Economics Of Recreation Leisure And Tourism:

The Economics of Recreation, Leisure and Tourism John Tribe, 2006-08-11 Now in its third successful edition *The Economics of Leisure and Tourism* has been fully revised and updated to cover all the latest issues and changes and more. Essentially a real world text in applied economics it explains the necessary economic theories from first principles and applies them to a range of leisure and tourism problems and issues at the consumer business national and international level. Key themes discussed are: How is the provision of leisure and tourism determined and could it be provided in a different way? What are the key opportunities and threats facing leisure and tourism? Environmental impacts: How can economics be used to manage leisure and tourism? International outlook: this text uses examples from Brazil, China, India and Japan as well as Europe, North America and Australia. With an accompanying website with links and Powerpoint resources for lecturers, this new edition provides new chapters on regeneration tourism as an economic development strategy, globalisation and political economy of tourism, introduction of dependency theory and development economics theories, liberal use of press cuttings, journal articles and international case studies. User friendly learning features such as visual mapping of chapter contents, chapter objectives, summaries of key points, short answer questions.

The Economics of Leisure and Tourism John Tribe, 1997
The Economics of Recreation, Leisure and Tourism John Tribe, 2020-04-01 One of the leading texts in the field, *The Economics of Recreation, Leisure and Tourism* is the ideal introduction to the fundamentals of economics in these industries, helping you to enjoy and pass an economics module as part of tourism, recreation, events or sport management degrees. International in its outlook, it will equip you with vital skills and knowledge for your future career as well as critical skills to help you understand and help tackle crucial challenges facing the world. It is written in a clear and engaging style that assumes no prior knowledge of economics. It applies economic theory to a range of tourism industry issues at the consumer business national and international level by using topical examples to give the theory real world context. This book is richly illustrated with diagrams and contains a range of features such as international case studies showcasing current issues, review questions and extracts from journals to aid understanding and further knowledge as well as new data and statistics. It concludes with a powerful critique of traditional economics and a set of twenty-one issues that demand action. This sixth edition has been revised and updated to include recent and time series international economic data to provide a sense of the dynamics of world economies, topical analysis to aid decision making for industry, governments and pressure groups, a renewed emphasis on environmental and climate change issues, new and revised international case studies that demonstrate theoretical principles of economics as applied to the sector, a companion website with PowerPoint slides.
