Restaging War in the Western World M. Abbenhuis,S. Buttsworth,2009-03-30 This collection seeks to move noncombatant perspectives to center stage acknowledging their importance destabilizing the primacy of the combatant and explaining or undermining the staging of warfare as a singular and acontextual production     Psychiatrische en Neurologische Bladen ,1897     **Tijdschrift Voor Sociale Hygiene** ,1912     Reverberations of Nazi Violence in Germany and Beyond Stephanie Bird,Mary Fulbrook,Julia Wagner,Christiane Wienand,2016-02-25 Reverberations of Nazi Violence in Germany and Beyond explores the complex and diverse reverberations of the Second World War after 1945 It focuses on the legacies that National Socialist violence and genocide perpetrated in Europe continue to have in German speaking countries and communities as well as among those directly affected by occupation terror and mass murder Furthermore it explores how those legacies are in turn shaped by the present The volume also considers conflicting unexpected and often dissonant interpretations and representations of these events made by those who were the witnesses victims and perpetrators at the time and also by different communities in the generations that followed The contributions from a range of disciplinary perspectives enrich our understanding of the complexity of the ways in which a disturbing past continues to disrupt the present and how the past is in turn disturbed and instrumentalized by a later present     Under Fire: Women and World War II Eveline Buchheim,Ralf Futselaar,2014 Since the 1970s when the dominance of military histories of the World Wars ended and social historical histories of conflict rose to prominence women have come to play an increasingly important role in mainstream stories about the Second World War Although this is undeniably a valuable development the perspectives on women that arose have in many respects remained limiting although in new ways Women have been portrayed as carers as victims notably of sexual violence but rarely as agents of their own fate This volume focuses on this last group In spite of the undeniable suffering and victimization that befell so many women during the war for others the war also opened opportunities and awakened ambitions The articles in this volume which cover both Europe and Asia bring together some of the women who took initiatives of which they sometimes suffered the dire consequences sometimes enjoyed the fruits
