesale assimilation to global neoliberalism This book uncovers the fierce contest about economic reforms that shaped China's path In the first post Mao decade China's reformers were sharply divided They agreed that China had to reform its economic system and move toward more marketization but struggled over how to go about it Should China destroy the core of the socialist system through shock therapy or should it use the institutions of the planned economy as market creators With hindsight the historical record proves the high stakes behind the question China embarked on an economic expansion commonly described as unprecedented in scope and pace whereas Russia's economy collapsed under shock therapy Based on extensive research including interviews with key Chinese and international participants and World Bank officials as well as insights gleaned from unpublished documents the book charts the debate that ultimately enabled China to follow a path to gradual reindustrialization Beyond shedding light on the crossroads of the 1980s it reveals the intellectual foundations of state market relations in reform era China through a longue d'ur e lens Overall the book delivers an original perspective on China's economic model and its continuing contestations from within and from without

Market and Plan under Socialism Jan S. Prybyla,2019-11-07 In this volume the author provides an analysis of the centrally planned socialist state economies and their common percentage in the Stalinist Plan introduced in the Soviet Union in the late 1920s Prybyla first explores the neoclassical plan in two variants conservative and liberal the radical plan Maoplan and the Yugoslav experiment neomarket Yugoplan He then examines specific countries as their governments search for alternative solutions to the economic problems that plague them His dynamic presentation of the economic models clearly shows the transformation of the original Stalinist model reveals the obstacles to reform created by the structural problems that exist within these economies and demonstrates that inherent deficiencies within the systems must in time affect growth and balance

China Exchange News ,1980 A review of education science and academic relations with the PRC

The New China Alvin Rabushka,Michael Kress,2019-06-18 In a thoroughly researched and clearly written account of the development experiences of mainland China Taiwan and Hong Kong Alvin Rabushka examines three societies with similar populations but very different political and economic institutions Rejecting one dimensional explanations of successful development Rabushka looks at the way in which

Chinese Business Under Socialism Dorothy J. Solinger,1987 *From Mao to Market* Andrew H. Wedeman,2003-07-10 Andrew Wedeman argues that China succeeded in moving from a Maoist command economy to a market economy because the central government failed to prevent local governments from forcing prices to market levels Having partially decontrolled the economy in the early 1980s economic reformers balked at price reform opting instead for a hybrid system wherein commodities had two prices one

fixed and one floating Depressed fixed prices led to resource wars as localities battled each other for control over undervalued commodities while inflated consumer goods prices fuelled a headlong investment boom that saturated markets and led to the erection of import barriers Although local rent seeking and protectionism appeared to carve up the economy in reality they had not only pushed prices to market levels and cleared the way for sweeping reforms in the 1980s they had also pushed China past the pitfalls of reform that entrapped other socialist economies **Socialist Construction in China**

Abdol S. Soofi, 2024-06-28 The Chairman of the State Planning Commission of the PRC in 1955 attributed the economic problems countering the development of the socialist economy to the anarchy of capitalist economy However after three decades of central planning the President of the Chinese Academy of Social Sciences exclaimed Today we are all recognizing the irrationality of an economic structure that has built up over the years The author of this book examines the economic policies and performances that brought such a radical transformation to the world outlook of China s leaders The book contains three parts The first part traces the historical roots of China s chaotic economic condition and hyperinflation in the 1940s and the early 1950s The second part deals with how the irrational economic system was formed The third part deals with the reasons for the emergence of economic irrationality resource misallocation the necessity of economic reforms and industrial restructuring *China's Conversion to a Market Economy* Kyōichi Ishihara, 1993 **Appendix to the Rice**

Economy of Asia Beth Rose, 2016-03-17 Originally published in 1985 Beth Rose s Appendix to the Rice Economy of Asia provides twenty six tables detailing various rice statistics across Asia from the beginning of the twentieth century through to the 1980 s Statistics presented include total crop area rice production and yield import and export rice prices farm wages and populations of countries or areas within Asia This title will be of interest to students of Environmental Studies and Economics *Chinese Economic Reforms at the Crossroads* Leong H.
