Treating Alcohol and Drug Abuse Mats Berglund,Sten Thelander,Egon Jonsson,2006-03-06 What are the most promising strategies to treat alcohol and drug abuse What are their medical implications Despite the enormous resources spent on treating alcoholism and drug dependence there is still no satisfactory evaluation of their effectiveness or of the cost of the different alternatives Programs designed to treat substance abuse should be built on a foundation of evidence based knowledge Yet it is almost impossible to cope with the increasing amount of scientific literature This book thus represents a guide through the myriads of articles The most comprehensive scientific review of its kind it presents the findings from more than 1 600 studies on the effectiveness of different treatments The work also includes a summary of the methods available to

intervene against harmful levels of alcohol with most of the studies making use of the Diagnostic and Statistical Manual of Mental Disorders DSM system The extensive results are arranged in detailed tables which may be searched using the accompanying CD ROM Also enclosed are a quality checklist and an extensive glossary explaining more than 70 terms An invaluable tool for medical researchers clinicians and doctors as well as healthcare providers and insurers allowing them to save major resources by identifying ineffective treatments and being aware of cost effective alternatives With a foreword by Henry R Kranzler University of Connecticut USA

Improving the Effectiveness of the Helping Professions Morley D. Glick, 2005 The current practice of counselling psychotherapy and most helping professions often relies on clinical wisdom with little evidence of what actually works Clinical wisdom is often a justification for beliefs and values that bond people together as professionals but often fails to serve clients since many of those beliefs and values may be comforting but they may also be inherently incorrect Improving the Effectiveness of the Helping Professions An Evidence Based Approach to Practice covers the use of research and critical thinking to assist helping professionals make the most effective choices in treating clients with social and emotional problems The use of evidence based practice EBP comes at a time when managed care and concerns over health care costs coincide with growing concerns that psychotherapy case management and counseling may not be sufficiently effective ways of helping people in social and emotional difficulty

WHO Expert Committee on Problems Related to Alcohol Consumption WHO Expert Committee on Problems Related to Alcohol Consumption, 2007-09-19 Since the last meeting of the WHO Expert Committee on Problems Related to Alcohol Consumption WHO has undertaken a range of major initiatives to support Member States and reinforce the evidence on which policies work to develop global and regional information systems and to promote effective policies in health care settings These initiatives provide the background for the continuing role of WHO in supporting Member States to reduce the harm done by alcohol In resolution WHA58 26 the Fifty eighth World Health Assembly in 2005 requested the Director General to report to the Sixtieth World Health Assembly on evidence based strategies and interventions to reduce alcohol related harm including a comprehensive assessment of public health problems caused by harmful use of alcohol and to draw up recommendations for effective policies and interventions to reduce alcohol related harm To this end a WHO Expert Committee on Problems Related to Alcohol Consumption was convened with the main objectives of reviewing a range of public health problems attributable to alcohol consumption as well as scientific and empirical evidence of effectiveness of different policy options and providing technical recommendations on effective policies and interventions to reduce alcohol related harm
